The Gun Violence Memorial Project seeks to create a permanent, national memorial that honors the lives and narratives of victims of gun violence.

If you have lost an immediate family member to gun violence, we invite you to participate in this memorial by contributing a Remembrance Object in memory of your loved one.

Remembrance Objects can be anything that tell a story of your loved one. *Please select an object that is no larger than 9" L x 4.5" W x 3" H.*

The community of Pittsburgh will also have the chance to virtually stream *The Price of Freedom*, a new documentary that tells the story of the gun violence epidemic in America.
