STOP WORK ORDER
1 Lake Street
Block 601, Lot 1
Borough of Upper Saddle River
Our Temporary File No. USRES-358

Dear Gentlemen:

We are hereby issuing a STOP WORK ORDER for each of the above referenced projects.

The chronic discharge of extensive sediment laden water into Carlough Road, the Borough storm sewer systems and adjacent properties must be controlled. Attached please find photographs from the latest breach of July 22, 2019 from the site. The only permitted activities on each of the two developments are for field directed soil erosion and sediment control measures.

Regarding Orchard Ridge, and by copy of this correspondence, we are also requesting Mahwah issue a STOP WORK ORDER for the development on the Mahwah portion of the project due to the site topography and erosion and sediment onto the Upper Saddle River portion of the project.

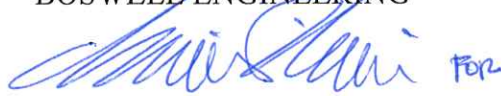

All construction activities must be stopped immediately.
