

# THIS RICHFIELD FAMILY NEEDS YOUR HELP

Toni Scribner was involved in an auto accident 9 years ago. She was hit by a car that ran a red light. As a result, she suffered a traumatic brain injury.

Her team of neurologists have suggested she see a leading specialist, Dr. Frederick Carrick in Atlanta, GA that deals with these types of brain injuries. He is known to have helped several professional hockey players that suffer from the same symptoms.

The treatment alone will cost thousands of dollars. In addition to the financial burden, **these kids need their mom back!**

To help offset the expenses of Toni's treatment, On Saturday, April 20<sup>th</sup> there will be a benefit dinner and silent auction. **There will also be kid activities! Bring the entire family!**
