

Your Money In The Balance: How to Manage Your Investments While Managing Your Debt

Is it better to pay off my debt – or invest for my future?

The best answer may be a combination of the two.

Attend this presentation *and you will learn useful strategies* for increasing the “assets” side of your household balance sheet while reducing the “liabilities” side. Attendees will participate in solving real-world investment and budget-related problems.

Made possible with funding from the Investor Protection Trust in Washington D.C., through the Michigan Office of Financial and Insurance Regulation, all *Investor Education In Your Community* courses are non-commercial, free from sales pitches, and available to you through your library – at no cost. You will receive quality information from a trusted source, without the worry that someone will try to ‘sell’ you something. It gets no better than this! Additional resources will be available onsite from GreenPath Debt Solutions and MSU Extension. Course time: 90 minutes.

Attendance is free, but space is limited. Register with your library today.
