REAL ESTATE ASSESSMENT CENTER

617105 / 800211535

COMMUNITY OPTIONS OF DENVER
4040 Radcliff Avenue
DENVER, CO 80236 -3508

Dear Owner:

Enclosed with this letter/electronic file is the latest Physical Inspection Summary Report for your property. An inspector, certified by HUD in the use of the inspection protocol, performed the inspection. The report includes property and ownership profile information and shows each deficiency observed during the inspection. Also enclosed is a short description of the elements of the report to assist you in interpretation.

The physical inspection was completed pursuant to HUD regulations at 24 CFR Part 5 and Part 200. You may review the regulations at any time from the Real Estate Assessment Center (REAC) web site at <http://www.hud.gov/offices/reac>. This site provides information about REAC and the physical inspection process and allows you to download a free copy of the inspection software and view deficiency definitions.

If the inspector noted any exigent health and safety (EH&S) deficiencies at the time of the inspection, you or your representative received a report listing those deficiencies. HUD requires you to immediately correct or mitigate all such deficiencies and report your actions within three (3) business days of receipt of the report. If you have not already done so, please provide the local HUD Office of Housing with a certification, on your letterhead, that these exigent items have been corrected. You must use the language in the enclosed certification to report completion of the EH&S deficiencies. If your property is assigned to a Performance Based Contract Administrator (PB-CA), your certification should be sent to the PB-CA and not to the local HUD office. If the loan is under the 232 program, your certification should be sent to the Account Executive with the Office of Healthcare Programs (OHP). Do not send your report to REAC.

Because your property received a score of 60 or above, HUD requires that you note and correct all deficiencies as part of your ongoing maintenance program. If there are any special requirements for your property, the local Office of Housing or PB-CA having jurisdiction will contact you. If, you are still working to complete approved work under an earlier PC or formal Plan of Action (PA), or you have not yet certified completion of a PC or PA, the Office of Housing requires that you contact the local HUD Office of Housing to discuss this inspection and its relationship to work in progress, or, if a 232 loan, the local OHP. If the mortgage on your property is insured by HUD/FHA, please provide copies of all correspondence regarding this inspection to your mortgagee.

If your property had any EH&S deficiencies, and you fail to correct all of these deficiencies within the required timeframe, or falsely certify to repairs made, these noncompliance issues may adversely affect your eligibility for participation in HUD programs. Under HUD's Previous Participation Review and Clearance procedure, these non-compliance issues constitute a standard for disapproval pursuant to 24 CFR Section 200.230(c)(3) and HUD Handbook 4065.1 REV-1, paragraph 2-1(D)(1)(b). Under these circumstances, a flag (disqualifying entry) will be

placed in the Active Partner Performance Systems (APPS) in accordance with the textual "NOTE" at the conclusion of paragraph 2-1(D)(1) of the above referenced handbook. This letter is the only notice that you will receive of the placing of a flag in the APPS for noncompliance.

We appreciate your cooperation during the inspection, and remind you of your ongoing responsibility to maintain this property in a manner that is decent, safe, sanitary and in good repair.

Thank you for your cooperation.

Sincerely,

SAMUEL TUFFOUR
PROGRAM MANAGER, PHYSICAL ASSESSMENT

Inspection Summary Report (POA) for Inspection #617105

Health & Safety Summary

	Site	Buildings	Units	Total	
Non-Life Threatening (NLT)					Health and Safety Narrative
Actual	0	0	1	1	1 site, 1 buildings and 3 units were inspected.
Projected	0	0	1	1	2 health and safety deficiencies(HSD) were observed.
Life Threatening (LT)					Percentage Inspected:
Actual	0	1	0	1	Site (PIS): 100%
Projected	0	1	0	1	Building (PIB): 100%
Smoke Detectors (SD)					Unit (PIU): 100%
Actual	0	0	0	0	Projected HSD:
Projected	0	0	0	0	Site = (Actual HSDS) / PIS
Overall					Building = (Actual HSDB) / PIB
Actual	0	1	1	2	Unit = (Actual HSDU) / PIU
Projected	0	1	1	2	If all buildings and units were inspected, it is projected that a total of 2 health and safety deficiencies would apply to the property.

Inspection Summary Report (POA) for Inspection #617105

Systemic Deficiencies

Type	Area	Item	Deficiency	B/U with defects	Total B/U	%
Capital	Site	Retaining Walls	Site - Damaged/Falling/Leaning (Retaining Walls)	1	1	100
Ordinary	CA	Emergency/Fire Exits	HS - Emergency/Fire Exits Blocked/ Unusable (Emergency/Fire Exits)	1	1	100
Ordinary	CA	Restroom Items	CA - Leaking Faucet/Pipes (Plumbing)	1	1	100
Ordinary	CA	Dryer Vent	CA - Missing/Damaged/Inoperable (Dryer Vent)	1	1	100
Ordinary	CA	Walls	CA - Mold/Mildew/Water Stains/Water Damage (Walls)	1	1	100
Ordinary	Unit	Doors	Unit - Damaged Hardware/Locks (Doors)	1	3	33
Ordinary	Unit	Hazards	HS - Tripping (Hazards)	1	3	33

Note:

B/U - Indicates Buildings or Units

BE - Indicates Building Exterior

BS - Indicates Building Systems

CA - Indicates Common Areas

Capital items are repairs that generally require large cash outlays. (Items such as new roofs and new appliances)

Ordinary items are repairs that require smaller cash outlays. (Items such as light fixtures, fire extinguishers and smoke detectors)

Inspection Summary Report (POA) for Inspection #617105

Score Details

Note: The inspection software allows for the recording of the same deficiency as many times as it occurs. However, it is only scored once. The number within the parenthesis after the Deficiency indicates the number of observations for this inspectable area. For example; "**Site - Spalling (Walkway / Steps) (4)**" indicates the deficiency was observed and recorded 4 times under Site. Each individual observation can be found in the [Deficiency Details](#) section of this report.

Item	Deficiency	Severity	Points Deducted	Points Received
------	------------	----------	-----------------	-----------------

Site - COMMUNITY OPTIONS OF DENVER - Site(0) [Possible Points : 14.74]

Non-Health And Safety Deficiencies

Item	Deficiency	Severity	Points Deducted	Points Received
Retaining Walls	Site - Damaged/Falling/Leaning (Retaining Walls)	Level 1	1.47	
			1.47	13.27

Building 1 - 4040 West Radcliff Avenue - Common Areas [Possible Points : 15.73]

Non-Health And Safety Deficiencies

Item	Deficiency	Severity	Points Deducted	Points Received
Dryer Vent	CA - Missing/Damaged/Inoperable (Dryer Vent)	Level 3	4.42	
Restroom Items	CA - Leaking Faucet/Pipes (Plumbing)	Level 1	0.74	
Walls	CA - Mold/Mildew/Water Stains/Water Damage (Walls)	Level 3	1.23	

Health And Safety Deficiencies

Item	Deficiency	Severity	Points Deducted	Points Received
Emergency/Fire Exits	HS - Emergency/Fire Exits Blocked/Unusable (Emergency/Fire Exits) (LT)	Level 3	4.42	
			10.81	4.91

Building 1 - 4040 West Radcliff Avenue - Unit ^(b) [Possible Points : 9.48]

Health And Safety Deficiencies

Doors	Unit - Damaged Hardware/Locks (Doors)	Level 3	1.55	
			1.55	10.84

Inspection Summary Report (POA) for Inspection #617105

Deficiency Details			
Item	Location/Comments	Deficiency/Severity	Decisions
Site - COMMUNITY OPTIONS OF DENVER - Site(0)			
Non-Health And Safety Deficiencies			
Retaining Walls	4040 West Radcliff Avenue Front walkway, planter box ties falling apart.	Site - Damaged/Falling/Leaning (Retaining Walls) - L1	- Signs of deterioration (for example, falling or leaning), but still functions and is not a safety risk
Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Building Exterior			
None			
Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Building Systems			
None			
Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Common Areas			
Non-Health And Safety Deficiencies			
Basement/Garage/Carport	Floor 1 Water stains garage wall by interior entry door.	CA - Mold/Mildew/Water Stains/Water Damage (Walls) - L3	- Mold or Mildew (for example, a darkened area) or Water Stains or Water Damage (for example evidence of water infiltration) - Greater than 1 square foot (wall surface may have failed) - This condition MAY RESULT in a Health AND Safety concern
Laundry Room	Floor 1 No water in vent box. Signs of lent residue.	CA - Missing/Damaged/Inoperable (Dryer Vent) - L3	- Not effectively vented
Restrooms	Floor 1	CA - Leaking Faucet/Pipes (Plumbing) - L1	- Shower or Tub - There is a leak - There is a leak or drip, but it is contained by the shower or tub basin
Health And Safety Deficiencies			
Emergency/Fire Exits	Floor 1	HS - Emergency/Fire Exits	- Emergency/Fire Exits

Inspection Summary Report (POA) for Inspection #617105

Item	Location/Comments	Deficiency/Severity	Decisions
	Kitchen security door double sided dead bolt on security door.	Blocked/Unusable (Emergency/Fire Exits) (LT) - L3	(applies only on third or lower floors) - Blocked - Other Condition (Please explain other condition in the box below)

Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Unit ^{(b) (1)}

Non-Health And Safety Deficiencies

Health And Safety Deficiencies

Hazards	Bedroom TV Cable across floor.	HS - Tripping (Hazards) (NLT) - L3	- Tripping (not related to elevators) - poses a tripping risk
---------	-----------------------------------	------------------------------------	---

Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Unit ^{(b) (1)}

None

Building 1 - 4040 West Radcliff Avenue[Sample,Inspected] - Unit ^{(b) (1)}

Non-Health And Safety Deficiencies

Doors	Bathroom	Unit - Damaged Hardware/ Locks (Doors) - L3	- Bathroom Door - Hardware is damaged or missing - Door cannot be locked (only if designed to lock).
-------	----------	---	--

Notice: Modifications to the Inspection Summary Report

With the rollout of the new Uniform Physical Condition Standards (UPCS) inspection software (version 4.0), PIH-REAC now has the capability to collect more detailed information about observations made during the inspection of properties. Therefore, the report has been modified to provide this detailed information, and also to make the results of the inspection more clear. The following explains the major changes to the report.

Changes to Score Summary - The section of the report, which summarizes the score, has been modified to better explain how the final score was derived for the property, and the source of lost points. Additionally, score information from the two most recent inspections of the property is provided to allow comparison to this inspection's score.

Addition of scored and non-scored deficiency reports - The section of the report that displays observed deficiencies has been divided into two sections: the Score Report and the Deficiency Report. Non-scored deficiencies refer to multiple deficiencies of the same type observed with the same sub-area, they are reported for informational purposes only and are not scored. Only one deficiency of the same type for the same sub-area is counted for scoring purposes.

Score Report - a detailed account of only the scored deficiencies by sub-area.

Deficiency Report - A detailed account of all deficiencies, both scored and non-scored, by sub-area. In addition, standardized locations and more descriptive information for each deficiency are provided.

To read more about the above, and for additional assistance in understanding the report, you may access the Inspection Summary Report Guide (version 4.0) at <http://www.hud.gov/offices/reac/products/pass/inspectionrpt40.cfm>

PHYSICAL INSPECTION SUMMARY REPORT

The Inspection Summary Report is designed to achieve two objectives:

1. Provide the Public Housing Agency or owner and/or owner agent (POA) with the background information, *i.e. addresses, phone numbers, building names, etc.*, collected during the property inspection.
2. Provide the POA the results of the REAC physical inspection of a specific property.

The items below describe the information provided in the Inspection Summary Report.

Inspection Number : The inspection number is unique for each property inspection conducted by REAC. Each time a property is inspected by REAC, a new inspection number is used. These unique numbers may be used to communicate with REAC on any matter concerning a particular inspection.

Property Information : Information related to a property is provided:

- Property identification number (in parentheses) - a unique number in HUD databases
- Property name
- Status as scattered site (Yes/No)
- Relevant addresses, phone numbers, fax numbers, and e-mail addresses for the property

Each of these should be checked carefully for accuracy. *All discrepancies should be reported to the REAC Physical Inspection Operations Center at 1-877-406-9220.*

Building Unit Count : The total number of buildings and units on the property are given, along with the number of buildings and units actually inspected by REAC

Scores : An overall numerical score is given as a value from zero to 100. Separate numerical scores are also given for each of five areas:

- site
- building exterior
- building systems
- common areas
- units

The five area scores range from zero to the maximum number of points possible for each area. The possible points for a given area are determined for a specific property based on the inspectable items actually present in each area. The sum of the area points identifies what the overall score would be if there were no health & safety (H&S) deficiencies. The overall numerical score is then calculated by subtracting the sum of deductions for H&S deficiencies from the sum of the individual "area points".

Examples of overall scores are: 95c; 67b*; 84a*; 100b; 78a; and 43c*. The asterisk(*) indicates that H&S deficiencies were found with respect to smoke detectors. The lower-case letter indicates whether or not other kinds of H&S deficiencies were observed, as follows:

- The letter "a" is given if no health and safety deficiencies were observed other than for smoke detectors.
- The lower-case letter "b" is given if one or more non-life threatening H&S deficiencies, but no exigent/fire safety

H&S deficiencies were observed other than for smoke detectors.

- The lower-case letter "c" is given if one or more exigent/ fire safety (calling for immediate attention or remedy) H&S deficiencies were observed.

Although all H&S deficiencies, except for smoke detector problems and "other" hazards, affect the scores with appropriate deductions, the letter grades are added to highlight the serious nature of H&S deficiencies, all of which need to be addressed by the POA.

Health and Safety Counts: In addition to the counts of actual H&S deficiencies observed in the inspected buildings and units, the *estimated* number of H&S deficiencies that would have been found had all buildings and units been inspected is also given. This projected count gives a sense of the total H&S problem for the inspected property. The projection is calculated by dividing the counts actually observed in buildings or units by the proportion of buildings or units inspected. The percent of buildings and units inspected is additionally given to show the basis for the calculations.

Systemic Deficiencies: Defects observed in at least one third ($1/3^{\text{rd}}$) of the inspected units or buildings are listed by whether or not they are repairs generally requiring large cash outlays ("Capital" items) or generally requiring smaller cash outlays ("Ordinary" items).

Participants & Buildings/Units: Information provided includes:

- relevant addresses, phone numbers, fax numbers, and e-mail addresses for participants

- name, year built, number of units and address for each building on the property. Note: All buildings on the property should be listed.

As before, each of these should be checked carefully for accuracy and any discrepancies should be reported to the REAC Technical Assistance Center (TAC) at 1-888-245-4860.

Inspectable Items: This portion of the report details all deficiencies found in the inspection. The main headings in the first column refer to the inspectable area -- site, building exterior, building systems, common area, unit or health & safety where the deficiency was observed. The entries are "inspectable items" within which the deficiencies were found. Some items may not be present for a given property. In such cases, appropriate adjustments are made in the points of each area. Items present, but with no deficiencies found, are not listed. Inspectable items are:

Site: fencing & gates, grounds, mail boxes/project signs market appeal, parking lots/driveways/roads, play areas and equipment, refuse disposal, retaining walls, storm drainage and walkways/stairs.

Building Exterior: doors, fire escapes, foundations, lighting, roofs, walls and windows.

Building Systems: domestic water, electrical system, elevators, emergency power, exhaust system, fire protection, heating/ ventilation/ air-conditioning and sanitary system.

Common Areas: basement/garage/carport, closet/utility/mechanical, community room, day care, halls/corridors/stairs, kitchen, laundry room, lobby, office, other community spaces, patio/porch/balcony, pools

and related structures, rest rooms/pool structures, storage and trash collection areas.

Unit: bathroom, call-for-aid, ceiling, doors, electrical system, floors, heating/ventilation/air-conditioning, hot water heater, kitchen, laundry area (room), lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls and windows.

Health & Safety: air quality, electrical hazards, elevator, emergency/ fire exits, flammable materials, garbage and debris, hazards, infestation.

Column labeled NO/OD:

NO: The inspection protocol requires the inspector to check for the existence of certificates for certain items such as lead-based paint, elevators, etc. If the inspector verifies all the required certificates, the report will not include any certificate information. If a certificate is not present, the first inspectable item listed will be "certificates" and the designation "NO" will be listed for each unavailable certificate.

OD: If the inspector records a deficiency, then an OD in this column refers to the "observed deficiency" for the given item.

Column labeled Observation: The column lists each specific deficiency observed within a given inspectable item. Each deficiency has a definition, which specifies what must be observed for that deficiency to be recorded. Also noted in this column are observations about Health & Safety items. These are:

- (LT) - Exigent/Fire Safety (calling for immediate attention or remedy)
- (NLT) - Non-Life Threatening
- (SD) - Smoke Detector

Definitions for all deficiencies are given in the physical inspection section at REAC's web site on the Internet (www.hud.gov/react/). Click on "Products" then "Physical Inspection" and then "Physical Inspection Definitions"

Column labeled Severity: Deficiencies differ by "severity". The definitions specify what must be recorded for a given deficiency under one of three possible severity levels - level 1, level 2 and level 3. The severity level is given on the report to indicate which part of the definition actually applies for the specific deficiency observed. Severity levels are defined within a given deficiency and do not necessarily indicate which deficiencies are the worst. For more serious deficiencies, a level 2 severity may be more of a problem and may reduce the overall score more than less serious deficiencies with a severity of level 3.

Location/Comments: Comments are required for all severity level 3 deficiencies.

Column labeled Ded.: This column gives the points deducted from the overall property score for the observed deficiencies. In the shaded heading the possible points are given for that area and building or unit. Although the listed points deducted may sum to more than the possible points, the total deducted from the overall property score for that area and building or unit does not exceed its possible points. The listing of points deducted is rounded to the nearest tenth of a point, so "<0.05" is listed when the points deducted is a very small fraction, but greater than zero. Where there is a blank or zero, such as for lack of a certificate or observed smoke detector problems, it means no points are deducted from the property score.

**PROJECT OWNER'S CERTIFICATION THAT ALL EXIGENT
HEALTH AND SAFETY ITEMS HAVE BEEN CORRECTED**
SEND OR FAX SIGNED COPY TO LOCAL MF OFFICE

[Name of Project Owner:] _____ (the "Project Owner"), the owner of [Project Name:] _____, [City:] _____, [State:] _____ [Project Number:] _____ (the "Project") by and through its duly authorized representative identified below, hereby certifies that:

1. All Exigent Health and Safety ("EH&S") items at the Project have been corrected. Such EH&S items include those identified in the Notification of Exigent and Fire Safety Hazards Observed, dated _____.

2. The attached Report accurately identifies the repairs that have been made to correct the EH&S items, the location of those repairs, and the date or dates the repairs were made. If repairs were not made, the dangerous condition was eliminated.

This certification is made by the Project Owner and is signed by a duly authorized representative of the Project Owner, who is so authorized by reason of his/her position as the [State Fully Relationship Between Signer of Certification and Project Owner:] _____

_____.

All of the foregoing statements, as well as the date, signature and identifying information of the signer and the Project Owner that follows, are HEREBY CERTIFIED as true and accurate this _____ day of _____, 20____.
