

Framework for Relaxing Covid-19 Protective Measures

Benchmark	Planning	Action
One week with no new infections or a significant downward trend	Begin discussion of re-opening	Monitoring status
Second week with no new infections or continued downward trend	Determine details of relaxing protective measures for recreation	Monitoring status
1. No new cases/downward trend; testing results (if available); actions of MD/Broward/PB	Determine details of relaxing protective measures for non-essential businesses, restaurants and bars	Recreation protective measures relaxed
2. No new cases/downward trend; testing results (if available); actions of MD/Broward/PB	Determine details of relaxing protective measures for entertainment venues, larger group gatherings, and facial-covering requirements for healthy, non-vulnerable individuals	Protective measures relaxed for non-essential businesses, restaurants and bars
3. No new cases/downward trend and DOH comfort with data from visitor feeder markets	Determine details of lodging re-opening (hotels, vacation rentals, campgrounds, etc.) and removal of checkpoint and airport screening	Protective measures for entertainment venues, large gatherings size restrictions and facial covering requirements
4. No new cases/downward trend and DOH comfort with data from visitor feeder markets	Continue monitoring of health and medical situation in local, regional and all tourism feeder areas	Re-opening of all lodging, removal of checkpoint and airport screening
5. Vaccine? Virus Disappearance?	Remove restrictions
