Chocolate Covered Apples

1. Bring a sauce pan filled halfway with water to a boil; place chocolate in a stainless steel bowl and place on top of boiling water. Shut off water, and let chocolate melt, mixing until smooth. Mix in heavy cream to give the chocolate a richer flavor.
2. Cut apples into slices, skewer apple slices, arrange on a parchment lined sheet tray. Dip apples into chocolate and then pick and sprinkle your favorite toppings. Let cool on parchment-line tray.
