

CHOICES

We are all given the choice between light and dark, good and evil. Our Dear Lord Jesus is light and good. The devil is dark and evil. Chelsea crossed paths with someone that chose dark and evil. There are things we need to change.

We have become a nation that lives in fear. We turn away and choose to ignore things we feel don't involve us. These are choices we need to change. We have to have the Light outshine the dark.

People don't need to endanger themselves. But, if we see things that are not right or, it looks questionable please call 911. Yes, we will feel a bit foolish if we are wrong, BUT how are we going to feel if we were RIGHT and didn't call.

You can't change woulda, coulda, shoulda.
