

A comment to the public regarding Allen Eagle Stadium

February 27, 2014

Pogue values its relationship with its customers and the opportunity to partner with school districts in providing quality buildings for the schools and community.

Pogue believes it has a special relationship Allen ISD and considers Allen ISD a significant long term partner. Pogue's strong relationship with Allen ISD has grown since Pogue's first project with Allen ISD in 1983. Pogue believes that one reason for the strength of that relationship is Pogue's repeated demonstration of its commitment to quality construction and to stand behind its services and products.

Pogue is aware of concerns of Allen ISD with regard to cracks at Allen Eagle stadium. Recently, Pogue became aware that Allen ISD was considering closing Allen Eagle stadium while attempting to determine what constitutes a sufficient repair of the issues Allen ISD claims have arisen with Allen Eagle stadium.

In light of the long and mutually beneficial relationship between Pogue and Allen ISD, Pogue wants to assure the public and Allen ISD that it is committed to appropriately resolving the concerns the District may have with the Allen Eagle Stadium which relate to any materials or services of Pogue, if any. In fact, it is Pogue's desire to have the issues resolved to Allen ISD's satisfaction prior to commencement of the 2014 football season.

However, at the time of this statement, Pogue does not know what will be considered an appropriate remedy or which, if any, person or entity may be responsible for the alleged condition(s). Additionally, because of the status of Allen ISD's investigation, and the limitation on the information possessed by Pogue as to an appropriate remedy and the responsibility for the same, Pogue cannot confirm what may be an appropriate remedy.

That being said, Pogue has repeatedly indicated in the past to Allen ISD representatives, and now confirms for the public, that Pogue will comply with its contractual and warranty obligations, including remedying any unanticipated conditions that may have arisen as a result of Pogue's services or materials or the services or materials of Pogue's subcontractors.

In summary, Pogue stands by its commitment to do its part to provide Allen ISD with the stadium to which it is entitled.

Pogue appreciates the understanding of Allen ISD as Pogue and Allen ISD attempt to determine an appropriate remedy and the responsibility for the same.

Ben Pogue, President
