

Statement from Walmart

We are aware of the situation; we have been working with the FDA. It's an ongoing issue and concern. There currently is an ongoing investigation; we haven't heard anything new in the past week. The FDA has been unable to confirm if there is any kind of link or connection to illness in the treats to dogs. It is ongoing at this point; we haven't found any confirmed connection with the treats. We are continuing to monitor the situation.

If evidence is found we will take appropriate action. We have a food safety team and they oversee the food and safety requirements for our suppliers who supply us with pet food. We require everyone to be in compliance with all government regulations.
