

20CR2211
ORIGINAL 204

EIGHTEENTH JUDICIAL DISTRICT

COUNTY OF ARAPAHOE

DETERMINATION OF PROBABLE CAUSE TO DETAIN

DATE FILED: August 31, 2020 9:16 AM
CASE NUMBER: 2020CR2211

#4

Arrestee: Kyree Anthony Brown
Address: At Large
City: Aurora
State/ZIP: Colorado 80012

DOB: 04/07/2002
SS# (DET#): [REDACTED]
Date of Arrest: 08/27/2020
Time of Arrest: 4:06 am pm

Arresting Agency: AURORA POLICE DEPARTMENT Phone: 303-739-6000

Arrested for: Charge
Charge 1: First Degree Murder 18-3-102
Charge 2: First Degree Murder 18-3-102
Charge 3:

AUG 28 2020
P. G. Mason

The above person is ordered to report to Court as directed by the appropriate law enforcement authorities per the following information:

Date: 8/31/2020 Time: 0930
APAPAHOE COUNTY DIST. COURT
Court Location: 7325 S. Potomac St., Centennial, CO 80112

Filed

AUG 31 2020

(Completed by Judge) Probable Cause Determination

CLERK OF THE COMBINED COURT
ARAPAHOE COUNTY, COLORADO

On this date, the Court has reviewed the relevant information pertaining to the arrest of the above individual and has determined:

Probable cause to believe that this person has committed a crime does exist and there is reason to detain said person pending posting of bond or further Court proceedings.

Probable cause to believe that this person has committed a crime has NOT been shown and the person is ordered released pending further Court proceedings and must appear before the Court as directed above.

In accordance with Section 18-1-1001(5) C.R.S., this person will not be allowed to be released from custody, even if the bond has been posted, until the person has received the mandatory protection order required from a Judge or Magistrate on the record.

BY THE COURT:

Judge

Division 15

<u>CHARGE(s)</u>	<u>Charge</u>	<u>Statute/Ordinance</u>	<u>Class</u>	<u>Bond</u>
1.	<u>First Deg Murder</u>	<u>18-3-102</u>	<u>F1</u>	<u>No Bond</u>
2.	<u>First Deg Murder</u>	<u>18-3-102</u>	<u>F1</u>	<u>No Bond</u>
3.	<u>Charge</u>	<u>Statute/Ordinance</u>	<u>Class</u>	<u>Bond</u>

I, Investigator David Sutherland #22553, a Police Officer with the City of Aurora Police Department, being duly sworn upon oath, states that there exists probable cause for the warrantless arrest of the above-named suspect for the charges stated above. The Officer further states that the facts below are based on the affiant's personal knowledge and/or interviews with witnesses and fellow Police Officers and/or the review of official law enforcement reports.

1. The crime(s) alleged occurred on August 14, 2013, at 11763 East Cornell Circle, City of Aurora, County of Arapahoe, and State of Colorado.
2. The suspect was arrested at 4:06 P.M. on the 27th day of August, 2020.
3. The facts in support of the probable cause for the warrantless arrest of the above-named suspect are as follows:

On August 14, 2020 at approximately 11:49 p.m. the Aurora Public Safety Communications (Dispatch Center) received a 911 call reporting of a shooting with two (2) victims near 11763 East Cornell Circle. This location is in the city of Aurora, county of Arapahoe and state of Colorado.

Officers with the Aurora Police Department (APD) were dispatched to this location where they observed a white in color 2012 Honda Pilot bearing Colorado license plate OND-619. This vehicle is registered to Jossline S and Joe W Roland to [REDACTED], Aurora, Colorado 80016.

Two (2) victims were located by officers within the vehicle. These victims were later positively identified as:

- Jossline Roland DOB: 01/01/80 Front Passenger Seat
- Joseph Roland DOB: 11/04/80 Driver Seat

Both were suffering from apparent gunshot wounds and were medically tended to on scene by members of the Aurora Fire Department (AFD) and Falk medics. Jossline and Joseph Roland were subsequently transported to The Medical Center of Aurora (TMCA) located at 1501 South Potomac Street via Falk ambulances where they succumbed to their injuries.

Jossline Roland was pronounced deceased at 12:29 a.m. by Doctor Brady in Emergency Room # 3. Joseph Roland was pronounced deceased at 12:24 a.m. by Doctor Wolf in Emergency Room # 1.

APD patrol officers secured the scene and evidence and began a canvass of the community seeking out additional witnesses and evidence.

Aurora Police Officer Joshua Bebee was dispatched to the area of 11763 East Cornell Circle to assist with the investigation. Upon arrival Officer Beebe observed the white Honda Pilot bearing Colorado License Plate OND-619. Officer Bebee observed Joseph Roland to be suffering an apparent gunshot wound to his left arm.

Officer Bebee contacted Howell, Amy DOB: 05/25/91 who stated that she and Anderson, Andrew DOB: 09/27/79 were marking a vehicle to be towed from the complex. Howell and Anderson are employed in a parking control capacity for this complex.

Howell told Officer Bebee that she and Anderson were in their vehicle, a gray Infinity bearing Colorado License Plate QAH-228 facing east bound. Howell stated she heard five (5) to six (6) gunshots. Howell told Officer Bebee that she observed the white Honda Pilot bearing Colorado License Plate OND-619 travel south bound through the parking lot, in front of them. Howell told Officer Bebee that she then observed a black SUV go southbound then westbound on East Cornell Avenue.

Officer Bebee located one (1) spent shell casing in the roadway next to a woman's wallet / pouch. Officer Bebee opened the wallet and located a business card, band aids, and a receipt. Anderson told Officer Bebee that he located the same wallet. The wallet was located near the white Honda Pilot bearing Colorado License Plate OND-619.

Aurora Police Officer Jonathan Denkin was dispatched to 11763 East Cornell Circle to assist with the investigation. Upon arrival Officer Denkin observed the white Honda Pilot bearing Colorado License Plate OND-619. Officer Denkin observed the vehicle was not in the park position. Officer Denkin observed a member of the Aurora Fire Department medical personnel place the vehicle in park. Officer Denkin observed four (4) spent shell casings on the floorboard of the vehicle.

Officer Denkin contacted the resident of 11927 East Cornell Circle identified as Peter Gaydman DOB: 11/01/1987. Gaydman had an external video surveillance system affixed to his residence. Officer Denkin observed the video footage. Officer Denkin observed the white Honda Pilot bearing Colorado License Plate OND-619 approach a dark colored SUV in the area of East Cornell Circle. Officer Denkin observed the white Honda Pilot bearing Colorado License Plate OND-619 with the dark colored SUV for several minutes. Officer Denkin observed an unidentified individual come from where the dark colored SUV was parked and comes to the driver's side of the white Honda Pilot. Officer Denkin then heard five (5) gunshots audible on the video footage. Officer Denkin observed the white Honda Pilot bearing Colorado License Plate OND-619 travel southbound where it comes to rest. Officer Denkin observed the dark colored SUV travel southbound away from the area.

Your affiant watched the video and observed a dark colored SUV with distinctive wheels.

Your affiant queried NCIC/CCIC and the Aurora Police Department Information Management System and found minimal contact with Joseph and Jossline Roland. Other than being contacted for traffic related incidents, neither had any contact with the Aurora Police Department of a criminal nature.

Your affiant and Detective Krieger responded to [REDACTED] to contact any and all relatives of Joseph and Jossline Roland currently at the residence. Detective Krieger knocked on the door to the residence. A young boy (juvenile child of Joseph and Jossline Roland) answered the door. Detective Krieger requested to speak with any adults currently inside the residence.

The young boy retrieved his seventeen (17) year old step sister identified as [REDACTED].

[REDACTED] was the oldest individual at the residence at that time. Detective Krieger requested [REDACTED] call another trusted adult to sit with her. [REDACTED] contacted a female identified as Twila Morton DOB: 06/09/1963. Morton responded to [REDACTED] to be with [REDACTED] while Detective Krieger spoke with her. [REDACTED] told Detective Krieger that she did not have any other family members in Colorado at this time.

Detective Krieger informed [REDACTED] that her parents had been killed earlier in the evening. [REDACTED] told Detective Krieger that Jossline Roland is her step-mother. [REDACTED] stated that she knew her parents had left the residence on August 14, 2020 at approximately 11:00 p.m. to purchase a vehicle in the area of the Southlands Shopping Center in Aurora, Colorado. [REDACTED] told Detective Krieger that Joseph Roland (her father) "flips" cars for a living. [REDACTED] told Detective Krieger that Joseph Roland uses Craigslist and Letgo to find vehicles to purchase. [REDACTED] stated her step-mother (Jossline Roland) accompanied Joseph Roland to the vehicle purchase in order to drive their vehicle back to the residence. [REDACTED] advised that Joseph Roland had advised her that he was going to be looking at a Toyota Rav 4 to possibly purchase at Southlands.

[REDACTED] stated she was supposed to accompany Joseph Roland to the vehicle purchase, however, she instead drove her boyfriend home. [REDACTED] stated Joseph Roland (father) has two (2) cell phones, one for work purposes and one for personal use. [REDACTED] stated Joseph Roland's cell phones are both iPhones. [REDACTED] provided the passcode for Joseph Roland's cell phone.

The search warrant for the white Honda Pilot bearing Colorado License Plate OND-619 was reviewed and approved by 18th Judicial District Judge Vahle. Investigators Hunt, Olson and CSI Angela Cloud responded to 11763 East Cornell Circle to document the scene and collect any evidence located.

Inside the vehicle (white Honda Pilot OND-619) Investigator Hunt observed four (4) spent shell casings on the driver's side floorboard, a white Bank of America envelope with the number and letter 5K written on the front containing thirteen hundred dollars US Currency (\$1,300.00) located in the center console of the vehicle, and one of Joseph Roland's cell phones (identified as an iPhone).

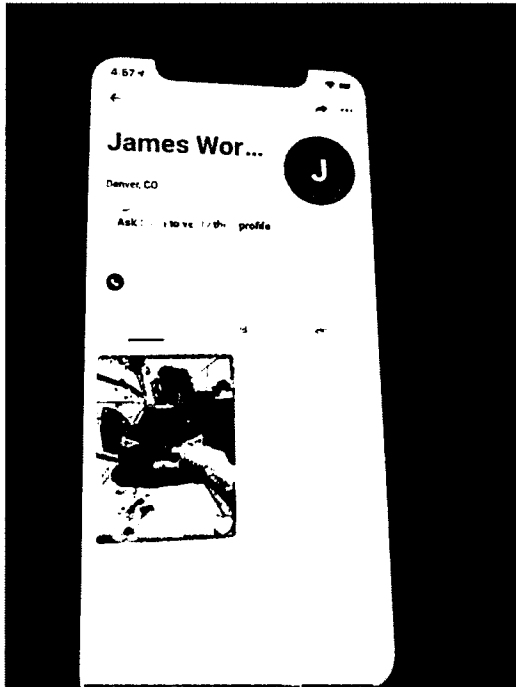

Your affiant contacted Aurora Police Department Detective Del Matticks, currently assigned to the Aurora Police Department Crime Lab. Your affiant asked Detective Matticks to forensically analyze Joseph Roland's cell phone. Detective Matticks provided your affiant with a flash drive containing the information obtained from the cell phone.

Your affiant also retrieved the cell phone from the Aurora Police Department Crime Lab and accessed the phone using the passcode. Your affiant located the Letgo application on Joseph Roland's cell phone. Your affiant opened the Letgo application and located a post of a vehicle for sale in a list accessed by Joseph Roland. The vehicle for sale was a 2017 blue in color Toyota Rav4. The price of the vehicle was listed at five thousand dollars (\$5000.00). The distinctive wheels matched the wheels seen by your affiant on the surveillance video from the shooting location near 11927 East Cornell Circle.

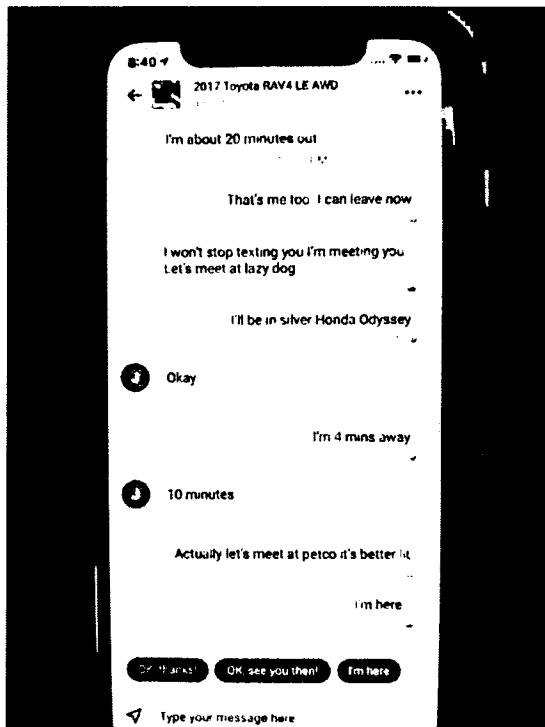

Your affiant also retrieved the cell phone from the Aurora Police Department Crime Lab and accessed the phone using the passcode. Your affiant located the Letgo application on Joseph Roland's cell phone. Your affiant opened the Letgo application and located a post of a vehicle for sale in a list accessed by Joseph Roland. The vehicle for sale was a 2017 Toyota Rav4. The price of the vehicle was listed at five thousand dollars (\$5000.00). The distinctive wheels matched the wheels seen by your affiant on the surveillance video from the shooting location 11927 East Cornell Circle.

Your affiant observed the Letgo user that posted the 2017 Toyota Rav4 for sale was identified as James Worthy. Your affiant observed that James Worthy has not posted anything else for sale on Letgo. Your affiant observed that James Worthy has not purchased anything on Letsgo. Your affiant also observed James Worthy has not been reviewed by any other Letgo users. Your affiant observed the James Worthy's Letgo account was verified with an undisclosed phone number.

Your affiant also located a Letgo chat between Joseph Roland and James Worthy. The “chat” was contained on James Roland’s cell phone within the Letgo application. Your affiant observed the same photograph of the 2017 Toyota Rav4 at the top of the chat between James Roland and James Worthy.

On August 17, 2020 Your affiant was notified that a 2017 Toyota Rav4 was stolen from 5122 North Dillon Street, Denver, Colorado on August 9, 2020. The motor vehicle theft was documented under Denver Police Department Case Number 2020-48044. The 2017 Toyota Rav4 bearing Colorado License Plate SOH-848 was located and recovered at 422 North Jamaica Street, Aurora, Colorado on August 15, 2020 (after the shooting occurred). The 2017 Toyota Rav4 was ignited, however, the fire burned out quickly. The Toyota Rav4 bearing Colorado License Plate SOH-848 was towed to the Aurora Police Department Seizure Bay located at the Aurora Police Department Impound Facility.

Your affiant observed the 2017 Toyota Rav4 for sale on Letgo, posted by James Worthy listed a Vehicle Identification Number of. Investigator Sutherland queried the Department of Motor Vehicles regarding Colorado License Plate Number SOH-848. The vehicle identification number for the 2017 Toyota Rav4 bearing Colorado License Plate SOH-848 is 2T3BFREV2HW557497. The vehicle identification number posted by James Worthy in the Letgo application VIN Check Report is 2T3BFREV2HW557497. The vehicle identification numbers are the same.

Detective Krieger contacted Aurora Police Department Investigator Andrew McDermott. Investigator McDermott told your affiant that the extraction process for Infotainment is possibly consumptive / destructive once the "chip" for the module has been removed.

Investigator McDermott stated the extraction process of the physical evidence will be performed at the Aurora Police Department Impound Facility, however the processing of the data may have to be sent to a corporate office located in another state. A copy of the information provided when the chip is removed from the module will be retained.

Investigator McDermott told Detective Krieger that the general make and model (2017 Toyota Rav4) is not currently supported by the Infotainment System, however, the extraction of the chip and processing, analyzing, and supplying of information possibly contained on the chip is possible.

Detective Krieger is also aware that the possibility of the data and information not being contained on the chip within the vehicle is in existence. Detective Krieger knows that in order to capture the information, the suspect would've had to connect an electronic device while inside the vehicle. Detective Krieger knows through previous investigations that the information Detective Krieger is requesting may not be stored on the chip inside the vehicle. However, Detective Krieger's goal is to perform a complete and thorough investigation to both identify and exonerate individuals involved in this case.

On August 19, 2020 your affiant queried the Letgo application. your affiant told your affiant that the user "James Worthy" was no longer appearing in the application as an active user (it is possible the account was deleted or inactivated). your affiant searched ads in Letgo for 2017 Toyota Rav4. Your affiant told Detective Krieger that another user, identified as Jessica Harlan, had posted the same vehicle for sale (2017 Toyota Rav4) as previously posted for sale by "James Worthy". The pictures used to post the vehicle for sale are identical. Detective Krieger believes based on the similarity of the pictures, the similarity of and the vehicle posted for sale that the account holder "James Worthy" created a new profile under the name of Jessica Harlan. Detective Krieger also informs the court that the vehicle posted for sale by Jessica Harlan is currently stored at the Aurora Police Department Impound Facility, thus making the ad for the vehicle for sale fictitious.

Detective Krieger requested the same information on the account Jessica Harlan as Detective Krieger requested for James Worthy, as Detective Krieger believes they are related and can further the investigation and assist in identifying the suspect in the double homicide which occurred at 11763 East Cornell Circle.

On August 20, 2020 Detective Krieger authored a search warrant for the extraction of the Infotainment system contained within the 2017 Toyota Rav4. On August 21, 2020 The Infotainment warrant was reviewed and approved by 18th Judicial District Magistrate Kathleen Janski.

On August 26, 2020 your affiant and Detective Krieger met with Aurora Police Department Officer Investigator Andrew McDermott at the Aurora Police Department Impound Facility. Investigator McDermott is currently assigned to the RAVEN (Regional Anti-Violence Enforcement Network)

taskforce which focuses on violent crime and the apprehension of criminals involved commission of violent crime.

Your affiant, Detective Krieger, and Investigator McDermott were at the Aurora Police Department Impound Facility to execute the Infotainment search warrant. Investigator Mark Hodges with CMATT (a metro auto theft task force) who is trained in the extraction of the module met us at the Aurora Police Department Impound Facility and removed the module.

On August 26, 2020 Detective Krieger received information regarding the production of records court order issued to Letgo. The information included the subscriber information / account holder email address as kyreeb76@gmail.com . Minimal other information about the subscriber / account holder was provided (no phone number, no name, a fictitious address). In speaking with Investigator McDermott about the case and information obtained, it was determined that an emergency order issued to google to obtain the subscriber information on the email account was necessary. The emergency order on the gmail.com account may provide a name, a phone number, and other identifying information.

On August 26, 2020, Detective McDermott reviewed the responsive data received from Letgo regarding the letgo account associate with user name "Jessica Harlan" and email address "kyreeb76@gmail.com."

The responsive data included subscriber information (listed above), a list of items that were listed for sale by the user of the account, a chat log, and an event summary (event-ios). Detective McDermott noted that the event summary contained a list of the activity conducted, a date/time column (occurred at), and a column for the IP address that was used to access the account during each activity conducted. The data in the date and time column needed to be reformatted in excel so that it could be deciphered and compared to the dates and times listed in the chat log. Detective McDermott made this conversion in excel, without modifying the original data.

Detective McDermott focused only on the conversations in the chat log that occurred between the suspect account ("Jessica Harlan") and the known victim account under user name "Rizzo" and email address joewroland@yahoo.com. This conversation was assigned conversation ID # 1e2cd886-1b16-4b0a-b604-347cf3077c34 by Letgo and Detective McDermott used that conversation ID to filter down to just the conversation between the suspect and victim account. Detective McDermott noted that this conversation occurred on August 15, 2020, from approximately 10:02PM to 11:02PM (MST).

Detective McDermott then compared the event summary log to the chat log and found specific instances in which the times messages were sent by the suspect account correlated to message events in the event log. Detective McDermott noted that the only IPv4 address used by the suspect account during the conversation with the victim account was 174.198.129.195.

Detective McDermott knew that IP addresses can be resolved to cellular devices and/or physical locations and has performed this task in numerous investigations.

Detective McDermott used a publicly accessible search engine to determine that this IP address was issued by Verizon Wireless. Detective McDermott knew that this meant that the suspect in this case used a cell phone or other wireless device that was serviced by Verizon Wireless to arrange the meeting with the victims.

Detective McDermott contacted the Verizon Security Assistance Team (VAST) and spoke with Grant F. Detective McDermott confirmed that Verizon could resolve this IP address to cellular devices that used it at a specific time. However, the results would include all phones that had access to that IPv4 address, to include phones across the Nation and here in Colorado. Detective McDermott understood this to mean that the responsive data would include the phone number related to the suspect device, along with numbers that were not related to this investigation at all. Detective McDermott also knew that, if the request for this information included more than one time the IP address was used by the suspect, then it would be possible to determine which phone number the suspect had.

Detective McDermott conferred with your affiant and determined that the likely hood of this suspect or suspects setting up another "sale" through Letgo was high, and that the likelihood of an innocent citizen being robbed and/or murdered was significant.

Detective McDermott contacted Verizon and requested an emergency disclosure regarding the cellular phone numbers that accessed IPv4 174.198.129.195 at specific times during the Letgo conversation between the suspect and victims. A list of the times provided to Verizon is included below. These times are in UTC, as provided by Letgo:

- 08/15/2020 at 04:19:12
- 08/15/2020 at 04:24:05
- 08/15/2020 at 04:31:28
- 08/15/2020 at 04:56:14

Detective McDermott received responsive data from Verizon and analyzed it. There were approximately 164 unique phone numbers in this data set. Detective McDermott also found that the times associated with these numbers were represented in the beginning and end time of the IP session. This meant that the IP access log contained a time range instead of a single point in time.

Detective McDermott used times that messages were sent by the suspect to the victim and compared it to the time ranges in the IP access log to narrow down the list of possible suspect numbers. This was difficult as many IP sessions lasted for several hours.

Detective McDermott had also noted that the subscriber information for the suspect account contained a Gmail email address. Detective McDermott knew that most, if not all, third party applications used to buy and sell items take steps to authenticate the user account before allowing access to their system. Some applications do this by verifying a cell phone number while

others use an email address. Detective McDermott concluded that, at least in this instance, Letgo used the Gmail address kyreeb76@gmail.com to verify the suspect account.

Detective McDermott knew that Google is the service provider for Gmail addresses and that they maintain account information for each of the email addresses they issue. Additionally, Detective McDermott knew that Google uses a similar verification process to establish accounts and that this typically involves using a verified cell phone number. Lastly, Detective McDermott knew that Google keeps IP address access logs related instances in which their customers access their accounts.

Detective McDermott contacted Google via their law enforcement portal (LERS) and requested an emergency disclosure of the account information associated with Gmail address kyreeb76@gmail.com.

Detective McDermott received responsive data and found that the account was listed in the name of Kyree Brown and that cellular phone number 720-392-5229 was listed as the account recovery phone number, the sign in phone number, and the user phone number. A screen shot containing that information is included below for reference.

Signin Phone Numbers:	+17203925229 [US]
User Phone Numbers:	+17203925229 [US]
Reachable Phone Numbers:	
2-Step Verification Phone Numbers:	

Detective McDermott knew that this meant the Google had verified the authenticity of this phone number prior to associating it with the account. Detective McDermott searched for phone number 720-392-5229 in the IP access logs provided by Verizon and referenced above.

Detective McDermott found that this number appeared three times in the IP access log and each instance was related to a period of time that included the times that messages were sent from the suspect account to the victim account. Those instances are listed below.

MSISDN	MBL IP Addr NAT	Port Alloc Date/Time	Port Dealloc Date/Time

7203925229	174.198.129.195	8/15/2020 2:41	8/15/2020 19:19
7203925229	174.198.129.195	8/15/2020 3:36	8/15/2020 5:15
7203925229	174.198.129.195	8/15/2020 3:56	8/15/2020 4:26

Detective McDermott knew that IP sessions can have significant duration and sometimes overlap. Detective McDermott noted that the times the messages were sent from the suspect to the victim were included in the range between the Port Allocation time and the Port Deallocation time and that the last message on August 15, 2020, at 05:02 (UTC) is included in the range of the second IP session.

Detective McDermott concluded that cellular phone number 720-392-5229 was the phone number used to set up the Gmail account that was used to authenticate the Letgo account that the suspect used during this homicide. Furthermore, Detective McDermott determined that the Verizon cellular device associated with phone number 720-392-5229 was used by the suspect to access the Letgo application and communicate with the victim to arrange the meeting that resulted in the death of the victims in this case.

Detective McDermott contacted Verizon Wireless and requested emergency pings be initiated and that an emergency pen register, trap and trace be installed on cellular phone number 720-392-5229. Verizon honored this request and Detective McDermott received responsive data.

On August 26, 2020 at approximately 9:20PM Detective McDermott was able to determine that the cellular device associated with 720-392-5229 was in the area East Mississippi Avenue and South Sable Street in Aurora. Detective McDermott and other investigators travelled to that location and began to attempt to locate the cellular device. From that point until approximately 1:00AM, the user of that device travelled throughout Aurora and Denver and investigators were not able to physically locate it.

Efforts to locate that device are ongoing as of the writing of this affidavit, and the pings and pen register/trap and trace associated with this account will need to be continued until the location of the device can be determined.

On August 27, 2020 Investigator McDermott issued an emergency order to Verizon to supply call detail records, RTT data, etc concerning the telephone number 720-329-5229. This was done to further the investigation as well as assist in identifying the suspect responsible for the homicide. Investigator McDermott contacted Detective Krieger and stated the cell phone 720-329-5229 was located at the Southlands Mall (East Orchard Road and South Central Street meeting place prior to the homicide) the homicide location 11763 East Cornell Circle, as well as the location for the abandoned stolen Toyota Rav4 422 North Jamaica Street.

Investigator McDermott had previously authored and executed emergency orders to produce records for the cellular phone number, 720-329-5229 which were received back from the respective service provider, Verizon.

The records, which were provided by the cellular service company (Verizon), were in electronic/digital format. Utilizing a software analytical tool, NIGHTHAWK LEOVision (NHLV), Investigator McDermott conducted an analysis of the call detail records (CDR's) obtained for 720-329-5229 associated to Kyree Brown and the email address kyreeb76@gmail.com. It is important to note that Investigator McDermott did not manipulate the raw data that received from the service provider, reference the court orders to produce, and simply uploaded the raw data into NHLV. NHLV does not change or manipulate the data records uploaded, rather NHLV conducts correlative analytics and then displays the data using multiple interactive tools. These tools constitute a user interface that allows an investigator to visualize the data in part related to temporal and geographic features associated with individual records provided by the service providers. Additionally an investigator can conduct correlation and relational analytics between and within data sets.

On August 27, 2020 the phone number 720-329-5229 was isolated to the area of 2349 North Elmira Street, Aurora, Colorado. The phone and phone number are currently in the area still, near a residential neighborhood. Investigator McDermott observed two males working on repairing a vehicle in the same area as the isolation of the cell phone.

On August 27, 2020 Investigator McDermott notified your affiant that the male, Kyree Brown was in a shed located at 2349 North Elmira Street, the same location where the cell phone 720-329-5229 was isolated.

Based on the investigation thus far, the Letgo account registered to the email kyreeb76@gmail.com was associated to a male by the name of Kyree Brown. The email address was associated to a phone number through the reconciliation of the IP addresses within the Letgo application to phone number 720-329-5229. The phone with phone number 720-329-5229 was located at all three important locations to the episode; the meet at Southlands Mall in Aurora, the homicide location at 11763 East Cornell Circle, and the abandonment of the Toyota Rav4 at 422 North Jamaica Street. The phone number was associated to Kyree Brown DOB: 04/07/2002 through prior contacts with the Denver Police Department and the Aurora Police Department. The phone number 720-329-5229 was isolated to the area of 2349 North Elmira Street, Aurora, Colorado. Kyree Brown was positively identified as being in the same area, near the vehicle under repair, and near the shed by Investigator McDermott. The likelihood that another person, not Kyree Brown, would randomly choose those three locations and not be the suspect in the homicide is statistically rare.

Detective McDermott positively identified Kyree Brown as being present at 2349 North Elmira Street and in possession of the phone with the listed number of 720-329-5229. Detective McDermott visually identified Kyree Brown from mugshots of prior arrests in Denver and Aurora.

Uniformed officers from the Aurora Police Department attempted to contact Kyree Brown and Adam Perales DOB: 09/23/82 who was driving a Dodge Ram pickup truck. Adam Perales fled from the scene while Kyree Brown was a passenger in the truck. This action culminated in a vehicular pursuit which was terminated near the intersection of Martin Luther King Boulevard and East 29th Avenue in Denver.

Kyree Brown and Adam Perales were ordered out of the truck by officers on scene and taken into custody without further incident. Both were then transported to the Aurora Police Department Headquarters building located at 15001 East Alameda Parkway.

Your affiant and Detective Krieger interviewed Adam Perales at HQ whereas it was determined that he had no knowledge or involvement in this homicide investigation. Perales was held on bond on unrelated criminal charges at the Aurora Detention Facility.

Your affiant and Detective Krieger then spoke with Kyree Brown at HQ. Your affiant read Kyree Brown his Miranda Rights direct from a department issued Miranda Rights Advisement card. Kyree Brown advised that he understood his rights and indicated that he wished to speak us.

During the interview Kyree Brown admitted that he and an unnamed friend of his had stolen the mentioned Rav4 while it was parked in the street in a neighborhood in Montbello (Denver). Kyree Brown admitted to having possessed this vehicle for several days before posting it for sale on the Letgo app.

Kyree Brown was shown the photographs that were posted on Letgo and advised that he was the one who had taken the pictures.

Kyree Brown admitted to meeting with victims Joseph and Jossline Roland at Southlands on August 14, 2020. Kyree Brown stated that he had communicated with Joseph by means of the Letgo app prior to meeting him and Jossline.

Kyree Brown stated that he had told Joseph that he had accidentally brought the wrong vehicle title to Southlands and indicated that both victims then followed him across town to the area of the crime scene near 11763 East Cornell Circle.

Kyree Brown stated that the victims followed him as he pulled into the complex and had parked behind him when he stopped. Brown then described exiting the stolen Rav4 and contacting Joseph and Jossline through the driver side window.

Kyree Brown shared that he then produced a 9mm handgun in his right hand which he pointed at Joseph and demanded the money. Brown said that Joseph then grabbed his arm and indicated that the victims vehicle began moving. Brown advised he then made the decision to shoot Joseph and indicated that during this time that he accidentally shot Jossline.

While the vehicle was still moving Kyree Brown described reaching across Joseph and taking an amount of US currency that was sitting atop the center console. Brown described obtaining approximately three thousand (\$3,000.00) dollars US currency from the vehicle/victims before returning back to the stolen car and fleeing the area.

After the homicide Kyree Brown stated that he purposely set fire to the stolen car by means of pouring gasoline over the seat and igniting it somewhere near Havana Street and East Colfax Avenue.

Your affiant requests that this information be sealed as the information contained herein is sensitive in nature. The initial reporting of this crime has attracted the attention of local media. Any premature dissemination of this information to the general public would hamper the integrity of this ongoing investigation. Your affiant would request that this affidavit remain sealed until all other discovery is submitted with the case filing.

Reports and additional pages stapled to this statement are incorporated into the statement.

Executed on the 27 day of August at 11:35 p.m.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.
