Case Number: 2011-00048759 ORI: CO0390100 Document Description: 20111011 KKNOWLES, Narrative K. Knowles #07-7 10-08-2011 2011-00048759 / 2011-00048599 On 10-08-11 at about 1325 hrs, I was dispatched a traffic hazard / suspicious incident at McDonalds 2428 Hwy 6 & 50. The advised a young female (possibly 12-13 years old) was driving a gold Lexus (Colorado license plate #856UEZ), the child was swerving and slamming on the brakes and acting like she did not know what she was doing. The car hen pulled into the drive thru of McDonalds. While en route, dispatch advised that the car had already left the area and viesa Mall security would be checking the area. I responded to the registered owner, Lori Rogers address, While at the Rogers' house (which there was no answer), dispatch advised that the car was back in the drive thru. I equested dispatch have Mail security respond back over to attempt to contact the vehicle since, I was up in Orchard Mesa. viall security was able to contact the vehicle until Sgt. Baker's arrival. Upon my arrival, I observed the gold Lexus to be parked on the south side of McDonalds in the drive thru waiting parking spots. I also observed a small female child, dentified as the control of the drivers seat. A female, identified as the control of the drivers seat. A female, identified as the control of the drivers seat. A McDonalds employee (Identified by Officer Wood, see his report) came out of the restaurant and handed Rogers a meal and as he employee walked away she stated, "oh they changed seats." With this statement, I requested Officer Wood to obtain a statement from the employee and the Mall Security officer who observed driving. contacted Rogers at which time she appeared lethargic In viewing Rogers' eyes, her pupils were constricted and she was risibly shaking. Due to my training and experience as a drug recognition expert, I felt Rogers may be under the influence of irugs and/or alcohol and requested Rogers to perform voluntary roadside maneuvers. I instructed Rogers the roadsides were roluntary and she could refuse to complete them. Rogers stated she understood and agreed to perform voluntary roadside naneuvers and stepped out of the vehicle. Rogers was having a difficult time following instructions and I had to explain hem several times. Rogers stated she understood my instructions and did not have any further questions. Horizontal gaze nystagmus and vertical nystagmus were not present; but lack of convergence was present. Rogers was placed into to the instruction stance for Romberg balance test. Rogers estimated 11 seconds for 30 seconds and ilsplayed a 3-4 inch circular sway while balancing. Rogers also displayed eyelld and body tremors. Rogers was placed into the instruction stance for walk and turn, she immediately started walking down the line and had to be old to stop and allow me to complete my instructions. Rogers was unable to maintain her balance and started walking two additional times prior to me completing the instructions and had to be placed back into the instruction stance. Rogers advised she understood the instructions and did not have any questions. Rogers took 5 very slow deliberate steps and then juddenly made a 90 degree turn and took 4 steps then another 90 degree turn and took 4 steps and then another 90 degree turn and 5 steps then another 90 degree turn took 2-3 steps and came to a stop advising she had completed the maneuver. Rogers was placed into the instruction stance for one leg stand and stated she understood the instruction; but then asked how nany seconds she needed to count. I started my instructions over and explained the entire maneuver to her again at which ime she stated she understood. Rogers counted very fast and put her foot down on "11" twice and falled to continue after seing told to continue. Rogers was placed into the instruction stance for finger to nose and stated she understood the instruction and did not have any questions. Rogers used the pad of her finger for all attempts and missed the tip of her nose 5 of 6 attempts. Rogers was placed into custody for the child abuse, reckless endangerment and permitting an unauthorized minor to drive. I also advised Rogers, I felt she was under the Influence of drugs and/or alcohol and advised her of Colorado expressed consent fince she was behind the wheel when I arrived on scene. to come an pick up During this time Sgt. Baker was contacting Rogers' mother, and Sgt. Baker and I discussed options and decided Rogers could be suffering from a medical or mental disorder in which she needed to be evaluated and we were concerned for her safety and the safety of her children; hus it was determined Rogers would be cited for the child abuse and reckless endangerment to the children (which Rogers agreed would be beneficial for her and her children). While on scene, I was advised of a similar incident which occurred on 10-07-11 at about 1301 hrs (GJPD case #11-00048599), in which reporting party, she was "learning how to irive" and was driving in the area of Ace Hardware, 2140 Broadway. admitted to driving the same car on 10-07-11 "in he Redlands at a gas station" and hitting a light pole (damage on the car observed, photographed by Ofc. Wood and booked nto evidence). custody and Rogers allowed to take the house key from the keychain in order The children were released into o go to the house to get the children clothes and food. Rogers requested her vehicle be secured in the McDonalds parking ot and the keys given to Rogers was transported to Grand Junction Police Department for further investigation in reference to the incident on 10-07-11. Once at the police department, Rogers was placed into the interview room across the hallway from the report room and her handcuffs removed.
