

Search Warrant # \_\_\_\_\_

**STATE OF CALIFORNIA – COUNTY OF SACRAMENTO  
SEARCH WARRANT AND AFFIDAVIT**

**(AFFIDAVIT)**

I, **Detective Robert Peters #701**, swears under oath that the facts expressed by him/her in the attached and incorporated STATEMENT OF PROBABLE CAUSE, consisting of 67 pages, are true and that based thereon he/she has probable cause to believe and does believe that the property described below is lawfully seizable pursuant to Penal Code Section 1524, as indicated below, and is now located at the locations set forth below. Wherefore, affiant requests that this Search Warrant be issued.

**(SEARCH WARRANT)**

**THE PEOPLE OF THE STATE OF CALIFORNIA TO ANY SHERIFF, POLICEMAN OR  
PEACE OFFICER IN THE COUNTY OF SACRAMENTO:**

Proof by affidavit having been made before me by **Detective Robert Peters #701** that there is probable cause to believe that the property described herein may be found at the location set forth herein and that it is lawfully seizable pursuant to Penal Code Section 1524 as indicated below by "X" in that:

- It was stolen or embezzled.
- It was used as the means of committing a felony.
- It is possessed by a person with the intent to use it as means of committing a public offense or is possessed by another to whom he or she may have delivered it for the purpose of concealing it or preventing its discovery.
- It tends to show that a felony has been committed or that a particular person has committed a felony.
- It tends to prove that sexual exploitation of a child, or possession of matter depicting sexual conduct of a person under the age of 18 years has occurred or is occurring.
- An arrest warrant exists for the target of the search warrant.

**YOU ARE THEREFORE COMMANDED TO SEARCH:**

8316 Canyon Oak Drive is located in Citrus Heights, which is within the County of Sacramento, State of California. The residence is a single family, single story dwelling located on the south side of Canyon Oak Drive, directly across from Cripple Oak Court. The residence faces north. The structure is a tan color with a dark brown trim along the eaves of the residence. The base of the structure and the garage doors are the same color of the structure. There are three vertical columns of brick separating the garage doors. The residence has two garage doors, which are located on the west side of the residence and face north. In front of the residence's northeast corner is a small patch of grass with several large boulders positioned in the lawn. To the west of the lawn is the residence's driveway. A small concrete walkway leads from the driveway to the residence's front door. The number address for the residence "8316" is enclosed in a white plastic box, which is affixed to the vertical brick column closest to the front door. The front door faces north and is a light color.

**Also to include all attics, basements, rooms, garages, grounds, outbuildings, storage sheds, operative/inoperative vehicles, boats, garbage cans and containers located within the property boundaries.**

**And**

**Any vehicle under the care and control of the occupants of the premise to be searched at the time this warrant is served, as evidence by DMV registration information, possession of keys to the vehicle, actual use of the vehicle, witness statements or admission.**

**FOR THE FOLLOWING PROPERTY:**

1. Trace evidence including blood, skin, body tissue, body fluids, hair, saliva, clothing fibers, lint, or carpet/upholstery samples.
2. Items related to firearms including firearms, specifically [REDACTED] as well as expended slugs, spent casings, bullet holes, ammunition, magazines, gun cleaning kits, gun purchase receipts/registration papers, holsters, gun cases.
3. Bindings including but not limited to rope, string, shoes laces, line, cord, etc.
4. Any and all financial documents tending to establish if the motive for the homicide was for financial gain.
5. Items of personal property tending to establish the identity of the persons in control of the premises including utility company receipts, rent receipts, addressed envelopes, vehicle registration, identification cards, photographs, video/audio tapes and keys.
6. Telephone directories, address books, calendars and documents with names and telephone numbers tending to establish the identity of friends, associates and family members of the persons in control of the premises.

7. Digital storage devices including, but not limited to, computers, computer hard drives, computer storage media including compact discs, DVD's and removable storage devices, digital cameras, personal digital assistance (i.e.: Palm Pilots, Blackberry's, etc.), and digital audio recorders. Any writings, paper medium, notebooks and loose paper sheets, any computing or data processing software, stored on any type of medium such as hard disks, floppy disks, cassette tapes, compact disks, RAM or ROM units, or other permanent or transient storage medium, any computing or data processing device(s) and associated peripheral equipment, including but not limited to computer units, keyboards, video display tubes, printers, hard disk drives, floppy disk drives, floppy diskettes, optical disk drives, optical diskettes, tape drives, magnetic tape, compact disk drives, compact diskettes, interconnection cables, and modems, whether acoustic or electric. Any computing or data processing literature including instruction books, manuals, or listed computer programs in whole or in part for the above computer or data processing equipment; and records which show dominion, ownership or control of any of the items to be seized, including bills of sale for computers or modems, repair bills for computers or modems, and sales receipts for floppy disks. Deputies are permitted to conduct a detailed search of the electronic contents of these digital storage devices through means of forensic examination.
8. Wireless electronic devices/cellular telephones and cellular telephone accessories including, but not limited to, SIM cards, and electrical cords for charging phones. Wireless/cellular telephones to include SIM cards, flash memory, and memory chips for each telephone.

Your affiant is requesting to seize the above listed electronic devices. Any further search of those devices will occur only after your affiant or other law enforcement officer(s) obtain a search warrant in compliance with the California Electronic Communications Privacy Act.

9. Stolen property taken by the East Area Rapist (EAR); **See APPENDIX "A" for a detailed list of the items.**
10. Any and all locked safes, locked boxes, chests, etc., which could contain evidence related to the criminal activity.
11. Any and all Photo Albums and loose photographs, which showed the suspect appearance throughout the years.
12. Suspect's clothing worn at the time of the Magglore murders, to include a black or blue knit ski mask, brown leather jacket, dark shoes.
13. Any and all receipts and/or keys showing ownership of a storage unit.
14. Journals, dairies, maps, or diagrams that depict the areas of Sacramento County, the East Bay, Orange County, Visalia, or which chronicle the events which occurred in those areas during the 1970's and 1980's.

Outside experts acting under the direct control of the investigating officers are authorized to enter the above listed locations in order to photograph, video tape, diagram, and process the scene for latent fingerprints and trace evidence.

**ALSO TO LOCATE AND SEARCH THE FOLLOWING PERSON(S):**

**JOSEPH JAMES DEANGELO**

Date of Birth: 11/08/1945, Age: 72, Sex: Male, Race: White, [REDACTED]  
[REDACTED] Address: 8316 Canyon Oak, Citrus Heights, CA  
95610, FBI#: [REDACTED] Cross-Reference #: [REDACTED]

**FOR THE FOLLOWING PROPERTY:**

-Major Case Fingerprints

-Biological material (DNA) from DeAngelo's person to include any of the following: saliva, blood, skin, and bodily fluids. The biological material is to be collected in a non-intrusive manner.

Officers are permitted to transport DeAngelo's person to a law enforcement facility so the collection of DNA and Major Case Fingerprints can be performed in a safe and sterile environment.

Due to the severity of the crimes committed by the perpetrator, law enforcement personnel request the authority to conduct a limited strip search of the abovementioned person (i.e. a strip search to the suspect's underwear) in order to ensure the subject is unarmed and all potential weapons have been removed from his body.

In addition, your affiant is authorized to take photographs of the suspect's entire body, specifically his penis.

**TO LOCATE AND SEARCH THE VEHICLE(S):**

California License Plate: #7E1W866, a white 2014 Toyota Camry, VIN: 5YFBURHE1EP021311; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 22D9508, a 2016 Suzuki motorcycle, VIN: JS1SP46A7G2101119; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 31561X1, a white Toyota Tacoma pickup truck, VIN: 5TFRX5GN6GX067348; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 4RJ4765, a 2017 trailer, VIN: 1ZEAAFKB1HA005181; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

**Additional Orders:**

1. **Night Service Authorization:** This warrant may be served on the target premise/vehicle/provider/individual at any hour of the day or night.  
 Order granted  
 Order not granted and/or not applicable

2. **Sealing of Search Warrant, Affidavit, and Return:** Affiant has established good cause for a sealing order and as such, this Search Warrant, the supporting Affidavit, and the Return are ordered sealed and shall not become a public record. This Search Warrant, Affidavit, and Return shall be delivered into the custody of the Clerk of the Superior Court and remain sealed in the custody of the Clerk unless further ordered by the court.  
 Order granted  
 Order not granted and/or not applicable

AND TO SEIZE IT IF FOUND and bring it forthwith before me, or this court, at the courthouse of this court. This Search Warrant and incorporated Affidavit was sworn to and subscribed before me this 24<sup>th</sup> day of APRIL, 2018, at 6:37 AM / P.M.

Therefore, I find probable cause for the issuance of this Search Warrant and do issue it.

  
(Signature of Magistrate)  
Judge of the Superior Court STONE WHITE

Executed by PETERS Date 04-24-18 Hr. 1840

For further information concerning this search warrant, contact Detective Robert Peters #701 at 

**REQUEST FOR AN ORDER SEALING THE STATEMENT OF PROBABLE CAUSE OR PORTION THEREOF**

The facts contained in the attached [LIST DOCUMENT ATTACHED (e.g. Statement of Probable Cause, Declaration in Support of Arrest Warrant)] relate to an ongoing homicide investigation. Local media is (or may) following this case and has publicly reported limited facts about the case. Many of the details in this affidavit and warrant are not public knowledge and comprise sensitive investigative information. Your affiant believes that if details of this investigation are publicly revealed and/or published it will hinder the active ongoing investigation and may jeopardize any potential prosecution. The danger to further ongoing investigation includes the possibility of influencing witnesses that have yet to be located and/or interviewed.

Your affiant requests that the search warrant affidavit be ordered sealed by the magistrate pursuant to California Rule of Court Rule 2.550 in order to permit and protect the actively ongoing investigation into this high profile case, and implement the privilege under Evidence Code Section 1040 - 1042. Your affiant requests that this sealing order remains in effect until further order of this court.

I swear under oath that the facts expressed in request for an order sealing the affidavit for search warrant are true and correct.

  
\_\_\_\_\_  
(Signature of Affiant)

**COURT ORDER**

Based upon a review of the above request and a review of the facts contained in the attached records, this Court finds pursuant to Rule of Court 2.550 that there exists an overriding interest that overcomes the right of public access to the record; the overriding interest supports the sealing of the record; a substantial probability exists that the overriding interest based upon the on-going investigation will be prejudiced if the affidavit is not sealed; the proposed sealing is narrowly tailored; and no less restrictive means exist to achieve the overriding interest.

**IT IS ORDERED THAT:** the search warrant, affidavit, and return be sealed and kept under seal and in the custody of the Court and not be made part of the public record until further order of this court.

DATED: 4/24/18

STONE WHITE

**AFFIDAVIT OF ROBERT PETERS  
IN SUPPORT OF SEARCH WARRANT**

I, Detective Robert Peters, Your Affiant, am a sworn peace officer in and for the State of California and have been so employed by the Sacramento Sheriff's Department since 2004. I am currently assigned to the Sacramento County Sheriff's Department Homicide Bureau as a Homicide Detective. I was previously assigned to the Sheriff's Department Crimes Against Persons Bureau, where I investigated felony assaults, domestic violence and other related crimes against persons.

Prior to my assignment as a Detective, I was assigned to the Sheriff's Department North Patrol Problem Oriented Policing (POP) Team as a POP Deputy. I was also assigned to the Sheriff's Department North Patrol Division as a Patrol Deputy from 2012 to 2014, and before my patrol assignment I was assigned to the Sheriff's Department's Court Security Division, as a Bailiff. As a Bailiff, I observed numerous homicide, felony assault, robbery, sexual assault and domestic violence trials and preliminary hearings.

During the course of my employment as a Deputy Sheriff, I conducted several hundred preliminary and follow-up investigations concerning numerous types of crimes, which included, but not limited to, homicide, robbery, kidnapping, burglary, conspiracy, theft, assault, battery, sexual assault, child abuse, elder abuse, domestic violence, forgery, fraud, financial crimes, identity theft, vehicle traffic violations, and alcohol/narcotics and other controlled substance violations.

As a Homicide Detective, I have conducted no less than 75 investigations regarding homicides, suspicious deaths, officer involved shootings and kidnapping incidents. During the course of these investigations, I have personally and/or assisted other experienced Detectives in no less than 20 suspect interviews and/or arrests. Additionally, I've spoken extensively with experienced Detectives concerning the motives for committing homicides, which include but are not limited to, financial gain, revenge, jealousy, rage, psychological disorders, to cover up another crime, and/or to prevent the discovery of damaging facts.

Your affiant has also conducted no less than 50 victim and/or witness interviews related to homicides, suspicious deaths, officer involved shootings and kidnapping incidents. In those instances, I have shown no less than 10 photographic line ups and conducted no less than 3 live lineups. Additionally, I have obtained no less than 30 search warrants, and no less than 3 Ramey warrants concerning homicide investigations.

As a Homicide Detective, I have attended numerous training conferences and seminars sponsored by the Sacramento County Sheriff's Department, Sacramento Police Department and Peace Officers Standard Training (P.O.S.T.). I have also attended several Robert Presley Institute of Criminal Investigation training courses, which include Interview and Interrogation (40), Core Investigations (80), Narcotics Investigations (80), Homicide Investigations (80), Officer Involved Shooting Investigations (40) and Arson/Explosive Investigations (40), with a specialty in Homicide Investigations. Additionally, I earned a Bachelor of Arts degree in Social Sciences from California State University of Sacramento in 2002.

## STATEMENT OF PROBABLE CAUSE

I personally observed the premises and noted that it is located at:

8316 Canyon Oak Drive is located in Citrus Heights, which is within the County of Sacramento, State of California. The residence is a single family, single story dwelling located on the south side of Canyon Oak Drive, directly across from Cripple Oak Court. The residence faces north. The structure is a tan color with a dark brown trim along the eaves of the residence. The base of the structure and the garage doors are the same color of the structure. There are three vertical columns of brick separating the garage doors. The residence has two garage doors, which are located on the west side of the residence and face north. In front of the residence's northeast corner is a small patch of grass with several large boulders positioned in the lawn. To the west of the lawn is the residence's driveway. A small concrete walkway leads from the driveway to the residence's front door. The number address for the residence "8316" is enclosed in a white plastic box, which is affixed to the vertical brick column closest to the front door. The front door faces north and is a light color.

I am aware of the following information either from personal observations, interviews and/or information which was related to me by other law enforcement officers based upon prior investigations and law enforcement reports.

**JOSEPH JAMES DEANGELO**, born 11/08/1945, is the perpetrator who murdered Brian and Katie Maggiore on February 02, 1978. The Maggiore homicides have long been considered to be part of series of crimes perpetrated by an individual known to Law Enforcement Agency as "The East Area Rapist" (EAR). The EAR series was linked to a previous series of crimes in Tulare County, CA, [REDACTED]

[REDACTED] Both of those series have also been connected to a series of rapes and murders in Southern CA [REDACTED]

Between April 1974 and May, 1986, an unidentified white male hereafter referred to as the East Area Rapist (EAR) committed no less than 57 attacks that included sexual assaults and an additional 13 homicides throughout California. He was responsible for hundreds of sexually motivated burglaries, prowling events, and hang up/lewd phone calls. **The suspect in this series has now been identified by DNA as Joseph James DeAngelo, born 11/08/1945**, a Sacramento County resident. (See full description page for all identifying information regarding this suspect).

DeAngelo's connection to these crimes has been established through his geographic ties to the locations where the attacks occurred, numerous circumstantial links, and a [REDACTED] Modus Operandi (M.O.) [REDACTED]. The geographic connections will be explored in detail, but include his presence in Tulare County, CA as an Exeter Police Officer during the M.O. linked Visalia Ransacker series. Visalia is less than 20 minutes

away from DeAngelo's residence at the time. Additionally, it appears the Kings County Public Safety Academy was held on the campus of the College of the Sequoias. This campus is the epicenter of Visalia Ransacker crimes and it was a professor at this college that was murdered in September of 1975 following an attempted abduction of the professor's daughter in the middle of the night.

By 1976, DeAngelo had transferred to the Auburn Police Department, and was employed there during the vast majority of the EAR portion of the series. The M.O. evolves over the course of the series, that it points to the actions and crimes of one man, Joseph James DeAngelo.

Three sexual assaults occurred in Contra Costa County, A forensic unknown profile was established in the Contra Costa County assaults, and recently, two surreptitious DNA samples were collected from Joseph J. Deangelo. These samples match the previously unknown profile of Contra Costa County. A DNA sample collected in an investigation of the double homicide of Lyman and Charlene Smith in Ventura County matches the previous unknown profile of the Contra Costa County sexual assaults. Additionally homicides in Santa Barbara County and Orange County were previously linked to the Lyman and Charlene Smith homicide via DNA profiles.

The case is presented below. Due to the extensive nature of this crime series that has at least 58 official sexual assault and homicide case files containing more than 10,000 pages, I have provided a basic summary of the 50 attacks in Northern California in which all the victims were left alive. A brief summary of a pre-EAR burglary and sexual assault series known as the Visalia Ransacker series is included (1974-1975). This series culminated in the attempted abduction of a young woman from her bedroom and the murder of her father.

A couple months later, the offender was confronted while prowling by an on-duty undercover Visalia Police Officer, The offender shot at Officer, wounding him with glass debris prior to escaping.

Also included are detailed summaries of the DNA linked EAR cases that occurred in Contra Costa County.

Finally, I have provided a detailed summary of the Rancho Cordova double murder of Brian and Katie Maggiore. In addition, exhibit A contains detailed summaries of each sexual assault offense. The last 7 cases all occurred in Southern California. In the last 6 cases all of the victims were killed. Ten individuals were murdered in these final six cases. I have provided a succinct synopsis of each of these homicide cases.

[Type here]

**Pre-EAR phase: Visalia Ransacker Series**

From April 1974 through December 1975, Visalia, California experienced approximately 120 residential burglaries. Additionally, some of the burglaries involved attempted sexual assaults. The residences were extensively ransacked; hence, the suspect involved in the criminal activity later became known as the Visalia Ransacker.

In the burglaries

[REDACTED]

Several witnesses, who saw the suspect [REDACTED] described the suspect as a light complexed white male adult, between 20 to 35 years old, approximately 5-10, with a stocky build, large hips and thick legs, and light brown or blond hair.

Additionally, an analysis of the Visalia burglaries showed they were concentrated in the neighborhoods surrounding the College of the Sequoias, which is a community college off Highway 198 and S. Mooney Boulevard. Many of the neighborhoods surrounding the College were linked with drainage canals/ditches.

On **September 11, 1975**, [REDACTED] was murdered in his Visalia residence. The incident began at approximately 2:00 AM.

[REDACTED]

[REDACTED]

detectives believed the suspect was in the process of abducting [REDACTED] daughter.

[REDACTED]

[Type here]

[REDACTED]

Based on this information, law enforcement revisited the Ransacker cases, at which time they learned [REDACTED]

Additionally, law enforcement located several footwear impressions under [REDACTED] window. These footwear impressions were consistent with impressions located at several of the other burglarized residences associated with "The Visalia Ransacker".

On **Monday, September 22, 1975** between the hours of 1900 and 2030, a "Ransacker" burglary occurred in Visalia, CA at [REDACTED]

Based on the pervasive nature of the Ransacker, the Visalia Police Department increased patrols and positioned officers in several residences within the burglarized areas in hopes of apprehending the suspect.

On **December 10, 1975**, Visalia Police Officer [REDACTED] was positioned in the garage of a residence for the purpose of capturing the Visalia Ransacker. The residence he was watching was a suspected target of the Visalia Ransacker, and [REDACTED] was secreted in the neighboring garage. Officer [REDACTED] spotted a prowler in the backyard peeping through a window. Officer [REDACTED] gave chase and confronted the suspect with his gun and flashlight drawn. The suspect removed his ski mask that was atop his head, but not covering his face, looked at Officer [REDACTED] and begged him not to hurt him. Officer [REDACTED] later described the suspect's voice as juvenile and effeminate. The suspect had one hand up over his head while the other hand was in his jacket pocket. The suspect quickly removed a handgun from his jacket and fired a round at [REDACTED]. The round struck Officer [REDACTED] flashlight, embedding in the battery. As Officer [REDACTED] fell backwards, the suspect fled over a fence. This pattern of explosive violence followed by escape when cornered would repeat itself in the series. This was the last time the Visalia Ransacker was seen in Visalia.

[Type here]

### Phase 1: Sacramento and Stockton

[Type here]

[REDACTED]

What follows are brief summaries of each Sacramento case:

On **June 18, 1976**, [REDACTED] was sleeping in her bedroom at her [REDACTED] residence in Rancho Cordova, CA. She lived with her father, who was retired from the military and on vacation in Florida. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] later described the suspect as a white male adult between the ages of 20 and 25 years old. He was slightly taller than [REDACTED] who estimated the suspect to be 5-6 to 5-9, with broad shoulders and a [REDACTED]

On **July 16, 1976**, [REDACTED] was at his home located in the [REDACTED] and was leaving for work at approximately 5:00 a.m., when he was physically attacked in his garage. He opened his automatic garage door and as it was partially opened, he heard footsteps, and observed a subject bending down and coming under the door. He was about to open his vehicle door when he was struck on the head by a hard object. He observed the suspect to be wearing a dark colored ski mask. [REDACTED] was struck several times in the head and body, and took refuge under his own vehicle to try and escape the blows. The suspect tried to pull [REDACTED] from under the car, partially removing his trousers in the process. He was able to see the suspect was wearing light brown hiking style half boots with unusually thick soles. The suspect removed [REDACTED] wallet from his trousers and fled on foot out of the open overhead garage door.

The suspect was described as a male, six feet tall or more, slender build but strong, wearing a cloth jacket, course denim trousers, and dark colored gloves. The weapon the suspect used was described as no more than three feet long, about as round as a shovel handle, with padding on the head end of the club similar to wrapped sand. [REDACTED] wallet was located in a nearby yard. Prior to the attack, at approximately 3:50 a.m., [REDACTED] had heard footsteps near the paved area of his backyard pool. He looked out a window but saw nothing. He heard another noise a few minutes later, but didn't investigate. [REDACTED] had a teenage daughter who had moved out of the home a couple weeks before the incident.

[Type here]

On July 17, 1976, between 2:00 a.m. and 4:30 a.m., a few blocks from the attack on [REDACTED] in the [REDACTED] two teenaged sisters [REDACTED] and [REDACTED] were home alone. They were asleep in separate bedrooms of the residence when [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

The suspect was described as a white male adult, between the ages of 17 and 20 years old, no older than 30 years old, 5-8 to 5-10, with a muscular build.

On August 29, 1976, around 3:15 AM [REDACTED] and her two daughters, [REDACTED] were home asleep, when [REDACTED] awoke to the chimes by her bedroom window. When she looked toward her window, she saw the silhouette of a male trying to pry her window's screen off. [REDACTED] sat up and the suspect ducked down.

[REDACTED] ran to [REDACTED] room and told her someone was trying to break into their house. The two of them went to her sister [REDACTED] room to wake her but could not get her up. After quickly looking into the backyard, they went to the kitchen to use the phone. As [REDACTED] was dialing the phone, they heard [REDACTED] curtain rod fall to the floor. Shortly thereafter, they saw a male silhouette standing in front of them. He told them to freeze or he would kill them. The suspect was holding a gun in one hand and a club in the other hand.

The suspect told them he just wanted money. He then tried to tie [REDACTED] hands behind her back, but she struggled. The suspect struck [REDACTED] several times in the head with the club. [REDACTED] was able to flee the residence to a neighbor's house. The suspect in turn fled the residence.

[REDACTED] and her daughter described the suspect as a light complexed white male adult, between 20 to 30 years, 5-10 tall, with a slim build. They indicated the suspect was armed with a revolver, wearing a black lineman's style utility belt and was wearing no clothing from the waist down. They thought he was wearing high shoes/boots.

[Type here]

On September 4, 1977, around 4:00 PM, [REDACTED] went to her parent's residence on [REDACTED] to do laundry. [REDACTED] was described as a very dark street, with no overhead streetlights. There was a drainage ditch, which ran north of the residence and a nature area to the south of the residence.

At around 11:15 PM [REDACTED] finished her laundry and placed it in her vehicle, which was parked in front of the residence. As she turned around, the suspect was standing there. [REDACTED]

After freeing herself, [REDACTED] notified the Sheriff's Department. Additionally, she noticed the suspect had left in her vehicle. [REDACTED] described the suspect as a light-skinned white male, [REDACTED]

[REDACTED] parents' residence was approximately 2.5 miles from American River College. Additionally, there are several drainage ditches which transverse the area.

After the fourth burglary involving a sexual assault, the Sacramento County Sheriff's Department began to realize they had a serial burglary/ rapist. The suspect was targeting residences and females in the Rancho Cordova, Arden/Fair Oaks, Orangevale and Citrus Heights communities of Sacramento County. He would later be called the East Area Rapist (EAR).

On October 5, 1976, around 6:50 AM, [REDACTED] was lying in bed with her 3-year-old son, when she heard a light switch and footsteps in the hallway of her residence, which was located at [REDACTED] in Citrus Heights. [REDACTED]

After the suspect [REDACTED] she could hear him walking around the house. When she could not hear the suspect anymore, [REDACTED] was able to remove her blindfold and [REDACTED]

[Type here]

went to a neighbor's house for help. [REDACTED] stated the suspect [REDACTED] and was 5-10 tall.

[REDACTED]

Additionally, there was a drainage ditch in close proximity to her residence.

On **October 9, 1976**, around 4:30 AM, [REDACTED], a 19-year-old female, who resided at [REDACTED] in Rancho Cordova, [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] later notified law enforcement of the assault once her co-worker arrived at her house to pick her up for work.

[REDACTED] was not able to provide a physical description of the suspect, other than he was wearing black leather shoes. The suspect entered [REDACTED] residence through an unsecure living room window at the rear of the house.

In addition, investigators learned [REDACTED] residence had been burglarized in September of 1973. [REDACTED]

On **October 18, 1976**, around 2:30 AM, [REDACTED] who resided at [REDACTED] in Carmichael with her husband and two children, was awakened by her son [REDACTED] who told her someone was trying to get into the house through the kitchen window. [REDACTED]

[Type here]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] She was able to untie herself and go to her neighbor's house for help.

[REDACTED] described the suspect as a white male adult with dark hair on his arms and legs, with a solid build. She indicated the suspect was wearing a [REDACTED] a dark t-shirt, gloves and white jockey shorts. The suspect was not wearing any pants.

On October 18, 1976, around 11:00 PM, [REDACTED] who resided at [REDACTED] in Rancho Cordova, arrived home and parked her vehicle on the street in front of her house. As [REDACTED] was getting out of her vehicle, the suspect forced open her driver's door and place his hand around her mouth. [REDACTED] began to struggle at which time the suspect placed a knife to her throat. The suspect told [REDACTED] he would not hurt her, he only wanted her vehicle. The suspect then tied [REDACTED] hands behind her back and escorted her around the corner. Once around the corner, the suspect bound [REDACTED] feet, gagged and blindfolded her.

The suspect then told [REDACTED] not to move that he would be back in 15 minutes. [REDACTED] asked the suspect not to hurt her dog and the suspect replied he would not. Once the suspect ran off, [REDACTED] heard her vehicle drive way. [REDACTED] was able to free herself from her bindings and go into her house for help.

[REDACTED] described the suspect as a white male adult, 6 feet tall, [REDACTED] a heavy gray jacket, white cotton mechanic's gloves, and brown desert boots. The suspect also continuously told [REDACTED] to shut up.

[Type here]

vehicle was recovered the following day (October 19, 1976) parked in front of [REDACTED], which was .3 miles from [REDACTED] house and .27 miles from [REDACTED] house (October 9, 1976 incident). [REDACTED] vehicle was locked and her dog could be heard barking from the trunk.

Later on January 4, 1978, [REDACTED] received a lewd telephone call from a male, who asked if she would like him to lick her pussy. He also told [REDACTED] he knew where she lived. [REDACTED]

On 11/10/1976, [REDACTED] a 16-year-old high school student, who resided at [REDACTED] in Citrus Heights, was home alone watching television when she heard a loud noise coming from the living room. Her dog began to shake and bark, but [REDACTED] was not concerned and continued watching television.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] was able to untie her wrists and ankles and walked back towards her house. When she reached her neighbor's house, they called for help.

[REDACTED] described the suspect as a white male adult, 18 to 23 years old, 5-10 and 165 pounds. She indicated the suspect had brown hair with a very pale complexion. The suspect wore [REDACTED], a heavy coat, tan leather gloves and possible fatigue type pants.

[REDACTED]

[Type here]

On 12/18/1976, around 7:15 PM, [REDACTED] a 15-year-old [REDACTED] who lived at [REDACTED] in Fair Oaks with her parents, was home alone with a cold. Her parents had gone to a Christmas party and her sister was at a friend's house.

As [REDACTED] was practicing the piano, she heard some strange noises but didn't think anything of it. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as a white male adult with a regular build. She could not tell his age or height. She indicated the suspect was wearing [REDACTED] and nylon type jacket.

[REDACTED]

During the investigation, investigators learned Cecelia M.'s had previously been burglarized and another [REDACTED] assault burglary had been reported a quarter of a mile away on [REDACTED]

[REDACTED]

[Type here]

On 1/18/1977, around 11:30 PM, [REDACTED] a 25-year-old [REDACTED] who lived at [REDACTED] in Sacramento, went to bed. Her husband was out of town on business.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] was able to free herself and call for help.

[REDACTED] vehicle was recovered the following day (1/19/1977) in an apartment complex parking lot, 1.5 miles away from [REDACTED] residence. The vehicle was locked and the keys were missing.

[REDACTED] described the suspect as a white male adult, 5-11 and 180 to 185 pounds. He wore [REDACTED] possibly polyester pants and a lightweight jacket.

[Type here]

Two months prior to [redacted] rape, [redacted]

On 1/24/1977 around 1:00 AM, [redacted] a 25-year-old [redacted] who was separated from her husband and lived at [redacted] in Citrus Heights, was entertaining friends at her residence.

Shortly after midnight, all of [redacted] guests left, leaving her home alone. After falling asleep, [redacted]

After the suspect left, [redacted] waited 15 minutes before moving, at which time she untied herself and called for help.

[redacted] description of the suspect was limited since the bedroom was very dark. [redacted]

On 2/7/1977, around 6:50 AM, [redacted], a 30-year-old [redacted] and [redacted] was at home with her daughter. She resided at [redacted]. Her husband had just left for work and asked her to make sure the house was locked since he saw a suspicious van nearby.

[redacted] walked through the house, checking the doors. However, when she turned around the suspect was standing there with a gun pointed at her. [redacted]

[Type here]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] A neighbor responded and assisted in untying them at which time she called the police.

[REDACTED] daughter described the suspect as a white male adult, [REDACTED] shorts, white tennis shoes and a red/white/blue jacket. She said the suspect also had hairy legs.

[REDACTED] neighbor [REDACTED], who resided at [REDACTED] stated he saw a subject climbing over a fence located along a cement drainage ditch. He didn't think anything of it since it was close to Del Campo High School. He described the subject as a white male adult, with short light brown hair, between 16 to 20 years old, wearing a light blue coat and blue pants, similar to a blue leisure suit. Shortly after seeing the subject go over the fence, [REDACTED] saw [REDACTED] exit her house and yell [REDACTED]

A student at Del Campo High School also saw the subject described by [REDACTED] run down [REDACTED] and disappear into the park.

During the investigation, investigators learned [REDACTED] and her family had previously been victims of a burglary on two separate occasions. Additionally, prior to her [REDACTED] incident, [REDACTED] and her family received two phone calls where the calling party hung up.

[Type here]

On 2/16/1977, at 10:30 PM, [REDACTED] an 18 year old who resided at [REDACTED] with his parents had been shot. [REDACTED] was found lying on the ground by a fence in between [REDACTED] had sustained a gunshot wound to the abdomen. He was immediately transported to the hospital.

[REDACTED] father told law enforcement the family was in their house when they heard a noise coming from their backyard. When [REDACTED] and his father went into the backyard to investigate the noise, they saw the shadow of a man. The suspect took off running toward the street and they gave chase. The suspect hopped a fence and shot [REDACTED] as he attempted to follow. [REDACTED] fell to the ground.

As [REDACTED] father approached, he heard a second gunshot. His father grabbed [REDACTED] and pulled him around the other side of the house.

A neighbor heard the gunshots and tried to follow the suspect. He came upon three girls, who told him they saw a male run into the bushes by [REDACTED]. The girls could only describe him as a male between 25 to 30 years old, with heavy legs.

[REDACTED]

On 3/07/1977, around 9:35 PM, [REDACTED] a 38-year-old female who lived at [REDACTED] in Sacramento, returned home after spending some time at a friend's house. Shortly after arriving home, [REDACTED] went to bed. Prior to going to sleep, [REDACTED] recalled checking all the doors and windows to make sure they were locked.

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

[REDACTED] She tried to use her telephone, but there was only a dial tone. [REDACTED] made her way to the front door and yelled for help. Law enforcement responded shortly thereafter.

It was determined the suspect gained entry into the residence by prying open a rear window. In doing so, he broke the bottom piece of the window.

[REDACTED]

On 03/18/1977, around 10:40 PM, [REDACTED] a 16-year-old student at [REDACTED] who resided with her parents at [REDACTED] in Rancho Cordova, arrived home from work. She worked at a local [REDACTED]

Prior to leaving work, [REDACTED] asked her sister to leave the kitchen, living room and porch light on. However, when [REDACTED] arrived home, only the kitchen and living room lights were on.

Once inside her house, [REDACTED] called a friend to arrange to go over to visit. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

[redacted] the home telephone continuously rang. It was determined [redacted] was trying to reach [redacted]. The suspect became very tense and began walking back and forth from the kitchen and the backyard.

[redacted] later heard knocking on the front door. It was [redacted] and her father checking on her. When they were not able to enter through the front door, they went around to the backyard and entered the residence. Once inside, they found [redacted] and untied her.

Investigators located pry marks on the back sliding glass door. The door latch had been broken in half. All three bedrooms had been ransacked, which [redacted] thought occurred before she got home.

[redacted] described the suspect as a white male, 25 to 35 years old, 5-10, medium build and wearing a [redacted]

On 4/02/1977, around 1:30 AM, [redacted], a 29-year-old [redacted] who resided at [redacted] in Orangevale, arrived home from the drive-in movies. She was with her boyfriend [redacted] and her two children.

After everyone went to bed, [redacted] was awoken by something. [redacted]

[redacted]

[redacted]

[redacted]

[redacted]

[redacted]

[Type here]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as a light complexed white male adult, 5-10, medium build, with large thighs and very course leg hair. She indicated the suspect [REDACTED] [REDACTED] did not take off his jacket, which she described as a dark nylon windbreaker.

The only thing missing from the residence was the money [REDACTED]

During the investigation, investigators learned there had been recent reports of burglary and prowler activity in the neighborhood. In one instance, a homeowner chased a white male adult, 25 to 30 years old, 5-9 to 5-10, stocky build, with collar length hair.

On 5/03/1977, around 2:00 AM, [REDACTED] a 30-year-old [REDACTED] who resided at [REDACTED] with her husband [REDACTED] and two children, was home asleep. Her husband was a [REDACTED] at [REDACTED] and their house backed up against the levee for the American River.

As everyone was sleeping, [REDACTED] awoke for an unknown reason. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

[REDACTED]

[REDACTED] described the suspect as a white male adult, 5-10, 165 to 170 pounds, with a light build. The suspect wore a [REDACTED] and a dark puffy ski jacket.

The suspect gained entry into the residence through a sliding glass door. The only items [REDACTED]

On 4/15/1977, around 2:00 AM, [REDACTED] a 19-year-old [REDACTED] who resided with her fiancé at [REDACTED] in Carmichael, was awoken by a bright light in her face. [REDACTED]

[REDACTED]

[Type here]

[REDACTED]

[REDACTED]

After 5 minutes, [REDACTED] grabbed a knife from the kitchen and cut her bindings. She then went to her fiancé and freed him.

[REDACTED] stated she never saw the suspect's face and [REDACTED]. She described the suspect as 5-8 to 5-10, 145 to 150 pounds with a small build. She said the suspect wore a green khaki nylon jacket and military style boots.

The suspect took approximately \$100 in cash, [REDACTED].

During the investigation, investigators learned there was an incident nearby where a neighbor saw a prowler standing by a window.

On 5/14/1977, around 2:00 AM, [REDACTED] 22-year-old female, who resided [REDACTED] with her husband [REDACTED] was home in bed when she heard the sound of metal scratching. Shortly after going asleep, [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

[REDACTED]

After waiting several minutes, [REDACTED] freed herself from her bounds and ran to a neighbor's residence for help.

[REDACTED] described the suspect as a male adult, 5-9 to 5-10, stocky build, [REDACTED]. The suspect had brown collar length hair and hairy legs.

Like many of the other victims, a month prior to the incident neighborhood kids saw a stocky male prowler in the backyard of a residence in the neighborhood.

On 5/17/1977, [REDACTED], a 26-year-old [REDACTED] lived with her husband [REDACTED] and their two children at [REDACTED] Carmichael. At or around 1:30 AM [REDACTED] was in bed with her husband when they awoke to the suspect in their bedroom.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

[REDACTED]

[REDACTED]

[REDACTED] did not hear anything for 30 minutes until she heard her husband moving around and calling for his father to come untie him.

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as an adult male 5-8 to 5-9. He wore a [REDACTED]

[REDACTED]

On 12/2/1977, around 10:30 PM, [REDACTED], a 36-year-old female, who lived at [REDACTED] in Sacramento with her husband and two children, was home with her two children and two friends.

After her friends left, [REDACTED] and her children went to sleep. Shortly after falling asleep, [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

Investigators also learned [redacted] and her family had been the victims of two earlier burglaries. [redacted]

On 1/28/1978, around 10:00 PM, [redacted] and her sister [redacted] 15 and 14 year old high school students, who resided with their parents at [redacted] were home alone. They had been watching television and decided to go to sleep.

Shortly after falling asleep, [redacted] heard a thumping noise. [redacted]

[redacted]

[redacted]

[redacted]

[redacted]

[redacted]

[redacted]

[redacted]

After 15 to 30 minutes, the sisters heard their father's voice calling out to them. He found them in the bedroom and untied them.

The father [redacted] told investigators he and his wife arrived home around 11:30 PM. As they pulled into the driveway, he noticed the laundry room door open and several lights.

[redacted] stated the suspect was 5-10 and wore a [redacted]

The victim's residence was a quarter of a mile away from American River College.

[Type here]

[REDACTED]

In most of the attacks, the suspect struck homes easily accessible from a drainage canal, creek, or open field adjacent a creek.

[REDACTED]

An attempted murder of a teenage boy occurred in the middle of this phase, on 2/16/77. The victim, [REDACTED] was an 18 year old white male who lived at home with his parents and sister at [REDACTED]

Several officers had been posted in the neighborhood due to the Ear Area Rapist series which had been going on since June of 1976. A radio call was received at approximately 2230 hours on February 16, 1977 stating a boy had been shot. Sacramento Police Department Officers responded to [REDACTED] and met with a citizen who directed them to the victim. [REDACTED] was found lying on the ground by a fence located between [REDACTED]. He had sustained a gun shout wound to his abdomen. [REDACTED] was transported to Sutter Hospital and treated for his injuries.

According to [REDACTED] (father of [REDACTED] the family was home that evening when they heard a noise coming from their rear yard. [REDACTED] and [REDACTED] went to check the yard and saw the shadow of a man prowling and looking at a teenage girl in the home. The subject took off running towards the street and both gave chase. The suspect ran across the street to [REDACTED] and jumped over the fence on the right side of the house. [REDACTED] was just about to clear the fence as well when the first shot was fired striking him. [REDACTED] fell back onto the ground. [REDACTED] approached [REDACTED] and a second shot was fired. [REDACTED] grabbed [REDACTED] and dragged him to the other side of the residence.

Several neighbors stated they heard the shots and went to investigate. Nearby neighbors on [REDACTED] heard [REDACTED] yelling for help. 9-1-1 was then called. Other neighbors on the nearby [REDACTED] stated they saw a subject running through a yard

[Type here]

on the east side of the Court, then out onto [REDACTED] and run northbound, across [REDACTED] and into the parking lot of [REDACTED]. There they lost sight of him.

Another neighbor responded to the gunshots and tried to follow the suspect onto [REDACTED]. When he reached that roadway, he saw three girls walking along [REDACTED]. He asked them if they saw anyone running and they told him they saw a male run into the bushes in front of [REDACTED]. They could provide no further description, other than male, 25-30 years old and having "heavy legs."

[REDACTED]

[REDACTED]

From 6/18/76 to 4/14/78, during Phase One of the series, the [REDACTED] attacks all occurred in the greater Sacramento area east or north east of downtown. Two cases during this phase occurred in Stockton: one in September, 1977 and another in March, 1978. After each Stockton attack, the [REDACTED] went back and attacked in the Sacramento region.

The neighborhoods where [REDACTED] assaults eventually occurred, were plagued with hang up and lewd phone calls that preceded both burglaries in the neighborhoods, prowling activity, and [REDACTED] assaults.

[REDACTED] Detectives I have spoken with who worked the initial investigation began to become aware [REDACTED] these phone calls [REDACTED]

Phase One began coming to an end with the Rancho Cordova double murder of Brian and Katie Maggiore on 2/2/78. Though the offender committed 2 additional [REDACTED] assaults following the double murder, he never struck the patrol jurisdiction of the Sacramento County Sheriff's Department again. His final two [REDACTED] assaults in this phase were in Stockton and the Pocket area of Sacramento. The [REDACTED] had never struck the Pocket area of Sacramento before. An enhanced composite sketch of the suspect in the murder of Brian and Katie Maggiore was released on 4/16/78, [REDACTED]

#### **DETAILED SUMMARY OF THE BRIAN AND KATIE MAGGIORE MURDER:**

Shortly after 9pm on February 2, 1978, USAF Sgt. Brian Maggiore, 21, and his wife Katie, 20, took their dog for a walk through Cordova Meadows, the quiet, middle class subdivision of Rancho Cordova in which they lived. On that particular evening, the area they walked was very dark. Only a quarter moon, a few porch lights, and a couple of residential light posts at the edge of an occasional driveway provided illumination. At

[Type here]

the time, Cordova Meadows was heavily prowled and burglarized and was the location of several sexual assaults [REDACTED]

At some point on their walk, Brian and Katie engaged with an unidentified assailant and came to be in the backyard of a residence in the 10100 block of La Gloria Drive. It is unknown whether they were chased into the yard, followed the suspect into the yard, or perhaps followed their dog into the yard (the dog was later located in the swimming pool of the residence).

A witness who lived at the residence described the violent encounter in his backyard. His vantage point was an upstairs window. He observed the suspect and the victims in his backyard and watched as they ran into the adjacent rear yard on La Alegria Drive (one street south of La Gloria) through a section of a fence that had been blown down. The witness at the La Gloria residence saw the suspect raise his arm and fire at the fleeing victims. He also witnessed the suspect fire towards the ground near the patio of the La Alegria residence. (Brian was subsequently located in this location suffering a from gunshot wound that rendered him unable to speak.) The witness then saw the suspect run around the east side of the house near the residence's chimney and disappear. It was too dark for the victim to make out specific details of the suspect even from his excellent vantage point.

A different witness standing in his driveway on La Alegria Drive was speaking with a neighbor. Both the witness and neighbor heard two separate gunshot events. The witness then heard the sound of a man jumping over the gate immediately next to the chimney of the crime scene residence on La Alegria where the suspect had fled. He heard a sound as though someone had jumped a fence and fallen into bushes. The witness said he heard the suspect thrash in the bushes, free himself, and then run west towards West La Loma Drive (Witness's direction.) The witness then saw the suspect run up onto the witness's lawn and near a tree in the yard. The suspect got within approximately 25 feet of the witness when the suspect spotted the witness and the neighbor. The suspect rapidly changed direction and ran across the street. In his brief observation, the witness noticed the suspect was wearing a black or blue knit ski mask that left only his eyes and nose exposed and was possibly holding a handgun. He further stated the subject was wearing a brown leather jacket, gathered at the waist, with a peanut-shaped stain on the lower right side of the back. The subject had dark, quiet shoes. He described him as 6'0" to 6'2" inches tall with fair skin. He worked with a sketch artist and the following composite was drawn:

[Type here]

A witness who lived across the street reported to detectives that she had seen the subject run onto the lawn from the sidewalk as described, and change direction. She observed the subject to be approximately 5'9", which came from a direct comparison of the height of the suspect to the height of the young man who was in his driveway, and was known to her. A young lady in the same home reported the suspect ran through her side yard, jumped a fence in the backyard, and ran onto the adjacent street, Capitales Drive.

Several other witnesses apparently saw the same suspect (based upon their general agreement on clothing description and other features) on Capitales and other nearby streets generally heading northeast, away from the crime scene. Odd behavior was noted by several of the witnesses, including strange comments such as "Excuse me, I'm trespassing" when seen by a resident in his yard. One witness saw the suspect carrying a football-sized object in his hand that appeared to be made of cloth. The suspect would jump behind objects and shield his face with his arm and jacket whenever he encountered a witness.

In all of the nearly one dozen witness accounts of events following the shooting, only a lone suspect was observed by each witness. [REDACTED]

[REDACTED] They described him as follows:

- White male
- 5'9" to 6'0"
- 20-30 years old
- Brown hair to middle of ear: described by some as light brown, by others as brown or dark brown
- Hair parted, but described by some as bushy
- Dark jacket made of shiny material, possibly leather or vinyl, most commonly described as brown
- Soft-soled shoes

[Type here]

At the crime scene where both Brian and Katie were shot, a single pre-tied shoelace was located in the yard a few feet from where Brian was lying. Considering that several seconds elapsed between shots being fired and the witness seeing the man jumping the fence, [REDACTED]

The owners of the home where the couple were found did not recognize the shoelaces. [REDACTED]

[REDACTED] they were pre-tied as a ligature as opposed to a straight shoelace, as if to allow a quick cinching technique. [REDACTED]

[Type here]

Brian and Katie Maggiore were each transported to area hospitals where they died as a result of the gunshot wounds they suffered during this event.

#### EXAMINATION OF THE EVENTS LEADING UP TO THE MAGGIORE HOMICIDES

Twelve homes in the immediate neighborhood of the murders (Cordova Meadows subdivision) reported [REDACTED] incidents in the weeks and days leading up to the murders as well as the night of the murder. These incidents included prowlers, hang-up and/or silent phone calls, and burglaries. Additionally, other residences along the American River Parkway to the east and west were burglarized that night.

Affiant has read all of the neighborhood crime reports leading up to the Maggiore murders. [REDACTED]

[REDACTED] In addition, your affiant has read in excess of 30,000 reports from the time period [REDACTED]

[REDACTED] The following crimes occurred in the weeks, days, and hours preceding the murder of Brian and Katie Maggiore. All occurred within approximately 1/3 mile radius of each other.

[REDACTED] A young woman reported receiving hang up phone calls where caller said nothing and would then hang up. These occurred

[Type here]

every night for a week prior to the murders. All calls occurred at the same time: 8:00 p.m. There was no call the night of the murder or at any time after.

[REDACTED] A young couple moved into the home in the fall of 1977. They had prowler activity at night and suffered a burglary in winter of 1977. Undergarments belonging to wife appeared to be missing. Gates and doors were found open around Christmas of 1977, leading them to believe the home had been re-entered. No items were taken.

[REDACTED] A young woman resided at the residence and reported prowler activity in the two weeks leading up to the double murder. Also reported were phone calls where the caller said nothing and then hung up.

[REDACTED] A 25-year-old woman experienced heavy prowler activity beginning a little over a month before the murders. Shoeprints were found outside the bedroom window, and the gate was constantly left open. Attempts to secure it resulted in the culprit damaging it to gain entry. Drawings on the window in what was suspected to be bodily fluids were left by the culprit.

[REDACTED] A married couple in their early twenties reported experiencing a burglary, four months before the murders, in which nothing was taken. An unknown subject was observed in backyard on one occasion.

[REDACTED] A man in his twenties and two female roommates in their twenties reported prowler activity a few months before the murders. Numerous hang up phone calls had been received since that time.

[REDACTED] A married couple in their early twenties reported receiving suspicious phone calls, beginning a week prior to the murders, in which the caller would say nothing and then disconnect.

[REDACTED] A woman in her thirties suffered a nighttime burglary three nights before the murders. Nothing was taken.

[REDACTED] A woman in her in her twenties sustained a nighttime attempted burglary on the night of the murders. The burglar's entry was thwarted by a secondary security device on the sliding door. The victim also reported an uptick in recent prowler activity at the residence.

[REDACTED] A residence on this block was burglarized within a week of the murders. The exact date and time are unknown, as the house was in the pre-sale stage and vacant. The residence had been completely secured, with all doors and windows locked a week prior by a real estate agent. Items were disturbed within residence, a carpet was stained, and entry was made through a kitchen window. Multiple screens were bent and two windows (including the point of entry) were unlocked. The attic was disturbed, and the access cover was moved from directly over

[Type here]

the hole to the far edge, leaving the attic access hole open. Stains tested negative for blood or other biological substances. On several occasions when the real estate agent drove by the residence, he observed a yellow, ten-speed bike parked on the landing by the front door. The residence appeared otherwise normal, despite the presence of the bike.

[REDACTED] An attempted burglary occurred on February 1, 1978, at approximately 10:00 p.m, which was heard by neighbors who knew occupants were gone. The suspect kicked in padlocked side gate (which served as protection for swimming pool) after gaining initial access to the backyard via an open side gate. The window to a bedroom located within an enclosed patio was pried open, and another window had its screen removed. No entry was ultimately gained, possibly due to the awakening of the neighbors.

[REDACTED] A woman in her late thirties and other female occupants in the home across the street from the murder scene reported numerous suspicious hang-up phone calls in the week prior to the murder. The final call was received at 8pm on the night of the murders. The caller said nothing, remained on the line briefly, and then disconnected.

[REDACTED]

#### COMPOSITE SKETCH

A composite sketch of the probable killer was released in April 1978. This composite was considered the most reliable at the time of release. [REDACTED]

[REDACTED] Two [REDACTED] offenses occurred following the murder of the Maggiores, but prior to the release of the sketch. One was in Stockton, where he had previously struck before after a multi-month absence. The other was in the City of Sacramento's 'Pocket' area, where he had never struck before.

**Phase 2: Modesto and Davis 6/78 TO 7/78**

In June, 1978, [REDACTED]

Phase 2 of the series. On 6/5/78, [REDACTED] in Modesto and within 48 hours he attacked in Davis on 6/7/78. The distance between these two cases is 91 driving miles.

Within two weeks [REDACTED] attacked again in Modesto on 6/23/78 and within 24 hours he had returned to Davis and attacked on 6/24/78. Two weeks passed and he attacked once more in Davis at 2:50am on 7/6/78. This last Davis attack concluded Phase 2 of the series.

[REDACTED]

[REDACTED]

[REDACTED]

[Type here]

### Phase 3: East Bay 10/78 TO 7/79

A three month long gap exists from the first week in July, 1978 until the second week in October, 1978 when no known [redacted] cases occurred – the longest period of inactivity [redacted] up to that time. Phase 3 started in October, 1978 after the three month period. Two couples were [redacted] within two days of each other (10/11/78 and 10/13/78) in Concord.

Over the next nine months following the Concord cases [redacted] committed [redacted] assaults in Walnut Creek (6/2/79 and 6/25/79), Danville (12/9/78, 6/11/79, and 7/6/79), San Ramon (10/28/78 and 12/18/78), Fremont (4/4/79), and San Jose (11/4/78 and 12/2/78). Most of these attacks in the East Bay were in neighborhoods within a few minutes driving distance of Interstate 680.

After the last Danville case on 7/6/79, [redacted] disappeared with no more known cases occurring in Northern California.

Both Sacramento and Contra Costa law enforcement agencies formed dedicated [redacted] Task Forces to address the continuous threat to the public created by the [redacted]. Proactive tactical patrol strategies were implemented and every attack was thoroughly investigated. Hundreds of suspects were contacted by patrol officers or the task force investigators and eliminated either through physical description, alibis, or through secretor status.

In 2001, DNA testing done by the Contra Costa County Sheriff's Crime Lab linked three of the [redacted] cases (victim's [redacted] and [redacted] summarized at length below) to a series of homicides committed in Southern California between 1979 and 1986. Six cases with ten murdered victims were spread across Santa

[Type here]

Barbara, Ventura, and Orange counties [REDACTED]

[REDACTED] With the DNA link, I have added the  
Southern California homicides as Phase 4 of the series. [REDACTED]

**DETAILED SUMMARY OF THE 3 DNA LINKED EAR RAPES:**

[REDACTED] Contra Costa County Sheriff's Office [REDACTED]

On 10/28/78 [REDACTED] and [REDACTED] were asleep in their bed in the  
San Ramon, CA. [REDACTED] woke up at night [REDACTED]

[REDACTED]

[Type here]

victims died as a result of blows inflicted to their head by a wood log the offender had procured from the firewood pile outside the house.

**Semen recovered from Charlene's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.** This attack will be summarized in much greater detail later in this affidavit. (A detailed summary of this case is contained below.)

On 8/21/80, Keith (28 yr. WMA) and Patrice Harrington (28 yr. WFA) were found dead in their bed by Keith's father Roger Harrington at their house owned by and shared with the father at 33381 Cockleshell Dr., Laguna Niguel. This house was located in a gated neighborhood but anybody on foot could easily gain access into the area. Roger Harrington was a wealthy businessman. Keith, a medical student at UC Irvine and Patrice, a nurse, had both been bludgeoned in the head by an unknown blunt object. Both were lying face down and had been completely covered with bedding. Keith was nude while Patrice was only wearing a short white terry cloth robe. Binding marks were present on both victim's wrists and on the female's ankles. The binding material had been removed, presumably by the offender, prior to the bodies being found. **Semen recovered from Patrice's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

On 2/6/81, Manuela Whittuhn (28 yr. WFA) was found dead in her bed by her mother at 35 Columbus Way, Irvine. Manuela worked as a teller handling auto loans for the Airport Branch of the California First National Bank in Irvine. Her husband, David Whittuhn, was in the hospital being treated for a viral infection and therefore was not home when the homicide occurred. Manuela was found dressed in a bath robe and partially wrapped in a sleeping bag. She had received multiple blows to the back of her head. Binding marks were found around both her wrists and ankles but the binding material was missing. **Semen recovered from Manuela's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

On 7/27/81, Greg Sanchez (27yr WMA) and Cheri Domingo (35yr WFA) were found dead in the master bedroom of 449 Toltec Way, Goleta. Cheri was house sitting at the residence that was for sale by the owner. Her boyfriend Greg had apparently come over to visit. Real estate agents found the bodies after coming to the house with clients. Greg was found nude lying face down on the floor, partially in the bedroom closet. He had one non-fatal gunshot wound that had entered through his left cheek and had received 24 blows to his head from an unknown weapon. After receiving the blows, Greg's head had been covered with clothing from the closet. No binding marks were present on either Greg's wrists or ankles. Cheri was found nude lying face down in the bed and was completely covered by bedding. Both arms were behind her back and binding marks encircled both wrists. However, the binding material was missing. Binding marks were also present on her ankles with the binding material missing. Cheri died as a result of multiple blunt force injuries to her head. **A semen stain on a**

[Type here]

blanket at the scene is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.

On 5/5/86, Janelle Cruz (19 yr. WFA) was found dead in her bed at 13 Encina, Irvine. Janelle worked as a cashier for the Bullwinkle's restaurant. Janelle lived with her mother who was on vacation at the time of the homicide. A realtor had gone to the residence that was for sale to prescreen it for a client and found Janelle's body. Janelle was found lying face up on her bed with a blanket covering her head. She was nude from the waist down. Janelle died as a result of multiple blows to the face and head from an unknown blunt weapon. Semen recovered from Cruz' vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.

#### DETAILED SUMMARY OF VENTURA MURDERS OF LYMAN AND CHARLENE SMITH:

On 3/16/80 at 1:55pm. [REDACTED] went to his father Lyman and stepmother Charlene Smith's house at 573 High Point Dr. in the city of Ventura to mow the lawn. [REDACTED] knocked on the front door and after receiving no response; he went to the rear and contacted two males who were working in the rear yard. The two males indicated that his father should be home. [REDACTED] proceeded to a garage door and found it locked so he went to the front door again and knocked again. After not receiving a response at this second attempt, [REDACTED] tried to open the front door and found it unlocked. He entered the residence and noticed the pillows disturbed on the living room couch and heard a noise coming from the back of the residence. [REDACTED] followed the noise to the master bedroom and discovered the noise was the alarm clock. Upon entering the master bedroom, [REDACTED] noticed the dresser had been ransacked with doors open, drawers pulled out, and items disturbed.

[REDACTED] saw the bedspread had been pulled up and covered two figures laying on the bed. [REDACTED] went to the far side of the bed to turn off the alarm clock and wake up his father. At this time he noticed blood on the bedspread. [REDACTED] lifted up the bedspread and observed his father, Lyman Smith DOB 4/7/36, lying face down, with a large amount of blood on his head. [REDACTED] believed at this time his father was dead. [REDACTED] then called the police.

Upon entering the master bedroom, Ventura detective [REDACTED] observed a king size bed with the head against the south wall. A blood-stained wood log was laying on top of the bedspread at the foot of the bed. Pieces of bark were on the floor on the east side of the bed. Two figures were lying in the bed, completely covered with the bedspread. Blood was observed on the bedspread up at the head of the bed.

[REDACTED] lifted the southwest corner bedspread and observed a white male adult, later identified as Lyman Smith (DOB 4/7/36), lying face down on the pillow. Lividity was present on the face and a large amount of blood was under his head on the pillow. Lyman Smith was completely nude. The detective then lifted the southeast end of the

[Type here]

bedspread and observed the body of a white female adult, identified as Charlene Smith DOB (4/17/46) laying on her back, with a large amount of blood covering her face and on the pillow. Charlene Smith was wearing a shirt but was nude from the waist down. Both victims had their hands bound behind their back with cord and each of their ankles were also bound. A small amount of blood spatter was seen on the wall at the head of the bed. Both bodies showed signs of early decomposition changes.

The autopsy found both victims had died as a result of multiple blows to the head. The wood log found at the foot of the bed was determined to be the weapon used to inflict the injuries to both victim's heads. A wood pile on the north side of the victim's house was determined to be the likely source of the wood log used as the bludgeoning weapon. Semen was found on Charlene Smith's vaginal swab.

In 1996 DNA testing from the semen evidence linked the double homicide of Lyman and Charlene Smith to three other homicide cases in Southern California: the 8/1980 double homicide of Keith and Patrice Harrington, the 2/1981 Irvine PD homicide of Manuela Whittuhn, and the 5/1986 homicide of Janelle Cruz. In 1997, DNA testing further linked the semen evidence from Charlene Smith to three Contra Costa County [REDACTED] cases that occurred at the end of 1978 and the early part of 1979. In 2011, DNA from the 7/1981 Santa Barbara S/O double homicide of Cherie Domingo and Gregory Sanchez was also linked to the DNA evidence recovered from Charlene Smith.

The early investigation into the homicides of Lyman and Charlene Smith focused on [REDACTED] a business partner of Lyman Smith who had been at the house the last night the victims were known to be alive. [REDACTED] fingerprint had been found on a drinking glass recovered from the kitchen counter inside the Smith residence and a pastor had come forward stating [REDACTED] had made incriminating statements about being present during the homicide during a personal counseling session. The Ventura District Attorney charged [REDACTED] with the murders of Lyman and Charlene Smith. The pastor, the primary witness against defendant [REDACTED] was discredited at the preliminary hearing and the Ventura District Attorney dropped the case against [REDACTED]. Subsequent DNA testing eliminated [REDACTED] as the donor of the semen recovered from Charlene Smith's vaginal swab.

Your affiant learned additional DNA testing conducted during the first quarter of 2018 from the Smith semen evidence resulted in identifying a relative [REDACTED]. Subsequent investigation into the family lineage led to identifying **Joseph James DeAngelo Jr.** (DOB: November 08, 1945, white male, [REDACTED]) as a potential suspect. On April 18, 2018, a surreptitious sample from DeAngelo was collected from the driver's side car door handle he was directly observed driving. DeAngelo's vehicle was parked in a public location at the parking lot of the Hobby Lobby store in Roseville, CA. A swab was collected from the door handle while DeAngelo was inside the store. This car door swab was submitted to the Sacramento DA Crime Lab for DNA testing.

[Type here]

On 4/20/18, affiant received results produced by the Sacramento DA Crime Lab from a swab of DeAngelo's door handle. According to a qualified DNA criminalist the DNA contained a mixture of three individuals. The criminalist was able to isolate a contributor which accounted for 47% of the DNA present in the sample. The DNA was compared to one of the Orange county profiles which was confirmed by the criminalist to be identical to the profile from the March 1980 Lyman and Charlene Smith double homicide from Ventura County. This 47% contributor of the DNA was consistent with both the Orange County and Ventura County (Smith suspect) profiles. The likelihood ratio for the three person mixture can be expressed as at least 10 billion times more likely to obtain the DNA results if the contributor was the same as the Orange County/Ventura County [REDACTED] profile and two unknown and unrelated individuals than if three unknown and unrelated individuals were the contributors.

On 4/23/18, additional surreptitious samples were recovered out of DeAngelo's trash can, located at his residence, 8316 Canyon Oak Drive, Citrus Heights, CA 95610. The trash can was put out on the street in front of his house the night before. DeAngelo is the only male ever seen at the residence during surveillance of his home which has occurred over the last three days. Multiple samples were selected from the collected trash and sent to the lab for DNA testing. Only one item, a piece of tissue (item 234-#8), provided interpretable DNA results. The likelihood ratio for this sample can be expressed as at least 47.5 Septillion times more likely to obtain the DNA results if the contributor was the same as the Orange County/Ventura County [REDACTED] profile than if an unknown and unrelated individual is the contributor.

#### EXAMINATION OF SUSPECT JOSEPH JAMES DEANGELO JR.

It is my opinion that upon examination of the factors linking Joseph James DeAngelo Jr. to all the cases detailed above demonstrates he is the offender responsible for the [REDACTED] the murders of Brian and Katie Maggiore, [REDACTED]. This includes the double homicide of Lyman and Charlene Smith.

Joseph James DeAngelo Jr. was born within the logical time frame of the offender, on November 8, 1945. He grew up in the Sacramento area and attended Folsom High School. DeAngelo left Sacramento in 1973 and took a job as a police officer in Exeter, CA. Exeter is less than 20 minutes away from the city of Visalia, CA the location of all the Visalia Ransacker crimes that culminated in the abduction attempt of [REDACTED] and the murder of her father [REDACTED] as well as the later shooting of Visalia Police Officer [REDACTED]. By 1974, DeAngelo attended a police academy for 400 hours at the Kings County Public Safety Academy. This academy was affiliated with the College of the Sequoias within Visalia, CA [REDACTED]

[REDACTED]  
DeAngelo's physical description is consistent with the [REDACTED]

[Type here]

- Use of hang up phone calls to identify residents who are home with the neighbor across the street getting such calls the night of and within an hour of the murder.
- The hiding of the suspects identity while fleeing on foot
- Jumping of fences to escape the area
- Lack of immediate auto transportation as suspect forced to flee on foot
- Physical description of suspect consistent with EAR
- Composite sketch by witness that closely resembles DeAngelo
- Cessation of activities in Rancho Cordova and Sacramento County Sheriff's jurisdiction following the murders
- Cessation of all EAR activity in Sacramento County after the release of the composite

[REDACTED]

Finally, the [REDACTED] EAR had demonstrated in the [REDACTED] and [REDACTED] incidents that he would resort to explosive violence if met with resistance from a male. This pattern continues during the later [REDACTED] cases.

It is the opinion of your affiant that Brian Maggiore became involved in a close quarters confrontation with the EAR as he was involved in stalking, prowling, or burglarizing behavior. I believe the EAR shot Brian Maggiore, pursued Katie on foot and shot her.

Additionally, through the course of the investigation and the review of the original cases, it was determined that numerous personal items had been taken during the burglaries and sexual assaults. The stolen property below, identifies the victims' names and the associated property taken from their residences per their initial law enforcement reports:

[REDACTED] (Referenced Above, Page 22)

Size 6 ½ orange blossom 14 karat gold woman's wide-band ring, inscribed [REDACTED]  
[REDACTED] 2/11/71"

Class ring, 14 karat white gold, white stone, "Modesto Junior College 1970"

Tiger's Eye ring, man's size 9 ½, 14 karat gold setting, "Love forever [REDACTED] Xmas 72"

Size 9 ½ orange blossom 14 karat gold man's regular-band ring, inscribed [REDACTED]  
[REDACTED] 2/11/71"

[REDACTED] burglary and [REDACTED] occurred on  
September 5, 1977 in Stockton, CA, [REDACTED] stated they [REDACTED]

[Type here]

██████████ 0130 hours the morning of September 6<sup>th</sup>. ██████████  
later discovered the following  
property missing from her residence.):

One man's gold wedding band, plain. Inscribed "For My Angel" "1/11/70"

One woman's wedding ring and engagement set soldered together. They are white gold with a one karat diamond in the engagement ring and 5 or 6 diamonds in separate settings on the wedding ring.

One man's ring, yellow gold with oval onyx. Ring is stamped with 10k or 14k on inside of band. Size 10. Raised ridges, not smooth

One silver dollar in sterling silver money clip with the letter "MISSLE" carved into the dollar. The clip is round and fits over the outer edge of the dollar with the clip part covering the hear side of the coin. The letter "MISSLE" is engraved on the clip portion of the item. The tail portion of the coin shows an eagle with both wings spread out. There is a small punch hole near the neck of the eagle.

One silver dollar, in sterling silver money clip, date of dollar unknown

One silver dollar, date of 1888

One silver dollar, date unknown, with initials ██████████ and date "8-8-72" carved into the dollar on the tail side. Engravings are at the feet of the eagle.

One set of cuff links, yellow gold with initials ██████████ n script.

One tie pin, yellow gold, in shape of bar with initials ██████████ n script, but smaller than the cuff links.

One gray draw-string bag, small, containing the above cuff links and tie pins. The string is red or maroon.

**-Harrington (The Harrington's burglary, sexual assault and homicides occurred on August 21, 1980 in Orange, CA. They were killed as a result of blunt force trauma to their heads. The following items of property were missing from their residence.):**

Blunt object, possibly a metal sprinkler head, containing blood, tissue, and hair from Keith and Patrice Harrington.

**-Janelle C. (Janelle C.'s burglary, sexual assault and homicide occurred on May 5, 1986 in Irvine, CA. She was killed as a result of blunt force trauma to her head. The following items of property were missing from her residence.):**

Blunt Object containing blood, tissue, and hair from Janelle C.

[REDACTED]

Your affiant believes Deangelo will still be in possession of these items.

Based on the statement of facts set-forth above, your affiant believes Joseph James DeAngelo Jr. is responsible for the murder of Brian and Katie Maggiore on February 2, 1978. Therefore, your affiant is requesting the issuance of a search warrant to search DeAngelo's residence, person and vehicle(s) for any evidence related to the East Area Rapist series, Brian and Katie Maggiore's murders, Contra Costa County [REDACTED] assaults, Orange County and Ventura County's homicide investigations.

Based on my training and experience, I believe a murder suspect resides at the above-described location. Pursuant to Penal Code 1524, I believe a search of the above-described location will reveal evidence of the identity and motive of the person(s)

[Type here]

responsible for this crime; as well as, the means of perpetration and the circumstances surrounding the commission of the crime.

I know homicide victims are commonly shot, stabbed, beaten, asphyxiated, strangled and/or burned. Often times during the initial discovery of the deceased, investigating officers are not able to determine the means of death due to the position of the body, the presence of massive amounts of blood, the condition of the body, obstructed views from clothing, and the similarity in wound characteristics caused by different weapons. In many cases the weapon and/or item(s) used as the means to kill the victim are taken away from the scene and maintained and stored by the perpetrator. It is necessary for law enforcement to search the suspect's residence for any firearms, knives, blunt instruments, rope, and tools, which can later be determined, through forensic testing, to be the murder weapon and/or weapons.

Based on my training and experience, I know the motives for committing homicides include financial gain, revenge, jealousy, rage, psychological disorders, to cover up another crime, and/or to prevent the discovery of damaging facts. I know many times, financial documents and personal papers from the scene may be taken by the suspect during the commission of his/her crime. I know address books and telephone numbers found at the suspect's residence will lead to friends, associates, and family members of the suspect and by contacting those friends, associates, and family members, we will be able to identify witnesses, motives and any additional suspects involved in the homicide.

I know homicide scenes contain valuable trace evidence from the bodies of the victim(s) and the suspect(s). I know suspects will leave behind latent fingerprints and trace evidence and may attempt to cleanse the scene and/or hide evidence in order to avoid being linked to the crime. This evidence is commonly hidden on the premises including in attics, basements, rooms, garages, grounds, outbuildings, storage sheds, operative/inoperative vehicles, boats, garbage cans and containers located within the property boundaries. During the commission of their crimes, suspects will inadvertently transport trace evidence back to their personal residences.

I know people frequently store information in a digital form on various digital devices and media including cellular phones, computers, digital cameras, personal digital assistants, compact discs (CD's), and digital video discs (DVD's). I know people use digital devices, including computers, to access the internet. I know information stored on these devices may assist investigators and may include: diaries, letters, emails, calendars, phone and address lists, records of internet websites visited, digital photographs and movies and audio recordings pertaining to the people involved in this investigation. I know that, although it may be possible to search these digital storage devices where they are located, investigators with specialized skills, software and equipment are frequently needed examine the device and extract and preserve the data and information found within. I know this is a process, which cannot usually be performed where the digital storage device is located, thus I request that this warrant authorize the seizure of digital storage devices and the subsequent later search and examination by law enforcement specialists.

[Type here]

Based on my training and experience, an electronic device's contents are like a "fingerprint" in that the entire context and content of all the data tend to identify the user and/or users. Your affiant has to prove the identity of the possessor of the device. The electronic contents of the device in their entirety may tend to establish the owner/possessor of the items, and will therefore be needed as evidence in order to definitively determine the possessor of the device at a given time.

Your affiant believes in the years following the completion of all crimes committed by Deangelo he would have accessed updated attempts to identify him as the case remained the subject of law enforcement bulletins, media stories and television documentaries. Your affiant believes that he would have used electronic devices like computers or cell phones with internet access to attempt to locate these media updates on this series of crimes which have garnered national attention. Further I know from training and experience that forensic computer specialists can find these searches even when the user attempts to delete them. This evidence would be circumstantial evidence of Deangelo's involvement with this crime series and his attempts to determine what state this continued investigation is in. Also your affiant believes that serial killers and rapists often keep journals or diaries of their criminal activity. Your affiant believes that Deangelo could have downloaded this journal to computer format.

I know cellular and landline telephones frequently contain information that may assist investigators, which also include contact lists, recently dialed and received calls, text messages, digital photographs and audio recordings. Cellular telephones commonly include SIM cards, flash memory, and memory chips in each telephone/wireless device. Cellular telephone(s) contain digital data: data showing incoming and outgoing calls, electronic address books, and stored voice mail messages, text messages, SMS messages, MMS messages, videos, photographs, Wi-Fi connections, emails, social media accounts (i.e. Facebook, Twitter, Instagram etc.), past GPS location data, any of which may bear a form of identification such as a person's name, address, and telephone number, which could also be used to determine dominion and control over said cellular telephones.

Based on my training and experience, your affiant is aware that suspect's will frequently use storage facilities/units to store items taken during the course of their criminal activity. In this case, the suspect has accumulated a considerable amount of personal property from the victims, much of this property taken as trophies. It is your affiant's belief the suspect would maintain the stolen items over the years; thereby, keeping them in an offsite location like a storage unit.

I know it is necessary to document the suspect's residence through the use of photographs, video tape, and diagrams in order to memorialize the scene for use in later court proceedings. I know due to the technical and sophisticated methods necessary to collect and preserve trace evidence, technical assistance provided by experts at the scene may be necessary to identify and seize items of homicide evidence and prevent the destruction of valuable evidence. Through the use of specialized lighting and equipment, trace evidence can be found even in scenes, which have been

[Type here]

sanitized. Many times the technical experts are non-sworn criminalists, pathologists, and evidence technicians.

Based on my training and experience, along with my communications with fellow investigators, I know that items of evidence commonly found at homicide/suspicious death scenes could include the following:

1. Trace evidence including blood, skin, body tissue, body fluids, hair, saliva, clothing fibers, lint, or carpet/upholstery samples.
2. Items related to firearms 
3. Bindings including but not limited to rope, string, shoes laces, line, cord, etc.
4. Any and all financial documents tending to establish if the motive for the homicide was for financial gain.
5. Items of personal property tending to establish the identity of the persons in control of the premises including utility company receipts, rent receipts, addressed envelopes, vehicle registration, identification cards, photographs, video/audio tapes and keys.
6. Telephone directories, address books, calendars and documents with names and telephone numbers tending to establish the identity of friends, associates and family members of the persons in control of the premises.
7. Digital storage devices including, but not limited to, computers, computer hard drives, computer storage media including compact discs, DVD's and removable storage devices, digital cameras, personal digital assistance (i.e.: Palm Pilots, Blackberry's, etc.), and digital audio recorders. Any writings, paper medium, notebooks and loose paper sheets, any computing or data processing software, stored on any type of medium such as hard disks, floppy disks, cassette tapes, compact disks, RAM or ROM units, or other permanent or transient storage medium, any computing or data processing device(s) and associated peripheral equipment, including but not limited to computer units, keyboards, video display tubes, printers, hard disk drives, floppy disk drives, floppy diskettes, optical disk drives, optical diskettes, tape drives, magnetic tape, compact disk drives, compact diskettes, interconnection cables, and modems, whether acoustic or electric. Any computing or data processing literature including instruction books, manuals, or listed computer programs in whole or in part for the above computer or data processing equipment; and records which show dominion, ownership or control of any of the items to be seized, including bills of sale for computers or modems, repair bills for computers or modems, and sales receipts for floppy disks. Deputies are permitted to conduct a detailed search of the electronic contents of these digital storage devices through means of forensic examination.
8. Wireless electronic devices/cellular telephones and cellular telephone accessories including, but not limited to, SIM cards, and electrical cords for charging phones. Wireless/cellular telephones to include SIM cards, flash memory, and memory chips for each telephone.

[Type here]

Your affiant is requesting to seize the above listed electronic devices. Any further search of those devices will occur only after your affiant or other law enforcement officer(s) obtain a search warrant in compliance with the California Electronic Communications Privacy Act.

9. Stolen property taken by the East Area Rapist (EAR); **See APPENDIX "A" for a detailed list of the items.**
10. Any and all locked safes, locked boxes, chests, etc., which could contain evidence related to the criminal activity.
11. Any and all Photo Albums and loose photographs, which showed the suspect appearance throughout the years.
12. **Suspect's clothing worn at the time of the Maggiore murders, to include [REDACTED] brown leather jacket, dark shoes.**
13. Any and all receipts and/or keys showing ownership of a storage unit.
14. Journals, dairies, maps, or diagrams that depict the areas of Sacramento County, the East Bay, Orange County, Visalia, or which chronicle the events which occurred in those areas during the 1970's and 1980's.

I request that the search warrant, affidavit, and search warrant return be ordered sealed by the magistrate based on the fact that all suspects have not yet been identified, that this is an ongoing criminal investigation and that public disclosure may compromise the integrity of the investigation.

Therefore, I request a search warrant be issued commanding the search of the residence and vehicle I personally observed and described as follows:

8316 Canyon Oak Drive is located in Citrus Heights, which is within the County of Sacramento, State of California. The residence is a single family, single story dwelling located on the south side of Canyon Oak Drive, directly across from Cripple Oak Court. The residence faces north. The structure is a tan color with a dark brown trim along the eaves of the residence. The base of the structure and the garage doors are the same color of the structure. There are three vertical columns of brick separating the garage doors. The residence has two garage doors, which are located on the west side of the residence and face north. In front of the residence's northeast corner is a small patch of grass with several large boulders positioned in the lawn. To the west of the lawn is the residence's driveway. A small concrete walkway leads from the driveway to the residence's front door. The number address for the residence "8316" is enclosed in a white plastic box, which is affixed to the vertical brick column closest to the front door. The front door faces north and is a light color.

Also to include all rooms, garages, outbuildings, storage sheds, storage lockers and garage-cans assigned for the use of the occupants of the suspected unit.

**ALSO TO LOCATE AND SEARCH THE FOLLOWING PERSON(S):**

[Type here]

**JOSEPH JAMES DEANGELO**

Date of Birth: 11/08/1945, Age: 72, Sex: Male, Race: White, [REDACTED]  
[REDACTED], Address: 8316 Canyon Oak, Citrus Heights, CA  
95610, [REDACTED]

Your Affiant has checked known law enforcement databases, including DMV, Sheriff's Known Person Finder (KPF) database and Accurint. Those databases showed Joseph James DeAngelo residing at 8316 Canyon Oak Drive, Citrus Heights, CA. Furthermore, the Sheriff's surveillance team observed DeAngelo freely coming and going from the residence for the last four (4) days. DMV's database also showed the below four (4) vehicles registered to DeAngelo's address. Additionally, the Sheriff's surveillance team observed all four of the vehicles at DeAngelo's residence.

**FOR THE FOLLOWING PROPERTY:**

-Major Case Fingerprints

-Biological material (DNA) from DeAngelo's person to include any of the following: saliva, blood, skin, and bodily fluids. The biological material is to be collected in a non-intrusive manner.

Officers are permitted to transport DeAngelo's person to a law enforcement facility so the collection of DNA and Major Case Fingerprints can be performed in a safe and sterile environment.

Due to the severity of the crimes committed by the perpetrator, law enforcement personnel request the authority to conduct a limited strip search of the abovementioned person (i.e. a strip search to the suspect's underwear) in order to ensure the subject is unarmed and all potential weapons have been removed from his body.

In addition, your affiant is authorized to take photographs of the suspect's entire body, specifically his penis.

**TO LOCATE AND SEARCH THE VEHICLE(S):**

[Type here]

California License Plate: #7EIW866, a white 2014 Toyota Camry, VIN: 5YFBURHE1EP021311; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 22D9508, a 2016 Suzuki motorcycle, VIN: JS1SP46A7G2101119; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 31561X1, a white Toyota Tacoma pickup truck, VIN: 5TFRX5GN6GX067348; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

California License Plate: 4RJ4765, a 2017 trailer, VIN: 1ZEAAFKB1HA005181; Registered to Joseph DeAngelo, 8316 Canyon Oaks Drive Citrus Heights, CA.

# **APPENDIX "A"**

**(LIST OF STOLEN PROPERTY RELATED TO THE  
EAST AREA RAPIST INVESTIGATION)**

**Rings**

Size 6 ½ orange blossom 14 karat gold woman's wide-band ring, inscribed [REDACTED]  
2/11/71" [REDACTED]

Class ring, 14 karat white gold, white stone, "Modesto Junior College 1970" [REDACTED]

Tiger's Eye ring, man's size 9 ½, 14 karat gold setting, "Love forever [REDACTED] Xmas 72" [REDACTED]

Size 9 ½ orange blossom 14 karat gold man's regular-band ring, inscribed " [REDACTED]  
2/11/71" [REDACTED]

One man's gold wedding band, plain. Inscribed "For My Angel" "1/11/70" [REDACTED]

One woman's wedding ring and engagement set soldered together. They are white gold with a one karat diamond in the engagement ring and 5 or 6 diamonds in separate settings on the wedding ring. [REDACTED]

One man's ring, yellow gold with oval onyx. Ring is stamped with 10k or 14k on inside of band. Size 10. Raised ridges, not smooth [REDACTED]

Gold ring, monogrammed [REDACTED] on flat surface [REDACTED]

Gold class ring with blue stone, inscribed "Lycoming College 1965" [REDACTED]

Silver antique spoon ring [REDACTED]

Class ring, yellow gold, blue square stone, Foothill High "Foothill Mustangs Wrestling" written on top, with drawing of wrestlers, dated 1978 with initials [REDACTED] inside band [REDACTED]

One woman's ring, size 4 ½, white gold band with square ruby, with yellow gold bows on each side of stone. [REDACTED]

Jade ring, gold band with oval jade, size 5 ½ or 6 [REDACTED]

White gold ring with heart shapes with a blue sapphire stone in the center ( [REDACTED]

Wedding ring ( [REDACTED]

One pair of loop ear rings, pierced, ten carat gold [REDACTED]

One pearl ring with two pearls, ten carat gold [REDACTED]

One opal ring with large setting, 14 carat gold [REDACTED]

One gold ring with no stone in the setting [REDACTED]

One silver wedding band [REDACTED]

One wedding ring, 1/3 karat diamond [REDACTED]

One gold wedding band, Florentine finish, with inscription "[REDACTED]" with a matching engagement ring with diamonds in a leaf with a flower pattern, set in white gold. The center diamond is approximately .56 carats. [REDACTED]

Ring, white gold, two pearls, with two tiny diamonds [REDACTED]

Ring, yellow gold, cluster of small blue sapphires [REDACTED]

Ring, heirloom engagement ring, white gold or platinum, many diamonds. [REDACTED]

Ring, cameo Mother of Pearl, white gold, 4 tiny diamond-like stones on either side of cameo. [REDACTED]

Ring, white gold setting, with an emerald stone. [REDACTED]

Ring, yellow gold, heirloom, with emerald stone with many scratches on stone [REDACTED]

Ring, man's, yellow metal with blue uncut center stone, from the University of California, San Francisco with inscription "PHARM D. Degree 1975" [REDACTED]

One man's yellow gold ring for the little finger, oval tiger's eye stone, hammered gold. Eye is dark, oxidized lines from top to lower sides. [REDACTED]

One woman's yellow gold ring, Size 5 1/4, flat bottom with four indentations on the top that look like black stripes. Indentations are cuts across the top of the ring with oxidizing. [REDACTED]

One woman's engagement ring, size 5 1/4, brushed yellow gold, 1/4 inch wide, 21 point round diamond, polished edge on each side. [REDACTED]

One woman's yellow gold ring, jade stone, offset setting. [REDACTED]

One woman's yellow gold ring, aquamarine stone, antique setting. [REDACTED]

One turquoise ring with silver band size 5 1/2 [REDACTED]

One woman's ring, antique, diamond wedding ring approximately 1/2 carat set on prongs of yellow gold. The area behind the diamond is blackened. Woman's size 5 to 6. [REDACTED]

One woman's ring, antique white gold, a diamond with approximate size of 40 points is set in the center of the the ring with two ten point diamonds on each side. Woman's size 5 to 6. [REDACTED]

One woman's wide band white gold wedding ring with the inscription [REDACTED] 10-11-69"  
[REDACTED]

One woman's white gold solitaire engagement ring with 1/4k diamond [REDACTED]

Gold Ring, leaf design with large pearl 6-8 mm, mounted off center, the leaves are freeform (not smooth), ring size 5 [REDACTED]

Gold Ring, diamond shaped, three diamonds surrounded by rubies, the band is approximately 1/4 inch wide, the surface is approximately 7/8 inch long and 1/2 inch wide, ring size 5  
[REDACTED]

Gold Ring, round shaped, one large diamond surrounded by smaller diamonds, the gold is "brushed antique finish", the maximum circumference is about the size of a nickel, ring size 3  
[REDACTED]

Gold Band, plain, 1/8 inch wide, ring size 3 [REDACTED]

Gold Signet Ring, 1/4 inch round face with initial [REDACTED] scroll, scroll design on both sides of face, ring size 3 [REDACTED]

Gold Signet Ring, 1/4 inch round face, initial [REDACTED] scroll on face [REDACTED]

Gold Ring in porpoise shape, 14K, ring size 3 or 5 [REDACTED]

One man's ring, size 6, 14 carat yellow gold, florentine finish on bottom half with black star sapphire [REDACTED]

One lady's ring, size 7, middle finger ring, 14 carat yellow gold inscribed with ALCAPULCO 1977 inside bottom half. Stone mount is visible from inside of ring. The stone mounting is of frosted crystal band with ten diamond chips around mount and two gold sizing drops on inner side [REDACTED]

**Driver's Licenses, Identification, Photographs**

Driver's license of [REDACTED]

[REDACTED] driver's license

[REDACTED] D. card for bus passes

[REDACTED] Social Security Card

[REDACTED] driver's license

[REDACTED] school ID card

Photographs of [REDACTED]

Photograph of [REDACTED] in a bikini

Photograph of [REDACTED]

[REDACTED] s driver's license [REDACTED]

High school photograph of [REDACTED]

[REDACTED] Driver's license DL# [REDACTED]

**Money, Jewelry with Money**

Half-dollar necklace with Statue of Liberty carved out [REDACTED]

Old two dollar bill, dated prior to 1947, folded in 4 sections [REDACTED]

Silver Dollar, dated 1935 [REDACTED]

One silver dollar in sterling silver money clip with the letter "MISSLE" carved into the dollar. The clip is round and fits over the outer edge of the dollar with the clip part converging the rear side of the coin. The letter "MISSLE" is engraved on the clip portion of the item. The tail portion of the coin shows an eagle with both wings spread out. There is a small punch hole near the neck of the eagle. [REDACTED]

One silver dollar, in sterling silver money clip, date of dollar unknown [REDACTED]

One silver dollar, date of 1888 [REDACTED]

One silver dollar, date unknown, with initials [REDACTED] and date "8-8-72" carved into the dollar on the tail side. Engravings are at the feet of the eagle. [REDACTED]

Two dimes with small holes drilled at top to make earrings. [REDACTED]

One green Bank of American bag with silver zipper lock containing \$1,366.31 in cash [REDACTED]

Four U.S. \$2 dollar bills [REDACTED]

Six U.S. silver dollars, one dated from the 1950s, one dated 1921 [REDACTED]

**Miscellaneous: Keys, Other Jewelry, Etc**

Keys to residence of [REDACTED]

Keys to 1962 Mercury Comet, CA Lic [REDACTED]

Key ring with leather tab, shape of frog on the tab and the word "Ribid" on the tab [REDACTED]

One set of cuff links, yellow gold with initials [REDACTED] in script. [REDACTED]

One tie pin, yellow gold, in shape of bar with initials [REDACTED] in script, but smaller than the cuff links [REDACTED]

One gray draw-string bag, small, containing the above cuff links and tie pins. The string is red or maroon. [REDACTED]

Baseball cap with "B & R Inc" on it [REDACTED]

Silver colored metal box about 3 inches square with a red and green floral design painted on the top [REDACTED]

Hamilton wrist watch with flex band, yellow gold [REDACTED]

[REDACTED] wallet

Wrist watch, ladies, Times, yellow metal. [REDACTED]

Wrist watch, man's, Benrus, brown face with date, yellow metal Spandex band with brown tiny squares. [REDACTED]

Camera, Mamiya/Sekor, with case, model #1000 [REDACTED]

Zoom lens, Vivitar, model #85-205, with case, variable style. [REDACTED]

China, packed in China preserving cases, Noritake brand, Polanise style. [REDACTED]

Stainless steel flatware, Reed and Barton brand, packed in a wood silver chest. [REDACTED]

One Sears clock radio, wood-tone finish. [REDACTED]

One wooden bowl, approximately 6 inches in diameter. [REDACTED]

Two to three steak knives, wooden handles, serrated blades [REDACTED]

One yellow gold antique stick pin, opal stone. [REDACTED]

One "Jewelbox" brand woman's watch, 14kt yellow gold dress band with chain. Oval face with diamond chip on band at each side of face [REDACTED]

One sterling silver charm bracelet with miniatures of a piano, a dog, a top hat, a birthday cake, and two golf clubs [REDACTED]

One ladies' navy blue imitation leather handbag containing miscellaneous papers [REDACTED]

One ladies' rust colored imitation leather shoulder bag [REDACTED]

California driver's license for [REDACTED]

Credit cards for [REDACTED]

Keys for [REDACTED] residence, vehicle, and place of employment

One ladies bathrobe, size 8, floor length, red in color [REDACTED]

One men's Seiko digital watch, with second, minute, and day date indicators. Silver band, expandable. The case is octagon in shape and has dark brown face [REDACTED]

[REDACTED] office and car keys [REDACTED]

Hairbrush, dark wood with a two sided plastic head with natural bristles [REDACTED]

A Minolta Pocket Auto Pak-50 camera, serial number 104320 [REDACTED]

An old doctor's bag, possibly with a black beady leather exterior. The bag was 18-24 inches long and 8 inches wide. The bag was believed to contain a doctor's syringe, some form of prescription pain killers, finger splints, ankle splints, alcohol and anesthetic swabs. [REDACTED]

Chinese Gambling Chip, white (almost transparent) mother of pearl, design etched on both sides, pagoda on one side, 14K gold bezel mount. This is a one of kind item. [REDACTED]

Gold Heart, hollow and rounded on surface (puffed), measures 1 inch by 1 inch [REDACTED]

Gold Nugget, 14K, 7/8 inch long by 3/8 inch at widest point [REDACTED]

Gold Earrings, for pierced ears, wide loop shape, open in center [REDACTED]

Gold Horse Shoe, approximately 1/2 inch [REDACTED]

Several Gold Necklaces and Chains - [REDACTED]

- a. 16" medium weight in serpentine design
- b. 18" fine weight, cobra design
- c. 28" medium weight, foxtail design
- d. 20 11 heavy weight, 1/8 to 1/4 inch wide, diamond cut victoria style

- Sinasalo Motocross glove: [REDACTED]
- One 16" neckchain, linked, 14 carat yellow gold, thin, 2mm diameter [REDACTED]
- One 24" necklace, linked, 14 carat yellow gold, 4mm diameter [REDACTED]
- One 16" man's rope chain necklace, 14 carat yellow gold, 5mm diameter [REDACTED]
- One 8" rope chain bracelet, 14 carat yellow gold, 3mm diameter [REDACTED]
- One flat interlocking chain link bracelet, hollow, 1" lengths, 14 carat yellow gold [REDACTED]
- One women's solid gold bracelet, smooth finish, round with chain clasp, 14 carat yellow gold [REDACTED]
- One woman's large antique gold ring with 1" rectangular imitation turquoise stone, size 7 [REDACTED]
- One man's white gold ring, blue star sapphire stone, florentine setting, [REDACTED]
- One woman's 18 carat gold wristwatch, square face flush with band, white face with roman numerals fluorescent with either a swiss or german name on the face, flatbrush finish, 3/8" wide [REDACTED]
- One 16" thin neck chain, 14 carat yellow gold with small heart, white gold with diamond chips [REDACTED]
- One 24" rope chain necklace, solid 14 carat gold, 3mm diameter with one once natural dirt nugget [REDACTED]
- One 30" woman's thin cobra chain, 14 carat yellow gold with 3/4" solid gold heart, [REDACTED]
- One 7 1/4" women's bracelet, tri-color braid of white, pink, and yellow gold, brushed clasp with ITALY stamped on the clasp [REDACTED]
- One 7 1/2" women's bracelet, woven braid, tri-color, white, pink and yellow gold, 7/16" thick
- Small chrome lamp, Rockstar brand, Model #7471C [REDACTED]
- Cassette tapes from answering machine [REDACTED]

[REDACTED]

**Other Weapons**

Blunt object, possibly a metal sprinkler head, containing blood, tissue, and hair from Keith and Patrice Harrington ([REDACTED])

Blunt object containing blood, tissue, and hair from Manuela Whittuhn ([REDACTED])

Blunt Object containing blood, tissue, and hair from Janelle Cruz ([REDACTED])

## **AFFIDAVIT OF DETECTIVE KENNETH CLARK**

### **IN SUPPORT OF ARREST WARRANT**

I, **DETECTIVESERGEANT KENNETH CLARK #19**, your affiant, have been a sworn, full-time Deputy Sheriff for the County of Sacramento Sheriff's Department since March 1995. From December 1992 to March 1995, I was a sworn, level one reserve Deputy Sheriff with the County of Sacramento Sheriff's Department. I was assigned to the Homicide Bureau of the Sheriff's Department in September of 2005, as a detective and worked that assignment until 2015. I promoted to the rank of Sergeant, and returned to the homicide bureau as a unit supervisor in February, 2017.

While with the Sacramento County Sheriff's Department, I have been assigned to Corrections at the Main Jail, South Patrol, High Impact Patrol Team, Critical Incident Negotiation Team, Central Patrol Division, and the Robbery Bureau. I worked as a training officer in the Main Jail, and was an appointed Field Training Officer in patrol. During that time, I investigated crimes and incidents including, but not limited to, burglaries, thefts, financial crimes, embezzlements, robberies, carjackings, domestic assaults, sexual assaults, other assaults, child abuse, elder abuse, gang crimes, narcotic offenses (possession and sales), suspicious deaths, suicides, homicides and cold case homicides.

During my time as a hostage and crisis negotiator with the Critical Incident Negotiations Team, I have participated in no less than eighty critical incident callouts. I have served as the primary negotiator several times, as well as participated in all aspects of crisis negotiation. Upon promotion to the rank of Sergeant, I was the team leader of the Critical Incident Negotiations Team in March, 2016. While assigned as a detective with the Robbery Bureau, I have investigated no less than two hundred robberies, including commercial robberies, robberies to persons, home invasion robberies and carjackings.

As a detective assigned to the Homicide Bureau I have been a primary investigator on no less than 150 homicide and death investigations and assisted on no less than 50 additional homicide and death investigations. As a supervisor in the homicide bureau, I have overseen the investigation of an additional 40 cases.

I have attended no less than 25 training schools and conferences in the area of Law Enforcement. Some of the courses attended include, Interview and Interrogation, Sexual Assault Response, Drug Recognition and Awareness, Field Training Officer, Basic Hostage Negotiation, Robbery Investigation, and Homicide Investigation.

I completed a Bachelor's degree in Public Administration at the University of San Francisco in December, 2006.

## STATEMENT OF PROBABLE CAUSE

I am aware of the following information either from personal observations, interviews and/or information which was related to me by other law enforcement officers based upon prior investigations and law enforcement reports.

### Introduction

This is a request for an arrest warrant for **JOSEPH JAMES DEANGELO**, born 11/08/1945 for the murder Brian and Katie Maggiore on February 02, 1978. The Maggiore homicides have long been considered to be part of series of crimes perpetrated by an individual known to Law Enforcement Agency as "The East Area Rapist" (EAR). The EAR series was linked to a previous series of crimes in Tulare County, CA, [REDACTED]

[REDACTED] Both of those series have also been connected to a series of rapes and murders in Southern CA w [REDACTED]

Between April 1974 and May, 1986, an unidentified white male hereafter referred to as the East Area Rapist (EAR) committed no less than 57 attacks that included sexual assaults and an additional 13 homicides throughout California. He was responsible for hundreds of sexually motivated burglaries, prowling events, and hang up/lewd phone calls. **The suspect in this series has now been identified by DNA as Joseph James DeAngelo, born 11/08/1945**, a Sacramento County resident. (See full description page for all identifying information regarding this suspect).

DeAngelo's connection to these crimes has been established through his geographic ties to the locations where the attacks occurred, numerous circumstantial links, and a [REDACTED] Modus Operandi (M.O.) [REDACTED]. The geographic connections will be explored in detail, but include his presence in Tulare County, CA as an Exeter Police Officer during the M.O. linked Visalia Ransacker series. Visalia is less than 20 minutes away from DeAngelo's residence at the time. Additionally, it appears the Kings County Public Safety Academy was held on the campus of the College of the Sequoias. This campus is the epicenter of Visalia Ransacker crimes and it was a professor at this college that was murdered in September of 1975 following an attempted abduction of the professor's daughter in the middle of the night.

By 1976, DeAngelo had transferred to the Auburn Police Department, and was employed there during the vast majority of the EAR portion of the series. The [REDACTED] M.O. [REDACTED] evolves over the course of the series, [REDACTED]

[REDACTED] that it points to the actions and crimes of one man, Joseph James DeAngelo.

Three sexual assaults occurred in Contra Costa County, [REDACTED] [REDACTED] A forensic unknown profile was established in the Contra Costa County assaults, and recently, two surreptitious DNA samples were collected from Joseph J. Deangelo. These samples match the previously unknown profile of Contra Costa County. A DNA sample collected in an investigation of the double homicide of Lyman and Charlene Smith in Ventura County matches the previous unknown profile of the Contra Costa County sexual assaults.

Additionally homicides in Santa Barbara County and Orange County were previously linked to the Lyman and Charlene Smith homicide via DNA profiles.

The case is presented below. Due to the extensive nature of this crime series that has at least 58 official sexual assault and homicide case files containing more than 10,000 pages, I have provided a basic summary of the 50 attacks in Northern California in which all the victims were left alive. A brief summary of a pre-EAR burglary and sexual assault series known as the Visalia Ransacker series is included (1974-1975). This series culminated in the attempted abduction of a young woman from her bedroom and the murder of her father, [REDACTED]

[REDACTED] A couple months later, the offender was confronted while prowling by an on-duty undercover Visalia Police Officer, [REDACTED]. The offender shot at [REDACTED] wounding him with glass debris prior to escaping.

Also included are detailed summaries of the DNA linked EAR cases that occurred in Contra Costa County.

Finally, I have provided a detailed summary of the Rancho Cordova double murder of Brian and Katie Maggiore [REDACTED]. In addition, exhibit A contains detailed summaries of each sexual assault offense. The last 7 cases all occurred in Southern California. In the last 6 cases all of the victims were killed. Ten individuals were murdered in these final six cases. I have provided a succinct synopsis of each of these homicide cases.

**Pre-EAR phase: Visalia Ransacker Series**

From April 1974 through December 1975, Visalia, California experienced approximately 120 residential burglaries. Additionally, some of the burglaries involved attempted sexual assaults. The residences were extensively ransacked; hence, the suspect involved in the criminal activity later became known as the Visalia Ransacker.

In the burglaries, [REDACTED]

Several witnesses, who saw the suspect without any face covering, described the suspect [REDACTED]

Additionally, an analysis of the Visalia burglaries showed they were concentrated in the neighborhoods surrounding the College of the Sequoias, which is a community college off Highway 198 and S. Mooney Boulevard. Many of the neighborhoods surrounding the College were linked with drainage canals/ditches.

On September 11, 1975, [REDACTED] was murdered in his Visalia residence. The incident began at approximately 2:00 AM. [REDACTED]

[REDACTED] However, detectives believed the suspect was in the process of abducting [REDACTED] daughter. [REDACTED]

Based on this information, law enforcement revisited the Ransacker cases, at which time they learned [REDACTED]

Additionally, law enforcement located several footwear impressions under [REDACTED] window. These footwear impressions were consistent with impressions located at several of the other burglarized residences associated with "The Visalia Ransacker".

On Monday, September 22, 1975 between the hours of 1900 and 2030, a "Ransacker" burglary occurred in Visalia, CA at [REDACTED]

Based on the pervasive nature of the Ransacker, the Visalia Police Department increased patrols and positioned officers in several residences within the burglarized areas in hopes of apprehending the suspect.

On December 10, 1975, Visalia Police Officer [REDACTED] was positioned in the garage of a residence for the purpose of capturing the Visalia Ransacker. The residence he was watching was a suspected target of the Visalia Ransacker, and [REDACTED] was secreted in the neighboring garage. Officer [REDACTED] spotted a prowler in the backyard peeping through a window. Officer [REDACTED] gave chase and confronted the suspect with his gun and flashlight drawn. The suspect removed his ski mask that was atop his head, but not covering his face, looked at Officer [REDACTED], and begged him not to hurt him. Officer [REDACTED] later described the suspect's voice as juvenile and effeminate. The suspect had one hand up over his head while the other hand was in his jacket pocket. The suspect quickly removed a handgun from his jacket and fired a round at [REDACTED]. The round struck Officer [REDACTED] flashlight, embedding in the battery. As Officer [REDACTED] fell backwards, the suspect fled over a fence. This pattern of explosive violence followed by escape when cornered would repeat itself in the series. This was the last time the Visalia Ransacker was seen in Visalia.

**Phase 1: Sacramento and Stockton**

[REDACTED]

What follows are brief summaries of each Sacramento case:

On June 18, 1976, [REDACTED] was sleeping in her bedroom at her [REDACTED] residence in Rancho Cordova, CA. She lived with her father, who was retired from the military and on vacation in Florida. [REDACTED]

[REDACTED] later described the suspect as a white male adult between the ages of 20 and 25 years old. He was slightly taller than [REDACTED] who estimated the suspect to be 5-6 to 5-9, with broad shoulders and a [REDACTED]

On July 16, 1976, [REDACTED] was at his home located in the [REDACTED] and was leaving for work at approximately 5:00 a.m., when he was physically attacked in his garage. He opened his automatic garage door and as it was partially opened, he heard footsteps, and observed a subject bending down and coming under the door. He was about to open his vehicle door when he was struck on the head by a hard object. He observed the suspect to be wearing a dark colored ski mask. [REDACTED] was struck several times in the head and body, and took refuge under his own vehicle to try and escape the blows. The suspect tried to pull [REDACTED] from under the car, partially removing his trousers in the process. He was able to see the suspect was wearing light brown hiking style half boots with unusually thick soles. The suspect removed [REDACTED]'s wallet from his trousers and fled on foot out of the open overhead garage door. The suspect was described as a male, six feet tall or more, slender build but strong, wearing a cloth jacket, course denim trousers, and dark colored gloves. The weapon the suspect used was described as no more than three feet long, about as round as a shovel handle, with padding on the head end of the club similar to wrapped sand. [REDACTED] wallet was located in a nearby yard. Prior to the attack, at approximately 3:50 a.m., [REDACTED] had heard footsteps near the paved area of his backyard pool. He looked out a window but saw nothing. He heard another noise a few minutes later, but didn't investigate. [REDACTED] had a teenage daughter who had moved out of the home a couple weeks before the incident.

On July 17, 1976, between 2:00 a.m. and 4:30 a.m., a few blocks from the attack on [REDACTED] in the [REDACTED] two teenaged sisters, [REDACTED] were home alone. They were asleep in separate bedrooms of the residence when [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

The suspect was described as a white male adult, between the ages of 17 and 20 years old, no older than 30 years old, 5-8 to 5-10, with a muscular build.

On August 29, 1976, around 3:15 AM [REDACTED] and her two daughters, [REDACTED] were home asleep, when [REDACTED] awoke to the chimes by her bedroom window. When she looked toward her window, she saw the silhouette of a male trying to pry her window's screen off. [REDACTED] sat up and the suspect ducked down.

[REDACTED] ran to [REDACTED] room and told her someone was trying to break into their house. The two of them went to her sister [REDACTED] room to wake her but could not get her up. After quickly looking into the backyard, they went to the kitchen to use the phone. As [REDACTED] was dialing the phone, they heard [REDACTED] curtain rod fall to the floor. Shortly thereafter, they saw a male silhouette standing in front of them. He told them to freeze or he would kill them. The suspect was holding a gun in one hand and a club in the other hand.

The suspect told them he just wanted money. He then tried to tie [REDACTED] hands behind her back, but she struggled. The suspect struck [REDACTED] several times in the head with the club. [REDACTED] was able to flee the residence to a neighbor's house. The suspect in turn fled the residence.

[REDACTED] and her daughter described the suspect as a light complexed white male adult, between 20 to 30 years, 5-10 tall, with a slim build. They indicated the suspect was armed with a revolver, wearing a black lineman's style utility belt and was wearing no clothing from the waist down. They thought he was wearing high shoes/boots.

On September 4, 1977, around 4:00 PM [REDACTED] went to her parent's residence on [REDACTED] to do laundry. [REDACTED] was described as a very dark street, with no overhead streetlights. There was a drainage ditch, which ran north of the residence and a nature area to the south of the residence.

At around 11:15 PM [REDACTED] finished her laundry and placed it in her vehicle, which was parked in front of the residence. As she turned around, the suspect was standing there. [REDACTED]

[REDACTED]

After freeing herself, [REDACTED] notified the Sheriff's Department. Additionally, she noticed the suspect had left in her vehicle. [REDACTED] described the suspect as a light-skinned white male, [REDACTED]

[REDACTED] parents' residence was approximately 2.5 miles from American River College. Additionally, there are several drainage ditches which transverse the area.

After the fourth burglary involving a sexual assault, the Sacramento County Sheriff's Department began to realize they had a serial burglary/ rapist. The suspect was targeting residences and females in the Rancho Cordova, Arden/Fair Oaks, Orangevale and Citrus Heights communities of Sacramento County. He would later be called the East Area Rapist (EAR).

On **October 5, 1976**, around 6:50 AM, [REDACTED] was lying in bed with her 3-year-old son, when she heard a light switch and footsteps in the hallway of her residence, which was located at [REDACTED] in Citrus Heights. [REDACTED]

[REDACTED]

After the suspect [REDACTED] she could hear him walking around the house. When she could not hear the suspect anymore, [REDACTED] was able to remove her blindfold and went to a neighbor's house for help. [REDACTED] stated the suspect [REDACTED] and was 5-10 tall.

[REDACTED]

Additionally, there was a drainage ditch in close proximity to her residence.

On **October 9, 1976**, around 4:30 AM, [REDACTED] a 19-year-old female, who resided at [REDACTED] in Rancho Cordova. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] later notified law enforcement of the assault once her co-worker arrived at her house to pick her up for work.

[REDACTED] was not able to provide a physical description of the suspect, other than he was wearing black leather shoes. The suspect entered [REDACTED] residence through an unsecure living room window at the rear of the house.

In addition, investigators learned [REDACTED]

On October 18, 1976, around 2:30 AM, [REDACTED] who resided at [REDACTED] in Carmichael with her husband and two children, was awakened by her son [REDACTED] who told her someone was trying to get into the house through the kitchen window.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] She was able to untie herself and go to her neighbor's house for help.

[REDACTED] described the suspect as a white male adult with dark hair on his arms and legs, with a solid build. She indicated the suspect was wearing [REDACTED] a dark t-shirt, gloves and white jockey shorts. The suspect was not wearing any pants.

On October 18, 1976, around 11:00 PM, [REDACTED] who resided at [REDACTED] Rancho Cordova, arrived home and parked her vehicle on the street in front of her house. As [REDACTED] was getting out of her vehicle, the suspect forced open her driver's door and place his hand around her mouth. [REDACTED] began to struggle at which time the suspect placed a knife to her throat. The suspect told [REDACTED] he would not hurt her, he only wanted her vehicle. The suspect then tied [REDACTED] hands behind her back and escorted her around the corner. Once around the corner, the suspect bound [REDACTED] feet, gagged and blindfolded her.

The suspect then told [REDACTED] not to move that he would be back in 15 minutes. [REDACTED] asked the suspect not to hurt her dog and the suspect replied he would not. Once the suspect ran off, [REDACTED] heard her vehicle drive way. [REDACTED] was able to free herself from her bindings and go into her house for help.

[REDACTED] described the suspect as a white male adult, 6 feet tall, [REDACTED] a heavy gray jacket, white cotton mechanic's gloves, and brown desert boots. The suspect also continuously told [REDACTED] to shut up.

[REDACTED] vehicle was recovered the following day (October 19, 1976) parked in front of [REDACTED] which was .3 miles from [REDACTED] house and .27 miles from [REDACTED] house (October 9, 1976 incident). [REDACTED] vehicle was locked and her dog could be heard barking from the trunk.

Later on January 4, 1978, [REDACTED] received a lewd telephone call from a male, who asked if she would like him to lick her pussy. He also told [REDACTED] he knew where she lived. [REDACTED]

On 11/10/1976, [REDACTED] a 16-year-old high school student, who resided at [REDACTED] in Citrus Heights, was home alone watching television when she heard a loud noise coming from the living room. Her dog began to shake and bark, but [REDACTED] was not concerned and continued watching television.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] was able to untie her wrists and ankles and walked back towards her house. When she reached her neighbor's house, they called for help.

[REDACTED] described the suspect as a white male adult, 18 to 23 years old, 5-10 and 165 pounds. She indicated the suspect had brown hair with a very pale complexion. The suspect wore [REDACTED]

[REDACTED]

[REDACTED]

On 12/18/1976, around 7:15 PM, [REDACTED] 15-year-old high school student, who lived at [REDACTED] in Fair Oaks with her parents, was home alone with a cold. Her parents had gone to a Christmas party and her sister was at a friend's house.

As [REDACTED] was practicing the piano, she heard some strange noises but didn't think anything of it.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as a white male adult with a regular build. She could not tell his age or height. She indicated the suspect was wearing [REDACTED] and nylon type jacket.

[REDACTED]

During the investigation, [REDACTED]

On 1/18/1977, around 11:30 PM, [REDACTED] a 25-year-old [REDACTED] who lived at [REDACTED] in Sacramento, went to bed. Her husband was out of town on business.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] was able to free herself and call for help.

[REDACTED]'s vehicle was recovered the following day (1/19/1977) in an apartment complex parking lot, 1.5 miles away from [REDACTED] residence. The vehicle was locked and the keys were missing.

[REDACTED] described the suspect as a white male adult, 5-11 and 180 to 185 pounds. He [REDACTED] possibly polyester pants and a lightweight jacket.

Two months prior to [REDACTED] rape, [REDACTED]

[REDACTED]

On 1/24/1977 around 1:00 AM, [REDACTED] a 25-year-old accountant who was separated from her husband and lived at [REDACTED] in Citrus Heights, was entertaining friends at her residence.

Shortly after midnight, all of [REDACTED] guests left, leaving her home alone. After falling asleep, [REDACTED]

[REDACTED]

[REDACTED]

After the suspect left, [REDACTED] waited 15 minutes before moving, at which time she untied herself and called for help.

[REDACTED]

[REDACTED] description of the suspect was limited since the bedroom was very dark [REDACTED]

On 2/7/1977, around 6:50 AM, [REDACTED] a 30-year-old [REDACTED] and [REDACTED] was at home with her daughter. She resided at [REDACTED] Her husband had just left for work and asked her to make sure the house was locked since he saw a suspicious van nearby.

[REDACTED] walked through the house, checking the doors. However, when she turned around the suspect was standing there with a gun pointed at her. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] A neighbor responded and

assisted in untying them at which time she called the police.

[REDACTED] daughter described the suspect as a white male adult, [REDACTED] She indicated the suspect was wearing white jockey shorts, white tennis shoes and a red/white/blue jacket. She said the suspect also had hairy legs.

[REDACTED] s neighbor [REDACTED] who resided at [REDACTED] stated he saw a subject climbing over a fence located along a cement drainage ditch. He didn't think anything of it since it was close to Del Campo High School. He described the subject as a white male adult, with short light brown hair, between 16 to 20 years old, wearing a light blue coat and blue pants, similar to a blue leisure suit. Shortly after seeing the subject go over the fence, [REDACTED] saw [REDACTED] exit her house and yell t [REDACTED]

A student at Del Campo High School also saw the subject described by [REDACTED] run down [REDACTED] and disappear into the park.

During the investigation, investigators learned [REDACTED] and her family had previously been victims of a burglary on two separate occasions. Additionally, prior to her [REDACTED] incident, [REDACTED] and her family received two phone calls where the calling party hung up.

On 2/16/1977, at 10:30 PM, [REDACTED] an 18 year old who resided at [REDACTED] with his parents had been shot. [REDACTED] was found lying on the ground by a fence in between [REDACTED] and [REDACTED] had sustained a gunshot wound to the abdomen. He was immediately transported to the hospital.

[REDACTED] father told law enforcement the family was in their house when they heard a noise coming from their backyard. When [REDACTED] and his father went into the backyard to investigate the noise, they saw the shadow of a man. The suspect took off running toward the street and they gave chase. The suspect hopped a fence and shot [REDACTED] as he attempted to follow. [REDACTED] fell to the ground.

As [REDACTED] father approached, he heard a second gunshot. His father grabbed [REDACTED] and pulled him around the other side of the house.

A neighbor heard the gunshots and tried to follow the suspect. He came upon three girls, who told him they saw a male run into the bushes by [REDACTED]. The girls could only describe him as a male between 25 to 30 years old, with heavy legs.

[REDACTED]

On 3/07/1977, around 9:35 PM, [REDACTED] a 38-year-old female who lived at [REDACTED] in Sacramento, returned home after spending some time at a friend's house. Shortly after arriving home, [REDACTED] went to bed. Prior to going to sleep, [REDACTED] recalled checking all the doors and windows to make sure they were locked.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] She tried to use her telephone, but there was only a dial tone. [REDACTED] made her way to the front door and yelled for help. Law enforcement responded shortly thereafter.

It was determined the suspect gained entry into the residence by prying open a rear window. In doing so, he broke the bottom piece of the window.

[REDACTED]

On 03/18/1977, around 10:40 PM, [REDACTED] a 16-year-old student at [REDACTED] who resided with her parents at [REDACTED] in Rancho Cordova, arrived home from work. She worked at a local [REDACTED]

Prior to leaving work, [REDACTED] asked her sister to leave the kitchen, living room and porch light on. However, when [REDACTED] arrived home, only the kitchen and living room lights were on.

Once inside her house, [REDACTED] called a friend to arrange to go over to visit. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] the home telephone continuously rang. It was determined [REDACTED] was trying to reach [REDACTED]. The suspect became very tense and began walking back and forth from the kitchen and the backyard.

[REDACTED] later heard knocking on the front door. It was [REDACTED] and her father checking on her. When they were not able to enter through the front door, they went around to the backyard and entered the residence. Once inside, they found [REDACTED] and untied her.

Investigators located pry marks on the back sliding glass door. The door latch had been broken in half. All three bedrooms had been ransacked, which [REDACTED] thought occurred before she got home.

[REDACTED] described the suspect as a white male, 25 to 35 years old, 5-10, medium build and wearing a [REDACTED]

On 4/02/1977, around 1:30 AM, [REDACTED], a 29-year-old [REDACTED] who resided at [REDACTED] in Orangevale, arrived home from the drive-in movies. She was with her boyfriend [REDACTED] and her two children.

After everyone went to bed, [REDACTED] was awoken by something. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as a light complexed white male adult, 5-10, medium build, with large thighs and very course leg hair. She indicated the suspect [REDACTED]

[REDACTED] did not take off his jacket, which she described as a dark nylon windbreaker.

The only thing missing from the residence was [REDACTED]

During the investigation, investigators learned there had been recent reports of burglary and prowler activity in the neighborhood. In one instance, a homeowner chased a white male adult, 25 to 30 years old, 5-9 to 5-10, stocky build, with collar length hair.

On 5/03/1977, around 2:00 AM, [REDACTED] a 30-year-old [REDACTED] who resided at [REDACTED] with her husband [REDACTED] and two children, was home asleep. Her husband was a [REDACTED] at [REDACTED] and their house backed up against the levee for the American River.

As everyone was sleeping, [REDACTED] awoke for an unknown reason [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as a white male adult, 5-10, 165 to 170 pounds, with a light build. The suspect wore a [REDACTED] and a dark puffy ski jacket.

The suspect gained entry into the residence through a sliding glass door. The only items [REDACTED]

On 4/15/1977, around 2:00 AM, [REDACTED] a 19-year-old [REDACTED] who resided with her fiancé at [REDACTED] in Carmichael, was awakened by a bright light in her face. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] After 5 minutes, [REDACTED] grabbed a knife from the kitchen and cut her bindings. She then went to her fiancé and freed him.

[REDACTED] stated she never saw the suspect's face and [REDACTED]. She described the suspect as 5-8 to 5-10, 145 to 150 pounds with a small build. She said the suspect wore a green khaki nylon jacket and military style boots.

The suspect took approximately \$100 in cash, [REDACTED]

During the investigation, investigators learned there was an incident nearby where a neighbor saw a prowler standing by a window.

On 5/14/1977, around 2:00 AM, [REDACTED] a 22-year-old female, who resided at [REDACTED] in Citrus Heights with her husband [REDACTED] was home in bed when she heard the sound of metal scratching. Shortly after going asleep [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

After waiting several minutes [REDACTED] freed herself from her bounds and ran to a neighbor's residence for help.

[REDACTED] described the suspect as a male adult, 5-9 to 5-10, stocky build, [REDACTED]. The suspect had brown collar length hair and hairy legs.

Like many of the other victims, a month prior to the incident neighborhood kids saw a stocky male prowler in the backyard of a residence in the neighborhood.

On 5/17/1977, [REDACTED] a 26-year-old [REDACTED] lived with her husband [REDACTED] and their two children at [REDACTED] in Carmichael. At or around 1:30 AM [REDACTED] was in bed with her husband when they awoke to the suspect in their bedroom.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] did not hear anything for 30 minutes until she heard her husband moving around and calling for his father to come untie him.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] described the suspect as an adult male 5-8 to 5-9. [REDACTED]

[REDACTED]

On 12/2/1977, around 10:30 PM, [REDACTED] a 36-year-old female, who lived at [REDACTED] in Sacramento with her husband and two children, was home with her two children and two friends.

After her friends left, [REDACTED] and her children went to sleep. Shortly after falling asleep, [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

On 1/28/1978, around 10:00 PM, [REDACTED] and her sister [REDACTED] 15 and 14 year old high school students, who resided with their parents at [REDACTED] were home alone. They had been watching television and decided to go to sleep.

Shortly after falling asleep, [REDACTED] heard a thumping noise. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

After 15 to 30 minutes, the sisters heard their father's voice calling out to them. He found them in the bedroom and untied them.

The father [REDACTED] told investigators he and his wife arrived home around 11:30 PM. As they pulled into the driveway, he noticed the laundry room door open and several lights.

[REDACTED] stated the suspect was 5-10 and wore a [REDACTED]

The victim's residence was a quarter of a mile away from American River College.

[REDACTED]

In most of the attacks, the suspect struck homes easily accessible from a drainage canal, creek, or open field adjacent a creek.

[REDACTED] noted the suspect ate and drank

An attempted murder of a teenage boy occurred in the middle of this phase, on 2/16/77. The victim, [REDACTED] was an 18 year old white male who lived at home with his parents and sister at [REDACTED]

Several officers had been posted in the neighborhood due to the Ear Area Rapist series which had been going on since June of 1976. A radio call was received at approximately 2230 hours on February 16, 1977 stating a boy had been shot. Sacramento Police Department Officers responded to [REDACTED] and met with a citizen who directed them to the victim. [REDACTED] was found lying on the ground by a fence located between [REDACTED]. He had sustained a gun shot wound to his abdomen. [REDACTED] was transported to Sutter Hospital and treated for his injuries.

According to [REDACTED] (father of [REDACTED]) the family was home that evening when they heard a noise coming from their rear yard. [REDACTED] and [REDACTED] went to check the yard and saw the shadow of a man prowling and looking at a teenage girl in the home. The subject took off running towards the street and both gave chase. The suspect ran across the street to [REDACTED] and jumped over the fence on the right side of the house. [REDACTED] was just about to clear the fence as well, when the first shot was fired striking him. [REDACTED] fell back onto the ground. [REDACTED] approached [REDACTED] and a second shot was fired. [REDACTED] grabbed [REDACTED] and dragged him to the other side of the residence.

Several neighbors stated they heard the shots and went to investigate. Nearby neighbors on [REDACTED] heard [REDACTED] yelling for help. 9-1-1 was then called. Other neighbors on the nearby [REDACTED] stated they saw a subject running through a yard on the east side of the [REDACTED] then out onto [REDACTED] and run northbound, across [REDACTED] and into the parking lot of [REDACTED]. There they lost sight of him.

Another neighbor responded to the gunshots and tried to follow the suspect onto [REDACTED]. When he reached that roadway, he saw three girls walking along [REDACTED]. He asked them if they saw anyone running and they told him they saw a male run into the bushes in front of [REDACTED]. They could provide no further description, other than male, 25-30 years old and having "heavy legs."

[REDACTED]

[REDACTED]

From 6/18/76 to 4/14/78, during Phase One of the series, the [REDACTED] attacks all occurred in the greater Sacramento area east or north east of downtown. Two cases during this phase occurred in Stockton: one in September, 1977 and another in March, 1978. After each Stockton attack, the [REDACTED] went back and attacked in the Sacramento region.

The neighborhoods where sexual assaults eventually occurred, were plagued with hang up and lewd phone calls that preceded both burglaries in the neighborhoods, prowling activity, and sexual assaults. Your affiant believes the EAR used these phone calls to gain intelligence on residents who were home and or possibly vulnerable to attack or burglary. Detectives I have spoken with who worked the initial investigation began to become aware that these phone calls were a unique indicator of eventual EAR activity.

Phase One began coming to an end with the Rancho Cordova double murder of Brian and Katie Maggiore on 2/2/78. Though the offender committed 2 additional sexual assaults following the double murder, he never struck the patrol jurisdiction of the Sacramento County Sheriff's Department again. His final two sexual assaults in this phase were in Stockton and the Pocket area of Sacramento. The EAR had never struck the Pocket area of Sacramento before. An enhanced composite sketch of the suspect in the murder of Brian and Katie Maggiore was released on 4/16/78, and the EAR never struck Sacramento County again.

#### **DETAILED SUMMARY OF THE BRIAN AND KATIE MAGGIORE MURDER:**

Shortly after 9pm on February 2, 1978, USAF Sgt. Brian Maggiore, 21, and his wife Katie, 20, took their dog for a walk through Cordova Meadows, the quiet, middle class subdivision of Rancho Cordova in which they lived. On that particular evening, the area they walked was very dark. Only a quarter moon, a few porch lights, and a couple of residential light posts at the edge of an occasional driveway provided illumination. At the time, Cordova Meadows was heavily prowled and burglarized and was the location of several sexual assaults [REDACTED]

At some point on their walk, Brian and Katie engaged with an unidentified assailant and came to be in the backyard of a residence in the 10100 block of La Gloria Drive. It is unknown whether they were chased into the yard, followed the suspect into the yard, or perhaps followed their dog into the yard (the dog was later located in the swimming pool of the residence).

A witness who lived at the residence described the violent encounter in his backyard. His vantage point was an upstairs window. He observed the suspect and the victims in his backyard and watched as they ran into the adjacent rear yard on La Alegria Drive (one street south of La Gloria) through a section of a fence that had been blown down. The witness at the La Gloria residence saw the suspect raise his arm and fire at the fleeing victims. He also witnessed the suspect fire towards the ground near the patio of the La Alegria residence. (Brian was subsequently located in this location suffering a from gunshot wound that rendered him unable to speak.) The witness then saw the suspect run around the east side of the house near the residence's chimney and disappear. It was too dark for the victim to make out specific details of the suspect even from his excellent vantage point.

A different witness standing in his driveway on La Alegria Drive was speaking with a neighbor. Both the witness and neighbor heard two separate gunshot events. The witness then heard the sound of a man jumping over the gate immediately next to the chimney of the crime scene residence on La Alegria where the suspect had fled. He heard a sound as though someone had jumped a fence and fallen into bushes. The witness said he heard the suspect thrash in the

bushes, free himself, and then run west towards West La Loma Drive (Witness's direction.) The witness then saw the suspect run up onto the witness's lawn and near a tree in the yard. The suspect got within approximately 25 feet of the witness when the suspect spotted the witness and the neighbor. The suspect rapidly changed direction and ran across the street. In his brief observation, the witness noticed the suspect was wearing a black or blue knit ski mask that left only his eyes and nose exposed and was possibly holding a handgun. He further stated the subject was wearing a brown leather jacket, gathered at the waist, with a peanut-shaped stain on the lower right side of the back. The subject had dark, quiet shoes. He described him as 6'0" to 6'2" inches tall with fair skin. He worked with a sketch artist and the following composite was drawn:

A witness who lived across the street reported to detectives that she had seen the subject run onto the lawn from the sidewalk as described, and change direction. She observed the subject to be approximately 5'9", which came from a direct comparison of the height of the suspect to the height of the young man who was in his driveway, and was known to her. A young lady in the same home reported the suspect ran through her side yard, jumped a fence in the backyard, and ran onto the adjacent street, Capiales Drive.

Several other witnesses apparently saw the same suspect (based upon their general agreement on clothing description and other features) on Capiales and other nearby streets generally heading northeast, away from the crime scene. Odd behavior was noted by several of the witnesses, including strange comments such as "Excuse me, I'm trespassing" when seen by a resident in his yard. One witness saw the suspect carrying a football-sized object in his hand that appeared to

be made of cloth. The suspect would jump behind objects and shield his face with his arm and jacket whenever he encountered a witness.

In all of the nearly one dozen witness accounts of events following the shooting, only a lone suspect was observed by each witness. [REDACTED]

[REDACTED] They described him as follows:

- White male
- 5'9" to 6'0"
- 20-30 years old
- Brown hair to middle of ear: described by some as light brown, by others as brown or dark brown
- Hair parted, but described by some as bushy
- Dark jacket made of shiny material, possibly leather or vinyl, most commonly described as brown
- Soft-soled shoes

At the crime scene where both Brian and Katie were shot, a single pre-tied shoelace was located in the yard a few feet from where Brian was lying. Considering that several seconds elapsed between shots being fired and the witness seeing the man jumping the fence, [REDACTED]

[REDACTED] The owners of the home where the couple were found did not recognize the shoelaces. [REDACTED]

[REDACTED] they were pre-tied as a ligature as opposed to a straight shoelace, as if to allow a quick cinching technique. [REDACTED]

[REDACTED]

Brian and Katie Maggiore were each transported to area hospitals where they died as a result of the gunshot wounds they suffered during this event.

#### EXAMINATION OF THE EVENTS LEADING UP TO THE MAGGIORE HOMICIDES

Twelve homes in the immediate neighborhood of the murders (Cordova Meadows subdivision) reported [REDACTED] incidents in the weeks and days leading up to the murders as well as the night of the murder. These incidents included prowlers, hang-up and/or silent phone calls, and burglaries. Additionally, other residences along the American River Parkway to the east and west were burglarized that night.

Affiant has read all of the neighborhood crime reports leading up to the Maggiore murders.

[REDACTED]

In addition, your affiant has read in excess of 30,000 reports from the time period

[REDACTED]

The following crimes occurred in the weeks, days, and hours preceding the murder of Brian and Katie Maggiore. All occurred within approximately 1/3 mile radius of each other.

[REDACTED] A young woman reported receiving hang up phone calls where caller said nothing and would then hang up. These occurred every night for a week prior to the murders. All calls occurred at the same time: 8:00 p.m. There was no call the night of the murder or at any time after.

[REDACTED] A young couple moved into the home in the fall of 1977. They had prowler activity at night and suffered a burglary in winter of 1977. Undergarments belonging to wife appeared to be missing. Gates and doors were found open around Christmas of 1977, leading them to believe the home had been re-entered. No items were taken.

[REDACTED] A young woman resided at the residence and reported prowler activity in the two weeks leading up to the double murder. Also reported were phone calls where the caller said nothing and then hung up.

[REDACTED] A 25-year-old woman experienced heavy prowler activity beginning a little over a month before the murders. Shoeprints were found outside the bedroom window, and the gate was constantly left open. Attempts to secure it resulted in the culprit damaging it to gain entry. Drawings on the window in what was suspected to be bodily fluids were left by the culprit.

[REDACTED] A married couple in their early twenties reported experiencing a burglary, four months before the murders, in which nothing was taken. An unknown subject was observed in backyard on one occasion.

[REDACTED] A man in his twenties and two female roommates in their twenties reported prowler activity a few months before the murders. Numerous hang up phone calls had been received since that time.

[REDACTED] A married couple in their early twenties reported receiving suspicious phone calls, beginning a week prior to the murders, in which the caller would say nothing and then disconnect.

[REDACTED] A woman in her thirties suffered a nighttime burglary three nights before the murders. Nothing was taken.

[REDACTED] A woman in her twenties sustained a nighttime attempted burglary on the night of the murders. The burglar's entry was thwarted by a secondary security device on the sliding door. The victim also reported an uptick in recent prowler activity at the residence.

[REDACTED] A residence on this block was burglarized within a week of the murders. The exact date and time are unknown, as the house was in the pre-sale stage and vacant. The residence had been completely secured, with all doors and windows locked a week prior by a real estate agent. Items were disturbed within residence, a carpet was stained, and entry was made through a kitchen window. Multiple screens were bent and two windows (including the point of entry) were unlocked. The attic was disturbed, and the access cover was moved from directly over the hole to the far edge, leaving the attic access hole open. Stains tested negative for blood or other biological substances. On several occasions when the real estate agent drove by the residence, he observed a yellow, ten-speed bike parked on the landing by the front door. The residence appeared otherwise normal, despite the presence of the bike.

[REDACTED] An attempted burglary occurred on February 1, 1978, at approximately 10:00 p.m, which was heard by neighbors who knew occupants were gone. The suspect kicked in padlocked side gate (which served as protection for swimming pool) after gaining initial access to the backyard via an open side gate. The window to a bedroom located within an enclosed patio was pried open, and another window had its screen removed. No entry was ultimately gained, possibly due to the awakening of the neighbors.

[REDACTED] A woman in her late thirties and other female occupants in the home across the street from the murder scene reported numerous suspicious hang-up phone calls in the week prior to the murder. The final call was received at 8pm on the night of the murders. The caller said nothing, remained on the line briefly, and then disconnected.

[REDACTED]

### COMPOSITE SKETCH

A composite sketch of the probable killer was released in April 1978. This composite was considered the most reliable at the time of release. [REDACTED]

[REDACTED]  
Two [REDACTED] offenses occurred following the murder of the Maggiores, but prior to the release of the sketch. One was in Stockton, where he had previously struck before after a multi-month absence. The other was in the City of Sacramento's 'Pocket' area, where he had never struck before.

Maggiore Murderer Composite Sketch

as an Auburn Police Officer

**Phase 2: Modesto and Davis 6/78 TO 7/78**

In June, 1978, [REDACTED]

[REDACTED] Phase 2 of the series. On 6/5/78, [REDACTED] in Modesto and within 48 hours he attacked in Davis on 6/7/78. The distance between these two cases is 91 driving miles.

Within two weeks [REDACTED] attacked again in Modesto on 6/23/78 and within 24 hours he had returned to Davis and attacked on 6/24/78. Two weeks passed and he attacked once more in Davis at 2:50am on 7/6/78. This last Davis attack concluded Phase 2 of the series.

[REDACTED]

### Phase 3: East Bay 10/78 TO 7/79

A three month long gap exists from the first week in July, 1978 until the second week in October, 1978 when no known [redacted] cases occurred – the longest period of inactivity [redacted] up to that time. Phase 3 started in October, 1978 after the three month period. Two couples were [redacted] within two days of each other (10/11/78 and 10/13/78) in Concord.

Over the next nine months following the Concord cases [redacted] committed [redacted] assaults in Walnut Creek (6/2/79 and 6/25/79), Danville (12/9/78, 6/11/79, and 7/6/79), San Ramon (10/28/78 and 12/18/78), Fremont (4/4/79), and San Jose (11/4/78 and 12/2/78). Most of these attacks in the East Bay were in neighborhoods within a few minutes driving distance of Interstate 680.

After the last Danville case on 7/6/79, [redacted] disappeared with no more known cases occurring in Northern California.

Both Sacramento and Contra Costa law enforcement agencies formed dedicated [redacted] Task Forces to address the continuous threat to the public created by the [redacted] Proactive tactical patrol strategies were implemented and every attack was thoroughly investigated. Hundreds of suspects were contacted by patrol officers or the task force investigators and eliminated either through physical description, alibis, or through secretor status.

In 2001, DNA testing done by the Contra Costa County Sheriff's Crime Lab linked three of the [redacted] cases (victim's [redacted] and [redacted] summarized at length below) to a series of homicides committed in Southern California between 1979 and 1986. Six cases with ten murdered victims were spread across Santa Barbara, Ventura, and Orange counties [redacted]

[REDACTED] . With the DNA link, I have added the Southern California homicides as Phase 4 of the series. [REDACTED]

**DETAILED SUMMARY OF THE 3 DNA LINKED EAR RAPES:**

[REDACTED] Contra Costa County Sheriff's Office [REDACTED]

On 10/28/78, [REDACTED] were asleep in their bed in the [REDACTED] San Ramon, CA. [REDACTED] woke up at night [REDACTED]

The suspect left and did not return.

In 2001, a DNA profile was developed from [REDACTED] swab that matched the DNA profile [REDACTED] recovered off of 3/1980 Ventura PD double homicide of Lyman and Charlene Smith.

#### Phase 4: Southern California

On 10/1/79, [REDACTED] and [REDACTED] were attacked while they slept at their home on [REDACTED], Goleta CA (Santa Barbara area). [REDACTED]

[REDACTED] In this case, [REDACTED] the female victim heard the offender pacing back and forth repeatedly stating "I'm going to kill them, I'm going to kill them this time." [REDACTED] got up and ran towards the front door. The offender caught her and she screams. The male victim [REDACTED] heard [REDACTED] scream so he jumped out of bed [REDACTED] out of the sliding door into the backyard. At this point the offender left the scene on a stolen bicycle. An off duty FBI agent who was a neighbor of the victims responded, got into his car, and pursued the offender. The offender drops the bike and starts hopping fences and escapes.

On 12/30/79, Dr. Robert Offerman (44yr WMA), an orthopedic surgeon and successful businessman, and Dr. Alexandra Manning (35yr WFA), a successful psychologist, were found dead in Offerman's condo at 767 Avenida Pequena, Goleta, CA. Manning was found nude lying face down in the bed with her hands bound behind her back. Manning died as a result of a single gunshot wound to the back of her head. Offerman was found nude lying on the floor next to the bed with the same type of binding as had been used on Manning wrapped in his hand. He died from three gunshot wounds: one to the top of the left buttocks, one to the right front side of his neck, and one at the front base of his neck. Both victims had been shot with nominal .38 caliber bullets all fired from the same gun.

On 3/16/80, Lyman Smith (43yr WMA), a former Deputy District Attorney who was expecting to be appointed as a judge by Governor Jerry Brown, and his wife Charlene Smith (34yr WFA) were found dead in their beds at their home located at 573 High Point Dr., Ventura. Lyman was found nude lying face down on the right side of the bed. Both his hands and feet had been bound. Charlene was found nude from the waist down, lying face up with her hands bound behind her back. Her ankles were also bound. Both victims died as a result of blows inflicted to their head by a wood log the offender had procured from the firewood pile outside the house. **Semen recovered from Charlene's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.** This attack will be summarized in much greater detail later in this affidavit. (A detailed summary of this case is contained below.)

On 8/21/80, Keith (28 yr. WMA) and Patrice Harrington (28 yr. WFA) were found dead in their bed by Keith's father Roger Harrington at their house owned by and shared with the father at 33381 Cockleshell Dr., Laguna Niguel. This house was located in a gated neighborhood but anybody on foot could easily gain access into the area. Roger Harrington was a wealthy businessman. Keith, a medical student at UC Irvine and Patrice, a nurse, had both been bludgeoned in the head by an unknown blunt object. Both were lying face down and had been completely covered with bedding. Keith was nude while Patrice was only wearing a short white terry cloth robe. Binding marks were present on both victim's wrists and on the female's ankles.

The binding material had been removed, presumably by the offender, prior to the bodies being found. **Semen recovered from Patrice's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

On 2/6/81, Manuela Whittuhn (28 yr. WFA) was found dead in her bed by her mother at 35 Columbus Way, Irvine. Manuela worked as a teller handling auto loans for the Airport Branch of the California First National Bank in Irvine. Her husband, David Whittuhn, was in the hospital being treated for a viral infection and therefore was not home when the homicide occurred. Manuela was found dressed in a bath robe and partially wrapped in a sleeping bag. She had received multiple blows to the back of her head. Binding marks were found around both her wrists and ankles but the binding material was missing. **Semen recovered from Manuela's vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

On 7/27/81, Greg Sanchez (27yr WMA) and Cheri Domingo (35yr WFA) were found dead in the master bedroom of 449 Toltec Way, Goleta. Cheri was house sitting at the residence that was for sale by the owner. Her boyfriend Greg had apparently come over to visit. Real estate agents found the bodies after coming to the house with clients. Greg was found nude lying face down on the floor, partially in the bedroom closet. He had one non-fatal gunshot wound that had entered through his left cheek and had received 24 blows to his head from an unknown weapon. After receiving the blows, Greg's head had been covered with clothing from the closet. No binding marks were present on either Greg's wrists or ankles. Cheri was found nude lying face down in the bed and was completely covered by bedding. Both arms were behind her back and binding marks encircled both wrists. However, the binding material was missing. Binding marks were also present on her ankles with the binding material missing. Cheri died as a result of multiple blunt force injuries to her head. **A semen stain on a blanket at the scene is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

On 5/5/86, Janelle Cruz (19 yr. WFA) was found dead in her bed at 13 Encina, Irvine. Janelle worked as a cashier for the Bullwinkle's restaurant. Janelle lived with her mother who was on vacation at the time of the homicide. A realtor had gone to the residence that was for sale to prescreen it for a client and found Janelle's body. Janelle was found lying face up on her bed with a blanket covering her head. She was nude from the waist down. Janelle died as a result of multiple blows to the face and head from an unknown blunt weapon. **Semen recovered from Cruz' vaginal swab is consistent with [REDACTED] DNA profile developed from the aforementioned Contra Costa cases.**

#### **DETAILED SUMMARY OF VENTURA MURDERS OF LYMAN AND CHARLENE SMITH:**

On 3/16/80 at 1:55pm. [REDACTED] went to his father Lyman and stepmother Charlene Smith's house at 573 High Point Dr. in the city of Ventura to mow the lawn. [REDACTED] knocked on the front door and after receiving no response; he went to the rear and contacted two males who were working in the rear yard. The two males indicated that his father should be home. [REDACTED] proceeded to a garage door and found it locked so he went to

the front door again and knocked again. After not receiving a response at this second attempt, [REDACTED] tried to open the front door and found it unlocked. He entered the residence and noticed the pillows disturbed on the living room couch and heard a noise coming from the back of the residence. [REDACTED] followed the noise to the master bedroom and discovered the noise was the alarm clock. Upon entering the master bedroom [REDACTED] noticed the dresser had been ransacked with doors open, drawers pulled out, and items disturbed.

[REDACTED] saw the bedspread had been pulled up and covered two figures laying on the bed. [REDACTED] went to the far side of the bed to turn off the alarm clock and wake up his father. At this time he noticed blood on the bedspread. [REDACTED] lifted up the bedspread and observed his father, Lyman Smith DOB 4/7/36, lying face down, with a large amount of blood on his head. [REDACTED] believed at this time his father was dead. [REDACTED] then called the police.

Upon entering the master bedroom, Ventura detective [REDACTED] observed a king size bed with the head against the south wall. A blood-stained wood log was laying on top of the bedspread at the foot of the bed. Pieces of bark were on the floor on the east side of the bed. Two figures were lying in the bed, completely covered with the bedspread. Blood was observed on the bedspread up at the head of the bed.

[REDACTED] lifted the southwest corner bedspread and observed a white male adult, later identified as Lyman Smith (DOB 4/7/36), lying face down on the pillow. Lividity was present on the face and a large amount of blood was under his head on the pillow. Lyman Smith was completely nude. The detective then lifted the southeast end of the bedspread and observed the body of a white female adult, identified as Charlene Smith DOB (4/17/46) laying on her back, with a large amount of blood covering her face and on the pillow. Charlene Smith was wearing a shirt but was nude from the waist down. Both victims had their hands bound behind their back with cord and each of their ankles were also bound. A small amount of blood spatter was seen on the wall at the head of the bed. Both bodies showed signs of early decomposition changes.

The autopsy found both victims had died as a result of multiple blows to the head. The wood log found at the foot of the bed was determined to be the weapon used to inflict the injuries to both victim's heads. A wood pile on the north side of the victim's house was determined to be the likely source of the wood log used as the bludgeoning weapon. Semen was found on Charlene Smith's vaginal swab.

In 1996 DNA testing from the semen evidence linked the double homicide of Lyman and Charlene Smith to three other homicide cases in Southern California: the 8/1980 double homicide of Keith and Patrice Harrington, the 2/1981 Irvine PD homicide of Manuela Whittuhn, and the 5/1986 homicide of Janelle Cruz. In 1997, DNA testing further linked the semen evidence from Charlene Smith to three Contra Costa County [REDACTED] cases that occurred at the end of 1978 and the early part of 1979. In 2011, DNA from the 7/1981 Santa Barbara S/O double homicide of Cherie Domingo and Gregory Sanchez was also linked to the DNA evidence recovered from Charlene Smith.

The early investigation into the homicides of Lyman and Charlene Smith focused on [REDACTED] a business partner of Lyman Smith who had been at the house the last night the victims

were known to be alive. [REDACTED] fingerprint had been found on a drinking glass recovered from the kitchen counter inside the Smith residence and a pastor had come forward stating [REDACTED] had made incriminating statements about being present during the homicide during a personal counseling session. The Ventura District Attorney charged [REDACTED] with the murders of Lyman and Charlene Smith. The pastor, the primary witness against defendant [REDACTED] was discredited at the preliminary hearing and the Ventura District Attorney dropped the case against [REDACTED]. Subsequent DNA testing eliminated [REDACTED] as the donor of the semen recovered from Charlene Smith's vaginal swab.

Your affiant learned additional DNA testing conducted during the first quarter of 2018 from the Smith semen evidence resulted in identifying a relative [REDACTED]. Subsequent investigation into the family lineage led to identifying **Joseph James DeAngelo Jr.** (DOB: November 08, 1945, white male, [REDACTED]) as a potential suspect. On April 18, 2018, a surreptitious sample from DeAngelo was collected from the driver's side car door handle he was directly observed driving. DeAngelo's vehicle was parked in a public location at the parking lot of the Hobby Lobby store in Roseville, CA. A swab was collected from the door handle while DeAngelo was inside the store. This car door swab was submitted to the Sacramento DA Crime Lab for DNA testing.

On 4/20/18, affiant received results produced by the Sacramento DA Crime Lab from a swab of DeAngelo's door handle. According to a qualified DNA criminalist the DNA contained a mixture of three individuals. The criminalist was able to isolate a contributor which accounted for 47% of the DNA present in the sample. The DNA was compared to one of the Orange county profiles which was confirmed by the criminalist to be identical to the profile from the March 1980 Lyman and Charlene Smith double homicide from Ventura County. This 47% contributor of the DNA was consistent with both the Orange County and Ventura County (Smith suspect) profiles. The likelihood ratio for the three person mixture can be expressed as at least 10 billion times more likely to obtain the DNA results if the contributor was the same as the Orange County/Ventura County [REDACTED] profile and two unknown and unrelated individuals than if three unknown and unrelated individuals were the contributors.

On 4/23/18, additional surreptitious samples were recovered out of DeAngelo's trash can, located at his residence, 8316 Canyon Oak Drive, Citrus Heights, CA 95610. The trash can was put out on the street in front of his house the night before. DeAngelo is the only male ever seen at the residence during surveillance of his home which has occurred over the last three days. Multiple samples were selected from the collected trash and sent to the lab for DNA testing. Only one item, a piece of tissue (item 234-#8), provided interpretable DNA results. The likelihood ratio for this sample can be expressed as at least 47.5 Septillion times more likely to obtain the DNA results if the contributor was the same as the Orange County/Ventura County [REDACTED] profile than if an unknown and unrelated individual is the contributor.

#### **EXAMINATION OF SUSPECT JOSEPH JAMES DEANGELO JR.**

It is my opinion that upon examination of the factors linking Joseph James DeAngelo Jr. to all the cases detailed above demonstrates he is the offender responsible for the [REDACTED] the murders of Brian and Katie Maggioro, [REDACTED]

[REDACTED] This includes the double homicide of Lyman and Charlene Smith.

Joseph James DeAngelo Jr. was born within the logical time frame of the offender, on November 8, 1945. He grew up in the Sacramento area and attended Folsom High School. DeAngelo left Sacramento in 1973 and took a job as a police officer in Exeter, CA. Exeter is less than 20 minutes away from the city of Visalia, CA the location of all the Visalia Ransacker crimes that culminated in the abduction attempt of Beth S. and the murder of her father [REDACTED] as well as the later shooting of Visalia Police Officer [REDACTED]. By 1974, DeAngelo attended a police academy for 400 hours at the Kings County Public Safety Academy. This academy was affiliated with the College of the Sequoias within Visalia, CA [REDACTED]

[REDACTED] DeAngelo's physical description is consistent with the [REDACTED] composite sketch of the suspect in those cases is also consistent with photos of DeAngelo in possession of investigators.

Joseph James DeAngelo is linked to the East Area Rapist series via geographical factors. Following the murder of [REDACTED] and the shooting of [REDACTED] DeAngelo relocated to the Sacramento area and took as a job as an Auburn Police Officer.

[REDACTED] Additionally, DeAngelo had been engaged to marry a woman named Bonnie. [REDACTED]

[REDACTED]

It is my opinion that the EAR murdered Brian and Katie Maggiore on 2/2/78. This crime occurred at the end of the EAR series in the first neighborhood the EAR struck in the Sacramento area. This neighborhood, Cordova Meadows, was a very active EAR [REDACTED] ground with [REDACTED] burglaries, prowling events, lewd/hang up phone calls, and [REDACTED] assaults from June of 1976 to March 1977. The concept of [REDACTED] for this offender is well documented throughout the cases, and exemplifies the behavior of the offender in his method of victim selection. This concept of [REDACTED] was discussed in detail in the FBI's Behavioral Analysis Unit report that examined all of these cases. Very few [REDACTED] assaults were not preceded by this stalking behavior of a specific neighborhood prior to the initiation of [REDACTED] assaults. [REDACTED]

[REDACTED]

Several M.O. factors link the EAR to this crime.

- [REDACTED]
- Strange phrases uttered such as "Excuse me, I'm trespassing"
  - Time of day is consistent with prowling/burglary offenses [REDACTED]
  - Use of hang up phone calls to identify residents who are home with the neighbor across the street getting such calls the night of and within an hour of the murder.
  - The hiding of the suspects identity while fleeing on foot
  - Jumping of fences to escape the area
  - Lack of immediate auto transportation as suspect forced to flee on foot
  - Physical description of suspect consistent with EAR
  - Composite sketch by witness that closely resembles DeAngelo
  - Cessation of activities in Rancho Cordova and Sacramento County Sheriff's jurisdiction following the murders
  - Cessation of all EAR activity in Sacramento County after the release of the composite

[REDACTED]

Finally, the [REDACTED] EAR had demonstrated in the [REDACTED] and [REDACTED] incidents that he would resort to explosive violence if met with resistance from a male. This pattern continues during the later [REDACTED] cases.

It is the opinion of your affiant that Brian Maggiore became involved in a close quarters confrontation with the EAR as he was involved in stalking, prowling, or burglarizing behavior. I believe the EAR shot Brian Maggiore, pursued Katie on foot and shot her.

It is the opinion of your affiant that Joseph James DeAngelo Jr. is responsible for the murder of Brian and Katie Maggiore on February 2, 1978. I pray a warrant be issued for his arrest.
