## Description/Analysis

**Issue:** The City previously required subdividers to pay fees for the cost of planting residential street trees as a condition of approving final maps or parcel maps in accordance with Sacramento City Code Section 16.48.110(l).

During the expansive building growth in North Natomas, subdividers paid the fee and most, upon their own undertaking, planted trees for the residential lots in the subdivisions. Consequently, the need for the City to plant trees in these subdivisions diminished and the Street Tree Fee fund balance grew.

Gov. Code Section 66006(a) of the Mitigation Fee Act (Gov. Code Section 66000 et seq.), provides that fees imposed as a condition of a development project are to be expended solely for the purpose for which the fee was collected. City Code Section 16.48.110(i) provides that the subject fee is for the purpose of “planting residential street trees” for each residential lot and corner lot within a subdivision. Gov. Code Section 66006(e) requires unspent fees collected pursuant to the Mitigation Fee Act be refunded to the current record of owner(s) of the lot(s) as identified on the last equalized assessment roll.

**Policy Considerations:** Adoption of the attached resolution is consistent with the requirements of the Mitigation Fee Act (Gov. Code Section 66000 et. seq.).

**Economic Impacts:** None.

### Environmental Considerations:

**California Environmental Quality Act (CEQA):** Under CEQA guidelines, continuing administrative activities do not constitute a “project” as defined in Section 15378 of the CEQA Guidelines and are therefore exempt from review.

**Sustainability:** None.

**Commission/Committee Action:** None.

**Rationale for Recommendation:** Staff has been seeking a solution to the unspent Street Tree Fee funds for subdivisions in the North Natomas. A field assessment determined that the potential for new, additional tree plantings was nominal. The fee is subject to the California Mitigation Fee Act which requires a refund of unspent fees to be paid to the current property owners of the subject parcels as identified on the last equalized assessment roll.

Staff recommends that refunds be issued for all residential subdivision parcels in North Natomas identified and in the amount listed in Exhibit A to satisfy the requirements of the Mitigation Fee Act. There are 14,814 parcels eligible for a refund.

The actions recommended in this report complete the necessary procedural steps to return the fee to the current owners of parcels for which the fee was collected.

**Financial Considerations:** As of June 30, 2014, the Street Tree Fee Fund (Fund 2027) balance is \$1,798,916 which is sufficient to issue the refunds in the total amount of \$1,674,500. The refund amount for the interior residential lots is \$100 per parcel and \$200 for corner residential lots not bordered by a streetscape, as identified in Exhibit A.

**Local Business Enterprise (LBE):** Not applicable as no goods or services are being procured.
