DEFICIT DISTRICT QUARTERLY REPORT TO THE HOUSE AND SENATE K-12 APPROPRIATIONS SUBCOMMITTEES

FINANCIAL ANALYSIS OF MICHIGAN DEFICIT SCHOOL DISTRICTS PROJECTED 2012-2013

An analysis of the projected 2012-2013 (fiscal year 2013) financial data has been completed for those school districts that ended FY 2012 with a deficit. The analysis is conducted using data collected from Deficit Elimination Plans (DEPs) and required monthly budget control reports.

Attachment B lists the 49 Michigan public school districts and public school academies that ended fiscal year (FY) 2012 in a deficit position. There were 48 such districts in June 2011. Attachment B also indicates the general status with regard to projected changes in the financial situation between June 30, 2012 and June 30, 2013.

Of the 49 districts that ended FY2012 in deficit, eleven (11) are projecting to successfully eliminate their deficit by the end of FY2013. These districts are identified in Attachment B, Category 1. Twenty-five districts are projecting to reduce their deficit in FY2013 (Attachment B, Category 2). Thirteen districts are projecting to increase their deficit in FY2013 (Attachment B, Category 3). At this point, MDE is aware of only three districts (Pinckney, South Lake and Bangor) that began FY 2013 with a positive fund balance and anticipate ending the year with a deficit fund balance (Attachment B, Category 4). That number is likely to change as the year progresses and the districts submit their annual financial data due on November 15, 2013.

NOTE: The 2012-13 data in this report are projections from the districts and are subject to change as the fiscal year progresses.
