

We urge people to find one pharmacy that offers the best value in terms of pricing, convenience and accessibility. Walgreens is committed to offering competitive pricing throughout our industry-related services.

We offer a Prescription Savings Club which offers savings on more than 8,000 medications. The program also offers deep discounts on more than 3,000 brand name and all generic medications and is an option for patients without health insurance or for patients who take medications that are not covered by their health plans.

On top of convenient locations and hours, it's also important to consider the level of service a drugstore provides. Our services include online pharmacy access, drive-thru service, automated refills, prescription labels available in 14 languages and more 24-hour locations than all drugstore chains combined. Our pharmacy network also allows patients to go to any Walgreens nationwide to refill their prescriptions.
