***Attorney General Kelly and PA State Police
Commissioner Noonan issue statements regarding
Jerry Sandusky sex crimes investigation***

HARRISBURG — Attorney General Linda Kelly and Pennsylvania State Police Commissioner Frank Noonan today issued the following statements concerning the ongoing Jerry Sandusky sex crimes investigation:

"I understand that many of you have different degrees of familiarity with the allegations and circumstances of this case.

I know, too, that there has been extensive media coverage of these charges over the past weekend, that many news articles and opinion pieces have already been written, and that many of you are already very familiar with the allegations contained in the presentment as well as the defendants that have been charged and the organizations and institutions that have been mentioned.

This is an ongoing investigation and this is also a grand jury investigation, which means there are some details we cannot discuss at this time.

As we noted earlier, this is a case about a serial sexual predator accused of using his position within community to prey on numerous young boys for more than a decade.
