

Target is committed to ensuring our prescription prices are at price parity with our competitors, and we work hard to provide our guests with convenient and affordable products and services that help them live a healthier lifestyle. For example, Target Pharmacy matches competitors' prescription prices, and we use a third-party vendor to monitor our competition on key prescription items. Additionally, Target Pharmacy offers a 30-day supply of more than 300 generic drugs for only \$4 and a 90-day supply for \$10, with no joiner fees. Guests can find the complete list of \$4 generics at [Target.com/pharmacy](https://www.target.com/pharmacy).
